Butler, 2014-04-03 Archetypal psychology is a post Jungian mode of theory and practice initiated primarily through the prolific work of James Hillman Hillman's writing carries a far reaching collection of evocative ideas with a wealth of vital implications for the field of clinical psychology With the focus on replacing the dominant fantasy of a scientific psychology with psychology as logos of soul archetypal psychology has shifted the focus of therapy away from cure of the symptom toward vivification and expression of the mythopoetic imagination This book provides the reader with an overview of the primary themes taken up by

archetypal psychology as differentiated from both classical Jungian analysis and Freudian derivatives of psychoanalysis Throughout the text Jason Butler gathers the disparate pieces of archetypal method and weaves them together with examples of dreams fantasy images and clinical vignettes in order to depict the particular style taken up by archetypal psychotherapy a therapeutic approach that fosters an expansion of psychological practice beyond mere ego adaptation and coping providing a royal road to a life and livelihood of archetypal significance Archetypal Psychotherapy The clinical legacy of James Hillman will be of interest to researchers and academics in the fields of Jungian and archetypal psychology looking for a new perspective as well as practising psychotherapists

Jung and the Jungians on Myth Steven Walker, 2014-04-08 Carl Gustav Jung 1875 1961 was never more insightful and intriguing than when he discussed mythology The key to understanding the Jungian approach to mythology lies in the concept of the image which provides the basis for his theory of the unconscious By emphasizing the image over the word Jungian psychology distinguishes itself dramatically from Freudian Lacanian and other psychologies that stress the task of interpreting the language the words of the unconscious In *Jung and the Jungians on Myth* Steven Walker carefully leads the reader through the essential lines of thought in Jungian psychology before developing his method for using Jungian ideas to approach mythological texts Whether one is sympathetic toward Jung's ideas or critical of them one will find in Walker's discussion a lucid introduction to Jungian perspectives on myth and psychology

Jung and the Jungians on Myth Steven F. Walker, 2002 In this book Steven Walker carefully leads the reader through the fundamentals of the psychology that underlies Jung's theory of myth He defines key terms and distinguishes dream from fantasy in psychological experience He then traces the lineage of Jungian theory from Jung through such disciples as Van Franz and Neumann to contemporary archetypal psychology By applying Jungian psychology to an array of myths to illustrate core concepts of this theoretical tradition Walker fills a conspicuous gap in the current literature on Jung from back cover

The Trickster and the Paranormal George P. Hansen, 2001-08-20 Paranormal and supernatural events have been reported for millennia They

have fostered history's most important cultural transformations e.g. via the miracles of Moses Jesus Mohammed Paranormal phenomena are frequently portrayed in the world's greatest art and literature as well as in popular TV shows and movies Most adults in the U.S. believe in them Yet they have a marginal place in modern culture No university departments are devoted to studying psychic phenomena In fact a panoply of scientists now aggressively denounces them These facts present a deeply puzzling situation But they become coherent after pondering the trickster figure an archaic being found worldwide in mythology and folklore The trickster governs paradox and the irrational but his messages are concealed This book draws upon theories of the trickster from anthropology folklore sociology semiotics and literary criticism It examines psychic phenomena and UFOs and explains why they are so problematical for science **Jane Eyre's Sisters** Jody Gentian

Bower, 2015 Ever since women in the West first started publishing works of fiction they have written about a heroine who must wander from one place to another as she searches for a way to live the life she wants to live a life through which she can express her true self creatively in the world Yet while many have written about the heroine's journey most of those authors base their models of this journey on Joseph Campbell's model of the Heroic Quest story or on old myths and tales written down by men not on the stories that women tell In *Jane Eyre's Sisters: How Women Live and Write the Heroine's Story* cultural mythologist Jody Gentian Bower looks at novels by women and some men as well as biographies of women that tell the story of the Aletis the wandering heroine She finds a similar pattern in works spanning the centuries from Lady Mary Wroth and William Shakespeare in the 1600s to Sue Monk Kidd Suzanne Collins and Philip Pullman in the current century including works by Jane Austen the Brontë sisters George Eliot Elizabeth Gaskell Charles Dickens Kate Chopin Virginia Woolf Doris Lessing J.R.R. Tolkien and Alice Walker to name just a few She also discusses myths and folk tales that follow the same pattern Dr Bower argues that the Aletis represents an archetypal character that has to date received surprisingly little scholarly recognition despite her central role in many of the greatest works of Western fiction Using an engaging down to earth writing style Dr Bower outlines the stages and cast of characters of the Aletis story with many examples from the literature She discusses how the Aletis story differs from the hero's quest how it has changed over the centuries as women gained more independence and what heroines of novels and movies might be like in the future She gives examples from the lives of real women and scatters stories that illustrate many of her points throughout the book In the end she concludes authors of the Aletis story use their imagination to give us characters who serve as role models for how a woman can live a full and free life **Numinous Fields: Perceiving the Sacred in Nature, Landscape, and Art** Samer Akkash, John
