Latinos And The New Immigrant Church:

Latinos and the New Immigrant Church David A. Badillo, 2006-06-19 Latin Americans make up the largest new immigrant population in the United States and Latino Catholics are the fastest growing sector of the Catholic Church in America In this book historian David A Badillo offers a history of Latino Catholicism in the United States by looking at its growth in San Antonio Chicago New York and Miami Focusing on twentieth century Latino urbanism Badillo contrasts broad historic commonalities of Catholic religious tradition with variations of Latino ethnicity in various locales He emphasizes the contours of day to day life as well as various aspects of institutional and lived Catholicism The story of Catholicism goes beyond clergy and laity it entails the entire urban experience of neighborhoods downtown power seekers archdiocesan movers and shakers and a range of organizations and associations linked to parishes Although parishes remain the key site for Latino efforts to build individual and cultural identities Badillo argues that one must consider simultaneously the triad of parish city and ethnicity to fully comprehend the influence of various Latino populations on both Catholicism and the urban environment in the United States By contrasting the development of three distinctive Latino communities the Mexican Americans Puerto Ricans and Cuban Americans Badillo challenges the popular concept of an overarching Latino experience and offers instead an integrative approach to understanding the scope depth and complexity of the Latino contribution to the character of America s urban landscapes

Católicos Mario T. García, 2010-01-01 Chicano Catholicism both as a popular religion and a foundation for community organizing has over the past century inspired Chicano resistance to external forces of oppression and discrimination including from other non Mexican Catholics and even the institutionalized church Chicano Catholics have also used their faith to assert their particular identity and establish a kind of cultural citizenship Based exclusively on original research and sources Mario T. García here offers the first major historical study to explore the various dimensions of the role of Catholicism in Chicano history in the twentieth century This is also one of the first significant studies in the still limited field of Chicano religious history Topics range from how early Chicano Catholic intellectuals and civil rights leaders were

influenced by Catholic Social Doctrine to the role that popular religion has played in the lives of ordinary men and women in both rural and urban areas Garcia also examines faith based Chicano community movements like Católicos Por La Raza in the 1960s and the Sanctuary movement in Los Angeles in the 1980s While Latino a history and culture has been for the most part inextricably linked with the tenets and practices of Catholicism there has been very little written until recently about Chicano Catholic history Garcia helps to fill that void and explore the impact both positive and negative that the Catholic experience has had on the Chicano community

Religion and the New Immigrants Michael W. Foley, Dean R. Hoge, 2007-02-08 The explosive growth of the immigrant population since the 1960s has raised concerns about its impact on public life but only recently have scholars begun to ask how religion affects the immigrant experience in our society In *Religion and the New Immigrants* Michael W. Foley and Dean R. Hoge assess the role of local worship communities in promoting civic engagement among recent immigrants to the United States The product of a three year study on immigrant worship communities in the Washington DC area the book explores the diverse ways in which such communities build social capital among their members provide social services develop the civic skills of members and shape immigrants identities It looks closely at civic and political involvement and the ways in which worship communities involve their members in the wider society Evidence from a survey of 200 worship communities and in depth studies of 20 of them across ethnic groups and religious traditions suggests that the stronger the ethnic or religious identity of the community and the more politicized the leadership the more civically active the community The explosive growth of the immigrant population since the Local leadership much more than ethnic origins or religious tradition shapes the level and kind of civic engagement that immigrant worship communities foster Catholic churches Hindu temples mosques and Protestant congregations all vary in the degree to which they help promote greater integration into American life But where religious and lay leaders are civically engaged the authors find ethnic and religious identity contribute most powerfully to

participation in civic life and the larger society Religion and the New Immigrants challenges existing theories and offers a nuanced view of how religious institutions contribute to the civic life of the nation As one of the first studies to focus on the role of religion in immigrant civic engagement this timely volume will interest scholars and students in a range of disciplines as well as anyone concerned about the future of our society **Pioneers of Latino Ministry** Deborah E.
