Gods Profits Faith Fraud And The Republican Crusade For Values Voters

Jan G. Linn

Gods Profits Faith Fraud And The Republican Crusade For Values Voters:

God's Profits Sarah Posner, 2008 Posner examines the unholy alliance between a new generation of corrupt televangelists and the Republican Party which eagerly courts the values voters who support these churches **The Christian Right & US Foreign Policy in the 21 st Century** Mohd Afandi Salleh, 2020-01-07 This book is about the role of the Christian Right in the US foreign policy decision making process It reveals that the Christian Right has long been fascinated with some international issues in general and US foreign policy in particular The interest of the movement in international issues increased markedly during the George W Bush administration 2000 2009 During this period the movement successfully widened its activism from domestic social conservative issues to foreign policy issues by participating in articulating and lobbying for its religious version of American foreign policy In assessing the role of the Christian Right in US foreign policy making this dissertation examines aspects of US foreign policy namely Israel international religious freedom and global humanitarianism Based on these three aspects the Christian Right is seen as skilled in framing and defining issues The Christian Right seems effective in selecting and prioritizing international issues that have a reasonable chance of being picked up on by foreign policy decision makers especially in Congress Moreover the Christian Right has shown its maturity in seeking engagement and cooperation with other organizations regardless of whether they are secular or religious to advance its international goals Finally in pursuing and conveying its international agenda the Christian Right has adopted a more moderate and mundane approach Instead of using its traditional religious rhetoric the Christian Right has successfully projected its foreign policy preferences into the conventional realist discourse of American foreign policy that was largely based on the objective of national interest and national security **Exurbia Now** David Masciotra, 2024-04-02 Focusing on greater Chicago Masciotra argues that the exurbs home to both monster trucks and liberals are becoming a key political arena New York Times Book Review The suburbs have become too liberal and diverse for many white American conservatives so exurbia areas outside the cities and their suburbs are becoming the staging ground for the radical right extremist insurgency Beyond a fanatical devotion to former president Donald Trump one of the curious things that united the rank and file of the January 6 insurrectionist mob was that many of them were residents of one of America's fastest growing residential areas Exurbia Home to the likes of Georgia's Marjorie Taylor Greene Ohio's Jim Jordan big box retailers chain restaurants monster trucks and megachurches exurbia is becoming America's greatest political battleground more important to American politics than urban or rural America In this brilliant work of political and cultural inquiry veteran political journalist David Masciotra provides a definitive account of what exurbia is how it came to be and how it's transforming American life Zooming in outside the greater metropolitan area of Chicago where Masciotra grew up he shows how exurbia has become a safe space to fly the MAGA flag and romanticize the mores of the pre civil rights pre feminist pre gay rights 1950s But as Masciotra also shows reactionary white flight is not the whole story of small town

America The story often lost is the power and persistence of small town liberals people who believe in equality celebrate diversity and enroll in movements for justice Exurbia as it turns out is ground zero for the fight over a democracy mightily beleaguered yet still full of promise and still worth fighting for Combining interviews research and anecdote and anchored in personal experience Exurbia Now delivers a powerful ballad on the state of small town America and provides a sense of the fight for democracy on the ground in the heartland Re-Visioning the American Psyche Ipek S. Burnett,2023-12-07 The United States is at a crossroads Moving away from the stalemate of political polarization and culture wars requires reflection critical thinking and imagination This book of collected essays brings together leaders in Jungian and archetypal psychology to forge this path by offering a comprehensive look at the American psyche Re Visioning the American Psyche examines the myths images and archetypal fantasies ingrained in the collective consciousness and unconscious in the United States The volume tends to manifest symptoms in political institutions social conflicts and cultural movements Using various interpretative processes from psychoanalytic to literary and to participatory it reflects on the meaning of democratic participation the psychological cost of wars and violence intergenerational trauma due to racism the emotional dimensions of political polarization deep seated oppositional thinking in patriarchal structures frailty of the American Dream and more With its rich scope interdisciplinary scholarship and critical engagement with historical and current affairs this book will be of great interest to those in Jungian and depth psychology as well as sociology politics cultural studies and American studies As a timely contribution with an international appeal it will engage readers who are invested in better understanding psychology s capacity to respond to social cultural and political realities The Code for Global Ethics Rodrigue Tremblay,2010-12 Humanists have long contended that morality is a strictly human concern and should be independent of religious creeds and dogma This principle was clearly articulated in the two Humanist Manifestos issued in the mid twentieth century and in Humanist Manifesto 2000 which appeared at the beginning of the twenty first century Now this code for global ethics further elaborates ten humanist principles designed for a world community that is growing ever closer together In the face of the obvious challenges to international stability from nuclear proliferation environmental degradation economic turmoil and reactionary and sometimes violent religious movements a code based on the natural dignity and inherent worth of all human beings is needed more than ever In separate chapters the author delves into the issues surrounding these ten humanist principles preserving individual dignity and equality respecting life and property tolerance sharing preventing domination of others eliminating superstition conserving the natural environment resolving differences cooperatively without resort to violence or war political and economic democracy and providing for universal education This forward looking optimistic and eminently reasonable discussion of humanist ideals makes an important contribution to laying the foundations for a just and peaceable global community **Evangelicalism and The Decline of American Politics** Jan G. Linn,2017-09-22 Beginning in the 1970s evangelical Christians decided to become involved in our nation s political life by becoming Republican partisans

Today they are widely considered the Republican Party's most reliable constituency. In the process, American politics has become more bitter, chaotic, divisive, and now dysfunctional. There is a significant bipartisan consensus that the Republican Party bears the most responsibility for the state of our nation's politics. This is not an endorsement of Democratic policies, only an assessment of why our government no longer gets anything done. What is often ignored, though, is the role evangelicals are playing in what is happening. This book connects the dots between evangelical theology and evangelical politics. The key factor in both is their no-compromise attitude that sees negotiations as a betrayal of moral principles confident as they are that they are doing God's work here on earth. The result, as this book shows, is bad politics and bad religion, both of which are out of step with the views of most Americans. It concludes with suggestions for what the nation and evangelicals themselves can do to open the door to our government being able to function again and to the nation healing some of its divisions.

Encyclopedia of White-Collar and Corporate Crime Lawrence M. Salinger, 2013-06-14. Since the first edition of the Encyclopedia of White Collar and Corporate Crime was produced in 2004, the number and severity of these crimes have risen to the level of calamity so much so that many experts attribute the near Depression of 2008 to white collar malfeasance, namely crimes of greed and excess by bankers and financial institutions. Whether the perpetrators were prosecuted or not, white collar and corporate crime came near to collapsing the U.S. economy. In the 7 years since the first edition was produced, we have also seen the largest Ponzi scheme in history, Madoff, an ecological disaster caused by British Petroleum and its subcontractors, Gulf Oil Spill, and U.S. Defense Department contractors operating like vigilantes in Iraq, Blackwater. White collar criminals have been busy, and the Second Edition of this encyclopedia captures what has been going on in the news and behind the scenes with new articles and updates to past articles. [The Longest Con](#) Joe

Conason, 2024-07-09. A sardonic chronicle of how conservatism turned into a racketeering enterprise and why Donald Trump became the living emblem of the American right's moral decay. The Longest Con tells the fascinating story of the partisan con artists who have corrupted conservative politics in our time, creating a toxic phenomenon that culminated in the election of Donald Trump, a bumptious fraud whose checkered career and tawdry retinue, including his presidential cabinet, have featured almost every variety of scam. But long before he appeared, Trump's path to power was blazed by the motley horde of swindlers and quacks who preceded him. From the professional anti-communists whose tactics even J. Edgar Hoover despised to the populist grifters of the Tea Party movement and the religious charlatans of the prosperity gospel who provided a pious front for Trump, the right-wing ripoff has remained remarkably consistent even as personalities change and new technologies emerge. Stir up anger and resentment, demonize political opponents, promise vengeance, and collect donations from the gullible. It's a highly lucrative game that any unscrupulous charlatan can play, as many have, and they are named in these pages. In an unsparing and often comic narrative, Joe Conason explores the right's long steep descent into a movement whose principal aim is not to protect freedom or defend the Constitution but merely to line the pockets of pretenders and blowhards.

whose malevolent tactics now endanger the nation **Religious Right** A.F. Alexander, 2012-04-02 There is a deceptive movement to take over the government courts education system media outlets and American culture with stealth and it's true How is this possible Find out in the pages of this expose written by an insider who left the Religious Right fold and now shares why they believe they are mandated to have dominion over every aspect of life in the United States It reveals how their vision for America is not a democracy at all Understand the Religious Right network's blueprint for America Meet the Christian Reconstructionists and Dominionists Understand the Seven Mountains Mandate which provides the strategy for a successful takeover See why Quiverfull is the template for a proper traditional family Finally understand the attacks on public schools and teachers Find out who the leaders of the movement really are and their successful tactics This book explains the rewriting of our nation's history Complete with interviews research and bibliography included Presentation is organized and systematic while in plain English Shares how to get involved and make a difference in your community to protect your rights and preserve democracy

American Christianities Catherine A. Brekus, W. Clark Gilpin, 2011-12-01 From the founding of the first colonies until the present the influence of Christianity as the dominant faith in American society has extended far beyond church pews into the wider culture Yet at the same time Christians in the United States have disagreed sharply about the meaning of their shared tradition and divided by denominational affiliation race and ethnicity they have taken stances on every side of contested public issues from slavery to women's rights This volume of twenty two original essays contributed by a group of prominent thinkers in American religious studies provides a sophisticated understanding of both the diversity and the alliances among Christianities in the United States and the influences that have shaped churches and the nation in reciprocal ways American Christianities explores this paradoxical dynamic of dominance and diversity that are the true marks of a faith too often perceived as homogeneous and monolithic Contributors Catherine L Albanese University of California Santa Barbara James B Bennett Santa Clara University Edith Blumhofer Wheaton College Ann Braude Harvard Divinity School Catherine A Brekus University of Chicago Divinity School Kristina Bross Purdue University Rebecca L Davis University of Delaware Curtis J Evans University of Chicago Divinity School Tracy Fessenden Arizona State University Kathleen Flake Vanderbilt University Divinity School W Clark Gilpin University of Chicago Divinity School Stewart M Hoover University of Colorado at Boulder Jeanne Halgren Kilde University of Minnesota David W Kling University of Miami Timothy S Lee Brite Divinity School Texas Christian University Dan McKanan Harvard Divinity School Michael D McNally Carleton College Mark A Noll University of Notre Dame Jon Pahl The Lutheran Theological Seminary at Philadelphia Sally M Promey Yale University Jon H Roberts Boston University Jonathan D Sarna Brandeis University *The Oxford Handbook of Secularism* Phil Zuckerman, John R. Shook, 2017 The Oxford Handbook of Secularism offers a wide ranging examination of secularism on a global scale bringing together an international collection of views from prominent experts in a variety of fields This volume reflects the impressive level of academic attention now given to secularism across

the humanities social sciences law and public policy and international relations Long reigning theories about the pace of secularization and ideal church state relations are here scrutinized by a new generation of scholars studying secularism with new questions better data and fresh perspectives

The Politics of Hate Angelia R. Wilson, 2025-01-10 Explores how the Christian Right in the United States has learned to overcome both a lack of political professionalism within national independent theologically based activist groups and theological divides that threatened political collaboration

The Bible in American Law and Politics John R. Vile, 2020-09-19 While scholars increasingly recognize the importance of religion throughout American history The Bible in American Law and Politics is the first reference book to focus on the key role that the Bible has played in American public life In considering revolting from Great Britain Americans contemplated whether this was consistent with scripture Americans subsequently sought to apply Biblical passages to such issues as slavery women s rights national alcoholic prohibition issues of war and peace and the like American presidents continue to take their oath on the Bible Some of America s greatest speeches for example Lincoln s Second Inaugural and William Jennings Bryan s Cross of Gold speech have been grounded on Biblical texts or analogies Today Americans continue to cite the Bible for positions as diverse as LGBTQ rights abortion immigration welfare health care and other contemporary issues By providing essays on key speeches books documents legal decisions and other writings throughout American history that have sought to buttress arguments through citations to Scriptures or to Biblical figures John Vile provides an indispensable guide for scholars and students in religion American history law and political science to understand how Americans throughout its history have interpreted and applied the Bible to legal and political issues

The Long Southern Strategy Angie Maxwell, Todd Shields, 2019-06-24 The Southern Strategy was but one in a series of decisions the GOP made not just on race but on feminism and religion as well in what Angie Maxwell and Todd Shields call the Long Southern Strategy The Southern Strategy is traditionally understood as a Goldwater and Nixon era effort by the Republican Party to win over disaffected white voters in the Democratic stronghold of the American South To realign these voters with the GOP the party abandoned its past support for civil rights and used racially coded language to capitalize on southern white racial angst However that decision was but one in a series of decisions the GOP made not just on race but on feminism and religion as well in what Angie Maxwell and Todd Shields call the Long Southern Strategy In the wake of Second Wave Feminism the GOP dropped the Equal Rights Amendment from its platform and promoted traditional gender roles in an effort to appeal to anti feminist white southerners particularly women And when the leadership of the Southern Baptist Convention became increasingly fundamentalist and politically active the GOP tied its fate to the Christian Right With original extensive data on national and regional opinions and voting behavior Maxwell and Shields show why all three of those decisions were necessary for the South to turn from blue to red To make inroads in the South however GOP politicians not only had to take these positions but they also had to sell them with a southern accent Republicans embodied southern white culture by emphasizing an us vs

them outlook preaching absolutes accusing the media of bias prioritizing identity over the economy encouraging defensiveness and championing a politics of retribution In doing so the GOP nationalized southern white identity rebranded itself to the country at large and fundamentally altered the vision and tone of American politics

White Evangelical Racism, Second Edition Anthea Butler, 2024-10-25 The American political scene today is poisonously divided and the vast majority of white evangelicals play a strikingly unified powerful role in the disunion In this clear eyed hard hitting chronicle of American religion and politics Anthea Butler argues that racism is at the core of conservative evangelical activism and power Propelled by the benefits of whiteness white evangelicals used scripture to defend slavery and nurture the Confederacy during the Civil War era During Reconstruction they used it to deny the vote to newly emancipated blacks In the twentieth century they sided with segregationists in avidly opposing movements for racial equality and civil rights White evangelicals today cloaked in a vision of Christian patriarchy and nationhood form a staunch voting bloc in support of white leadership Evangelicalism s racial history festers splits America and needs a reckoning now In a new preface to the second edition Butler takes stock of how the trends she identified have expanded as Donald Trump mounts a third campaign for the presidency evangelicals celebrate and respond to the overturning of Roe v Wade and ferocious backlash against racial equity has injected new venom into evangelicalism s role in American politics

Womanist Ethical Rhetoric Annette D. Madlock, Cerise L. Glenn, 2021-01-14 Womanist thought remains of critical importance given contemporary issues of social justice and advocacy Womanist Ethical Rhetoric centers discourses of religious rhetoric and its influence on Black women s aims for voice empowerment and social justice in these turbulent times The chapters utilize womanism in conjunction with other frames to examine how Black women incorporate different aspects of their identities into struggles for empowerment and celebrations of who they are in holistic ways that center love and community This approach embraces both the commonalities and differences between womanists through theoretical and applied contexts It advances the work of womanist predecessors and pays homage to them most notably Rev Dr Katie Cannon s work on womanism and religion Topics analyzed include Black women s spiritual and professional identities in religious organizations the role of Black churches in Black Lives Matter and the inclusion of all Black women in racial academic achievement gaps Chapters also examine Black women s leadership and activism including church leaders and representations in popular culture and women s inclusion in the beloved community This collection centralizes the plurality of Black women s lives which is key to advancing their voices

Claiming Value Alena Wolflink, 2022-09-08 Value is typically theorized from the frameworks of economic theory or of moral ethical theory but we need to instead think about value foremost as political Alena Wolflink uncovers a tension in value discourses between material and aspirational life As she shows erasing this tension as has been the historical tendency can entrench existing configurations of power and privilege while acknowledging the tension is a vital part of democratic practice Using genealogical conceptual historical and interpretive approaches and drawing from such

diverse sources as Aristotle Anna Julia Cooper Michael Warner Alicia Garza and Patrisse Khan Cullors Wolflink argues that abstractions of value discourse in both economic theory and moral philosophy have been complicit in devaluing the lives of women queer people and people of color Yet she further argues that value claims nonetheless hold democratic potential as a means of asserting and defining priorities that center the role of political economy in the making of political communities With many real world examples vividly portrayed Claiming Value is an unusually accessible work of political theory accessible to students in courses on political theory moral philosophy social theory economic theory democracy social inequality and more

"Brand® New Theology McGee, Paula L.,2017-03-16 McGee critiques the popular Health Wealth message so prominently targeted especially to black Christian women She examines the preaching and writing of T D Jakes as the most representative of a new phenomenon the New Black Church a new form of prosperity gospel that signifies what she calls the Wal Martization of religion

Dark Crusade Clifford A Kiracofe,2009-05-30 Dark Crusade offers the most nuanced analysis yet written of the dangerous and complex phenomenon of Christian Zionism s influence on American foreign policy Despite its efforts to promote peace and instil democracy in the region America is viewed by many in the Middle East as a dishonest broker waging a dark crusade against its enemies in covert collaboration with Israel The crucial hostility to Arab and Palestinian interests of the so called Zionist lobby in the US has long been recognised But it is another less familiar element in US politics that increasingly calls the shots on Capitol Hill directing the course of American foreign policy there Christian Zionism Christian Zionists now influence not only the Republican Party but also the White House and Congress Protestant fundamentalists anticipating the end of the world they have long made common cause with the most extreme political elements in the state of Israel But why Jews and fundamentalist Christians hardly look like natural allies Adhering to a feverish apocalyptic ideology Christian Zionists nevertheless believe that restoration of the entire biblical Holy Land to the Jewish people will result the thousand year reign of Christ During his eleven years working in the Senate Christian Kiracofe observed at first hand the deep seated influence of Christian Zionism on American foreign policy and is uniquely qualified to assess its significance Dark Crusade offers the most nuanced analysis yet written of this dangerous and complex phenomenon

More Desired than Our Own Salvation Robert O. Smith,2013-06-06 Millions of American Christians see U S support for the State of Israel as a God ordained responsibility Robert O Smith provides an in depth look at the English Protestant tradition of Judeo centric prophecy interpretation at the heart of this popular affinity
