Landscape Alchemy The Work Of Hargreaves Associates:

Landscape Alchemy Hargreaves Associates, George Hargreaves, 2009 Hargreaves Associates has been at the forefront of landscape architectural practice since its founding in 1983 creating a narrative approach to landscape architecture that layers history ecology and environmental phenomena Whether reductive or rich highly programmed or passive culturally interpretive or teeming with the phenomena of nature s own systems the built landscapes of Hargreaves Associates emphasize the power of connection to day to day life This volume presents projects from throughout the 25 year history of the firm and highlights the firm s role in advancing the reoccupation of postindustrial sites including the reclamation of waterfronts within the United States Europe and Australia Featuring color photographs and illustrations throughout the book also shows how the firm works with cultural landscapes urban parks smaller plazas and gardens Included are details on Hargreaves innovative entries in recent landscape architectural competitions including its stunning design of a 270 acre Victorian style pleasure garden for the 2012 London Olympics

Hargreaves George Hargreaves, 2009 Hargreaves Associates has been at the forefront of landscape architectural practice since its founding in 1983 This volume presents projects from throughout the firm s 25 year history showing the development of its work from the early days to its current direction advancing the reoccupation of industrial sites reclaiming waterfronts and creating new visions for public space Whether reductive or rich highly programmed or passive culturally interpretive or teeming with the phenomena of nature s own systems the built landscapes of Hargreaves Associates seek the power of connection to our day to day lives

Unearthed Karen M'Closkey, 2013-06-14 The work of landscape architecture firm Hargreaves Associates is globally renowned from the 21st Century Waterfront in Chattanooga Tennessee to London s 2012 Olympic Park Founded by George Hargreaves in 1983 this team of designers has transformed numerous abandoned sites into topographically and functionally diverse landscapes Hargreaves Associates body of work reflects the socioeconomic and legislative changes that have impacted landscape architecture over the past three decades particularly the availability of former industrial sites and their subsequent redevelopment into parks The firm s longstanding interest in such projects brings it into frequent contact with the communities and local authorities who use and live in these built environments which tend to be contested grounds owing to the conflicting claims of the populations and municipalities that use and manage them As microcosms of contemporary political social and economic terrains these designed spaces signify larger issues in urban redevelopment and landscape design The first scholarly examination of the firm s philosophy and body of work *Unearthed* uses Hargreaves Associates portfolio to illustrate the key challenges and opportunities of designing today s public spaces Illustrated with more than one hundred and fifty color and black and white images this study explores the methods behind canonical Hargreaves Associates sites such as San Francisco s Crissy Field Sydney Olympic Park and the Louisville Waterfront Park M Closkey outlines how Hargreaves and his longtime associate Mary Margaret Jones approach the design of public places conceptually

materially and formally on sites that require significant remaking in order to support a greater range of ecological and social needs

Landscape Infrastructure Ying-Yu Hung, Gerdo Aquino, 2013-05-28 Now available as revised edition The successful title on integrated ecological landscape planning Infrastructure as we know it no longer belongs in the exclusive realm of engineers and transportation planners In the context of rapidly changing cities and towns infrastructure is experiencing a paradigm shift where multiple use programming and the integration of latent ecologies is a primary consideration Defining contemporary infrastructure requires a multi disciplinary team of landscape architects engineers architects and planners to fully realize the benefits to our cultural and natural systems This book examines the potential of landscape as infrastructure via essays by notable authors and supporting case studies by SWA landscape architects and urban designers among them the technologically innovative roof domes for Renzo Piano s California Academy of Science in San Francisco the restoration of the Buffalo Bayou in Houston and several master plans for ecological corridors in China and Korea Other projects develop smart re use concepts for railroad tracks that no longer serve their original purpose such as Kyung Chun railway in Seoul or Katy Trail in Dallas All case studies are described extensively with technical diagrams and plans for repositioning infrastructure as a viable medium for addressing issues of ecology transit urbanism performance and habitat

The Making of Place John Dixon Hunt, 2015-11-15 Gardening is rich in tradition and many gardens are explicitly designed to refer to or honor the past But garden design is also rich in innovation and in *The Making of Place* John Dixon Hunt explores the wide varieties of approaches aesthetics and achievements in garden design throughout the world today The gardens Hunt explores offer surprising new ideas about how we can carve out a space for respite in nature Taking readers to gardens public and private busy and hidden away to botanical gardens small parks university campuses and vernacular gardens Hunt showcases the differences between cultures and countries around the globe including the United States United Kingdom France Germany China and Australia Richly illustrated *The Making of Place* is sure to enchant and inspire even the most modest of home gardeners

Thinking of Design German T. Cruz, 2012-07 SYNOPSIS This book is the product of a lifetime of study practice and observation of design focused upon a considerate reaction to various issues that have emerged over the past 10 years It is circumscribed by current experiences of teaching and observations of practice and administration from the point of view of an experienced practitioner transplanted to academia With a wide worldview and often tongue in cheek free commentary is offered on design issues and the context of their application and exploration The book thematic is not focused on being a design treatise but rather upon offering an analytical argument about conditions and dynamics often seen as deleterious to design outcome and educational success The passionate engagement of the author with design and its educational context as well as an active dialogue with local community by way of a newspaper voice serve well to present a discussion that is both informed and energetic

River.Space.Design Martin Prominski, Antje Stokman, Daniel Stimberg, Hinnerk Voermanek, Susanne Zeller, Katarina Bajc, 2017-05-22 Urban riverbanks are attractive locations and highly

prized recreational environments However they must meet the requirements of flood control open space design and ecology at the same time often a challenging task for the designer This book is the product of extensive research that identified some 60 best practice examples and subjected them to a comparative analysis The result is a systematic catalog of effective strategies and innovative design tools that provides readers with an inspiring overview of the broad spectrum of design possibilities for river spaces Each project is illustrated with photographs taken especially for the book and each design strategy and tool is explained by diagrams This revised edition introduces ten new case studies chiefly from North America
