it within a wide interdisciplinary and transcultural range this book reaches beyond a conventional philosophy of history It deals with the chaotic as well as the cosmic part of the human historical experience It stages this drama through the tales that religious mythical literary philosophical folkloristic and historiographical sources tell and which are retold and interpreted here From early on humans wished to know where why and wherefore all started and took place Couldn t the dialectics between chaos and order be meaningful Couldn t they assume a productive role as to the world s precarious event Power strife guilt divine grace and revelation literary symbolization as well as storytelling are discussed in this book Philosophy political theory theology religious studies and literary studies will greatly benefit from its width and density
