By definition, the number of moles of reactant is equal to the volume (V) multiplied by the concentration (C):

$$n = C \times V$$

From the balanced chemical equation we know that the ratio of the two reacting compounds is 1 to 2:

1:1 ratio

As at the equivalence point:

Now you can calculate the unknown concentration of the H_2SO_4 according to:

$$C_{\text{H}_2\text{SO}_4} = \frac{1}{2} \times \frac{M_{\text{NaOH}} \times V_{\text{NaOH}}}{V_{\text{H}_2\text{SO}_4}}$$

Great Lakes Regional Meeting,2003 Designing Effective Distance and Blended Learning Environments in K-12 Driscoll III, Thomas F.,2021-11-12 It has quickly become apparent in the past year that online learning is not only an asset but it is critical to the continued education of youth during times of crisis However districts and schools across the nation are in need of guidance and practical research backed approaches to distance and hybrid learning The current COVID 19 crisis has demonstrated that effective learning in K 12 is possible but many districts struggled and continue to struggle in achieving that reality There is also the growing consensus that even if things return to normal distance and blended learning strategies should continue to be employed in many ways across the K 12 environment Designing Effective Distance and Blended Learning Environments in K 12 provides key insights into the ways that school districts and educators from across the world have effectively designed and implemented distance and blended learning approaches to enable and enhance student learning The diverse collection of authors from various demographics and roles in school systems will benefit readers across a wide spectrum of school community stakeholders There will also be an emphasis on how research and theory is put into practice along with an honest discussion of what strategies and actions were successful as well as those that were less so This book is essential for professionals and researchers working in the field of K 12 education particularly superintendents curriculum developers professional learning designers school principals instructional technology specialists and teachers as well as administrators researchers academicians and students interested in the effective practices being used in blended learning approaches **Active Learning** Patricia Ann Mabrouk,2007 This symposium series book focuses on the application of active learning methods in teaching analytical science broadly defined at both the undergraduate and graduate levels The volume includes a wide range of examples of how these methods are being applied at public and private community colleges four year colleges and graduate research universities in the United States and abroad Barryisms Barry McAlister,2014-11-07 After a ways I could see a huge boat mostly buried in the sand while examining the boat it seemed to have been a cabin cruiser about 65 feet long Then walking about 100 feet south of the boat I was stunned to find a human body not something you see every day The person was mostly a skeleton although hair was evident on his head jeans and shirt were tattered and the skull looking toward the sky where I could see some primitive dental work After a couple more frightening traverses while hanging in space I thought we had passed the most difficult

situations wrong again We came to a place where you re climbing along the cliff face with no more than 4 inches of rock on which to place your feet That accelerated my heartbeat a tad While hiking on a narrow dike I came face to face with a Bison almost blocking my passage As I walked past he charged me I yelled Stop That and he stopped about 2 feet away Few people have a desire or capability to experience the edge For most of my life I professed To experience life as close to the edge as possible to death as this is the only way to live a life to its fullest Being up here among 12 000 foot peaks in the enchanting time before sunrise will always remain as a consummate memory in my mind I was filled with a delightful wonderment Then there came the serene Alpine Glow as the sun embraced the mountain peaks As John Muir would say A noble experience The sun would occasionally pop out followed by dark clouds and usually hail or sleet I didn t care I was wet in a numbing trance and reduced to taking baby steps forward one step at a time Around 6 pm I reached the road which was back down at 10 000 feet I had only traveled 8 1 2 miles but on the most difficult trek of my life We had chased the Gator near shore I jumped from the boat in knee deep mud struggling through the mud I grabbed the Gator with my left hand and immediately he came around and imbedded his teeth in my right arm Just as quickly he let go and I loaded him into the boat Mostly I was concerned with infection but a little Rum in the holes took care of that Canadian Chemistry and Process Industries ,1945
