Language, Feeling, and the Brain Daniel Shanahan, 2017-09-08 Linguistic theory since the Cognitive Revolution has followed one of the premises of that revolution by largely sidelining the issue of emotions and concentrating on those aspects of language that are more strictly cognitive However during the last ten years research in cognitive science especially in neuropsychology has begun to fill in the gaps left by the exclusion of emotions from cognitive research The work of those like Oatley Zajonc Damasio and LeDoux to name a few has demonstrated both that it is possible to construct models of how emotions play into the workings of the psyche and that they are necessary in giving us a balanced view of the human mind *Language Feeling and the Brain* attempts to apply the fruits of this new research in emotion to our understanding of language itself Building on Karl Pribram's integrated model of emotions and motivations the book takes an eclectic approach to explaining how emotions contribute to the nature of language drawing on research done in neuropsychology philosophy cognitive linguistics anthropology and related fields Its aim is to construct a propositional model for how the emotions may have contributed to the emergence of symbolic formation most especially in the forms of gesture and speech and how identifying that emotional influence sheds new light on everything we have had to say about language itself from lexis and grammar to culture and literature

Language and Emotion James M. Wilce, 2009-04-09 Language is a means we use to communicate feelings we also reflect emotionally on the language we and others use James Wilce analyses the signals people use to express emotion looking at the social cultural and political functions of emotional language around the world His book demonstrates that speaking feeling reflecting and

identifying are interrelated processes and shows how desire or shame are attached to language Drawing on nearly one hundred ethnographic case studies it demonstrates the cultural diversity historical emergence and political significance of emotional language Wilce brings together insights from linguistics and anthropology to survey an extremely broad range of genres cultural concepts and social functions of emotional expression *The Routledge Handbook of Language and Emotion* Sonya Pritzker, Janina Fenigsen, James Wilce, 2019-12-06 The Routledge Handbook of Language and Emotion offers a variety of critical theoretical and methodological perspectives that interrogate the ways in which ideas about and experiences of emotion are shaped by linguistic encounters and vice versa Taking an interdisciplinary approach which incorporates disciplines such as linguistic anthropology sociolinguistics applied linguistics psychology communication studies education sociology folklore religious studies and literature this book explores and illustrates the relationship between language and emotion in the five key areas of language socialisation culture translation and transformation poetry pragmatics and power the affective body self and emotion communities situates our present day thinking about language and emotion by providing a historical and cultural overview of distinctions and moral values that have traditionally dominated Western thought relating to emotions and their management provides a unique insight into the multiple ways in which language incites emotion and vice versa especially in the context of culture With contributions from an international range of leading and emerging scholars in their fields The Routledge Handbook of Language and Emotion is an indispensable resource for students and researchers who are interested in incorporating interdisciplinary perspectives on language and emotion into their work

Before Emotion: The Language of Feeling, 400-1800 Juanita Ruys, Michael Champion, Kirk Essary, 2019-02-07 Before Emotion The Language of Feeling 400 1800 advances current interdisciplinary research in the history of emotions through in depth studies of the European language of emotion from late antiquity to the modern period Focusing specifically on the premodern cognates of affect or affection such as affectus affectio affeccioun etc an international team of scholars explores the cultural and intellectual contexts in which emotion was discussed before the term emotion itself came into widespread use By tracing the history of key terms and concepts associated with what we identify as emotions today the volume offers a first time critical foundation for understanding pre and early modern emotions discourse charts continuities and changes across cultures time periods genres and languages and helps contextualize modern shifts in the understanding of emotions

Language and the Politics of Emotion Catherine A. Lutz, Lila Abu-Lughod, 1990-06-29 Emotions have long been a central concern in philosophy psychological and sociological studies When anthropologists began to study emotion they challenged many assumptions shared by Western academics and lay persons by exposing the cultural variability of emotional meanings In this collection of original essays by anthropologists concerned with the relationship of language and emotion it is argued that the key focus to the study of emotion might be the politics of social life rather than the psychology of the individual Through close studies of talk about emotion and emotional discourses in social contexts from poetry and song to

therapeutic narratives scholars who have worked in India Fiji the United States Egypt Senegal and the Solomon Islands show how emotion is tied to politics of everyday interaction Their arguments and cross cultural findings will intrigue and provoke anyone who has thought about the relationship between emotion language and social life The book will be of special interest to those who find the boundaries between cultural psychological and linguistic anthropology sociology cross cultural psychiatry and social psychology too confining

Emotion in Language Ulrike M. Lüdtke,2015-12-16

The miracle of children s language development and the joy of expressive language on the one hand and the vulnerability of language and the sorrow and grief caused by its distortion or even loss in people with aphasia or dementia on the other hand show us the inseparability of emotion and language in its extremes Although the emotional turn promised a paradigmatic shift from a rationalistic towards an emotion integrating conceptualization of language hardly any interdisciplinary research has focused on the interplay between emotion and language The present book covers the wide range of work on Emotion in Language with contributions from numerous disciplines in the three areas of Theory Research and Application With contributions both from well known pioneers in the area of this topic as well as from young scientists the book offers a broad range of perspectives from linguistics and language development to neurology psychology and developmental neuropsychology and to the fields of philosophy and phenomenology

Mixed Emotions and Indigenous Language Maintenance in Post-Disaster Reconstruction Communities

Chun-Mei Chen,2024-01-26 Mixed Emotions and Indigenous Language Maintenance in Post Disaster Reconstruction Communities examines the interplay between emotions and Indigenous language maintenance among Paiwan families after they relocated to post disaster reconstruction communities in Taiwan In the view of sociocultural theory mixed emotions mediate social action by connecting language resources and family language maintenance experiences Against the context of Indigenous families and reconstruction communities the author utilizes orientation activities to investigate mixed emotions language practices and language socialization among Paiwan family members This book also explores the multimodal space of emotions language practices in Indigenous language and the language repertoire from micro level family practices to meso and macro level community mobilization The results of this volume shed light on emotions in family language policy family communication in the teaching of heritage knowledge in Indigenous societies and most importantly Indigenous language maintenance in the context of post disaster reconstruction This book contributes to the documentation of the Paiwan language in the reconstruction communities language equality and the maintenance of the Indigenous language in post disaster reconstruction communities It can be used to develop the conceptual underpinnings of Indigenous language policies Indigenous education programs and Indigenous language maintenance practices

The Janus-Face of Language: Where

Are the Emotions in Words and the Words in Emotions? Cornelia Herbert,Thomas Ethofer,Andreas J. Fallgatter,Peter

Walla, Georg Northoff, 2018-09-28 Language has long been considered independent from emotions. In the last few years, however, research has accumulated empirical evidence against this theoretical belief of a purely cognitive based foundation of language. In particular, through research on emotional word processing, it has been shown that processing of emotional words activates emotional brain structures, elicits emotional facial expressions, and modulates action tendencies of approach and avoidance, probably in a similar manner as processing of non-verbal emotional stimuli does. In addition, it has been shown that emotional content is already processed in the visual cortex in a facilitated manner, which suggests that processing of emotional language content is able to circumvent in-depth semantic analysis. Yet, this is only one side of the coin. Very recent research putting words into context suggests that language may also construe emotions, and that by studying word processing, one can provide a window to one's own feelings. All in all, the empirical observations support the thesis of a close relationship between language and emotions at the level of word meaning as a specific evolutionary achievement of the human species. As such, this relationship seems to be different from the one between emotions and speech, where emotional meaning is conveyed by nonverbal features of the voice. But what does this relationship between written words and emotions theoretically imply for the processing of emotional information? The present Research Topic and its related articles aim to provide answers to this question. This book comprises several experimental studies investigating the brain structures and the time course of emotional word processing. Included are studies examining the affective core dimensions underlying affective word processing and studies that show how these basic affective dimensions influence word processing in general, as well as the interaction between words, feelings, and expressive behavior. In addition, new impetus comes from studies that, on the one hand, investigate how task, sublexical, and intrapersonal factors influence emotional word processing, and on the other hand, extend emotional word processing to the domains of social context and self-related processing. Finally, future perspectives are outlined, including research on emotion and language acquisition, culture, and multilingualism. In summary, this textbook offers scientists from different disciplines insight into the neurophysiological, behavioral, and subjective mechanisms underlying emotion and language interactions. It gives new impulses to existing theories on the embodiment of language and emotion and provides new ways of looking at emotion-cognition interactions. *Emotions in Multiple Languages* J.

Dewaele, 2010-08-11 A large-scale investigation on how multilinguals feel about their languages and use them to communicate emotion. Combining quantitative and qualitative approaches, the author looks at the factors that affect multilinguals' self-perceived competence, attitudes, communicative anxiety, language choice, and code switching. *Language and Emotion*.

Volume 3 Gesine Lenore Schiewer, Jeanette Altarriba, Bee Chin Ng, 2023-05-08 The Handbook consists of four major sections. Each section is introduced by a main article: Theories of Emotion, General Aspects, Perspectives in Communication Theory, Semiotics and Linguistics, Perspectives on Language and Emotion in Cultural Studies, Interdisciplinary and Applied Perspectives. The first section presents interdisciplinary emotion theories relevant for the field of language and

communication research including the history of emotion research The second section focuses on the full range of emotion related aspects in linguistics semiotics and communication theories The next section focuses on cultural studies and language and emotion emotions in arts and literature as well as research on emotion in literary studies and media and emotion The final section covers different domains social practices and applications such as society policy diplomacy economics and business communication religion and emotional language the domain of affective computing in human machine interaction and language and emotion research for language education Overall this Handbook represents a comprehensive overview in a rich diverse compendium never before published in this particular domain
