Formulaic Language and New Data Elisabeth Piirainen, Natalia Filatkina, Sören Stumpf, Christian Pfeiffer, 2020-01-20 The existence of formulaic patterns has been attested to all languages of the world However systematic research in this field has been focused on only a few European standard languages with a rich literary tradition and a high degree of written norm It was on the basis of these data that the theoretical framework and methodological approaches were developed The volume shifts this focus by centering the investigation on new data including data from lesser used languages and dialects extra european languages linguistic varieties mostly used in spoken domains as well as at previous historical stages of language development Their inclusion challenges the existing postulates at both a theoretical and methodological level Areas of interest include the following questions What is formulaic in these types of languages varieties and dialects Are the criteria developed within the framework of phraseological research applicable to new data Can any specific types of formulaic patterns and or any specific features of regular already known types of formulaic patterns be observed and how do they emerge What methodological difficulties need to be overcome when dealing with new data

Confesiones San Agustín, 2016-08-05 Las Confesiones honda reflexión acerca del ser humano y de su relación con Dios es tal vez la autobiografía más cèlebre de la historia occidental Las Confesiones escritas entre el 396 y el 400 son la obra más conocida e influyente de Agustín de Hipona Pero más allá de los pasajes que la

han hecho memorable como el análisis del tiempo su recorrido por la memoria o la narración de las peripecias y extravíos intelectuales en pos de la Verdad que culminan en la cumbre revelación del jardín de Milán esta obra ofrece un autoanálisis en la Antigüedad y una peculiar reflexión sobre la naturaleza del ser humano y de su relación con Dios y con el resto de la creación Aunque parece destinada a un público concreto los maniqueos a los que Agustín se unió en su juventud y a los que ahora intenta atraer a la fe cristiana e iniciar en una lectura alegre de la Biblia la forma en que se articula el diálogo interior y el lirismo simbólico de su palabra hacen que cualquier lector pueda acceder al corazón de Agustín y también al suyo propio Agustín de Hipona San Agustín c 354-430 Es una de las personalidades más fascinantes y complejas de la historia del cristianismo Durante su juventud en el norte de África perteneció a la secta maniquea que aunaba cristianismo gnosticismo e influencias persas y desde allí inició un periplo vital e intelectual que le condujo a Italia al escepticismo y al neoplatonismo hasta que en Mediolano Milán en el año 386 bajo el influjo de san Ambrosio encontró la síntesis de neoplatonismo y cristianismo que le convirtió en el más influyente pensador cristiano hasta la Escolástica medieval Se bautizó en 387 en 391 ingresó en un monasterio y se convirtió en obispo de Hipona en el año 396 Conocemos mucho de su vida gracias a sus Confesiones quizás la más cumbre autobiografía de la historia occidental El Libro español, 1983 Incluye a separately paged section Repertorio bibliográfico clasificado por materias which also appears in Libros nuevos Redes, alianzas y afinidades.
