American foreign policy Balkan history and contemporary issues diaspora movements and immigration and ethnic identity development generally Albania Andreas Hemming, Gentiana Kera, Enriketa Pandlejmoni, 2012 This collection of papers on contemporary issues in Albanian history and anthropology covers a broad range of approaches and forms of analysis The book includes research on parts of the country that have rarely made an appearance in international scholarship including recent research on various aspects of urban life in Albania with several chapters being set in Shkodra Tirana Elbasan and Gjirokastra Issues of local self organization or identity processes are presented as well A third core aspect that is addressed is the continued analysis of new and revealing demographic sources that shed light on the structure and history of the Albanian family Series Studies on South East Europe Vol 9 *The Crescent and the Eagle* George W. Gawrych, 2006-10-25 The Crescent and the Eagle examines the awakening of Albanian national identity from the end of the 19th century to the outbreak of the First World War a period of intense nationalism in the Balkans from an Ottoman perspective Drawing on Ottoman and European archival material the book undermines the customary negative stereotypes of Ottoman rule offering a more nuanced interpretation Gawrych provides a critical but objective examination of the evolution of government policies toward Albanians from attempts to mould them into an iron barrier to the establishment of a uniform system of administration He argues that this was a result of a complicated set of conflicting allegiances and identities rather than a simply adversarial struggle between government imposition of policy and Albanian resistance The author also analyses the general problems of endemic violence and misadministration at the provincial level and examines Albanian efforts to gain nationality rights and maintain local privileges and tribal autonomy Weaving his analysis of these events into a chronological framework he concludes that Albanian independence resulted from a confluence of foreign and domestic developments rather than from the design and will of the Albanians themselves This stimulating study offers many fresh insights into the dynamics of power within the Ottoman Empire and contributes a new perspective to the study of the development of Albanian nationalism *Historical Dictionary of Albania* Robert Elsie, 2010-03-19 Albania is not well known by outsiders it was deliberately closed to the outside world during the communist era Now it has thankfully become free again its borders are open and it can be visited and it is increasingly integrating with the rest of Europe and beyond Unfortunately Albania has had its share of problems in the post communist era it s a land of destitution and despair thanks in part to the Albanian mafia which has turned the country into one of blood feuds kalashnikovs and eternal crises Yet Albania is in essence a European nation like any other and will soon it is to be hoped advance and take its proper place in Europe and the world The second edition of the Historical Dictionary of Albania relates the history of this little known country through a detailed chronology an introduction a bibliography appendixes and over 700 cross referenced dictionary entries on significant persons places and events institutions and organizations and political economic social cultural and religious facets **Britain, the Albanian National Question and the Fall of the Ottoman Empire, 1876-1914** Daut Dauti, 2023-09-21 All too often Albania has

been considered a relatively minor player in late 19th and early 20th century history. By contrast this book highlights the significance of this nation and the Albanian question at this time through a detailed analysis of the relationship between Albania, Britain and the Ottoman Empire from 1876 to 1914. Making use of a wide range of archival source materials some of which are published here in English for the first time, this book explores British foreign policy towards the development of the Albanian national movement and parallel demise of the Ottoman Empire. In doing so it illuminates the objectives of the British government as well as shining a spotlight on the public opinion of both the British people towards Albanian nationalism and on the reaction of the Albanians towards the British diplomatic position. By looking through such a unique lens here Daut Dauti is able to provide fresh insight into why the Albanians were not supported by the Great Powers in their national quest in the way that other Balkan countries were and draws significant new conclusions on British Balkan and Ottoman relations. As such this nuanced study is vital reading for all scholars interested in modern Albanian history, turn of the century British international relations and the fall of the Ottoman Empire more broadly.

Engineering Geology for Society and Territory - Volume 1 Giorgio Lollino, Andrea Manconi, John Clague, Wei Shan, Marta Chiarle, 2014-08-23. This book is one out of 8 IAEG XII Congress volumes and deals with climate change affecting different natural processes and environments such as slope dynamics, water courses, coastal and marine environments, hydrological and littoral processes and permafrost terrain. Due to climate change, major effects are also expected on territorial planning and infrastructure, particularly in extreme climate regions. The volume and its contents aim to analyze the role of engineering geology and the solutions it may offer with respect to the ongoing environmental changes. Contributions regard the modeling of both the factors and the effects induced by climate change. Potential impacts of the climate change on the common practice and routine work of engineering geologists are also analyzed with particular attention to the risk assessment and mitigation procedures and to the adaptation measures adopted. The Engineering Geology for Society and Territory volumes of the IAEG XII Congress held in Torino from September 15-19, 2014, analyze the dynamic role of engineering geology in our changing world and build on the four main themes of the congress: environment, processes, issues and approaches. The congress topics and subject areas of the 8 IAEG XII Congress volumes are: Climate Change and Engineering Geology, Landslide Processes, River Basins, Reservoir Sedimentation and Water Resources, Marine and Coastal Processes, Urban Geology, Sustainable Planning and Landscape Exploitation, Applied Geology for Major Engineering Projects, Education, Professional Ethics and Public Recognition of Engineering Geology, Preservation of Cultural Heritage.

Armenia and Karabagh: the struggle for unity Christopher J. Walker, 1991-12-31. Despite a history of persecution, oppression and dispersion, the Armenian people continue to display a determination for survival and a high degree of national self-awareness.

Yet perestroika and glasnost found Soviet Armenia unprepared for the re emergence of Armenian political nationalism The focus of this book is on an issue crucial to Armenian identity the disputed territory of Mountainous Nagorno Karabagh in neighbouring Azerbaijan For centuries a centre of Armenian culture and intellectual life and with an Armenian majority Karabagh or Artsakh has consistently been denied an Armenian identity by successive Russian British and Azeri rulers Since 1920 Armenians of Karabagh have been immured against their will in Azerbaijan and deprived of many basic rights Today the majority people of Karabagh still define themselves as Armenian and continue the struggle for unification with the Republic of Armenia despite a crippling economic blockade A unique work on the subject this book also presents an objective history of the Armenian people in the USSR T rkiye and the diaspora Please note that the terminology in the fields of minority rights and indigenous peoples rights has changed over time MRG strives to reflect these changes as well as respect the right to self identification on the part of minorities and indigenous peoples At the same time after over 50 years work we know that our archive is of considerable interest to activists and researchers Therefore we make available as much of our back catalogue as possible while being aware that the language used may not reflect current thinking on these issues

The Albanians Miranda Vickers, 2011-01-28 This is the first full account of a country that following decades of isolation has undergone unprecedented changes to its political system: the collapse of communism, the progression to multi-party elections and the upheaval that followed the March 1997 uprising. Miranda Vickers traces the history of the Albanian people from the Ottoman period to the formation of the Albanian Communist Party. She considers the charismatic leadership of Enver Hoxha, Albania's relationship with Tito and the alliance with the Soviet Union and then China and the long period of isolation. Newly revised for this paperback edition, *The Albanians* considers the gradual process of reform and the fragility of the Albanian experiment with democracy and includes a dramatic account of the days leading up to Sali Berisha's resignation of the presidency. It has now been updated to cover the crisis in Kosovo that has led to the first Western war in Europe since 1945.
