Goed Te Leven Reflecties Op De Moraal:

Goed te leven Heleen M. Dupuis, 1980 Verkenning van de ethische opvattingen van mensen over goed en kwaad de moraal en de ontwikkeling daarvan *Practical Theology and the Interpretation of Crossing Boundaries* Bert Roebben, 2003 In October 2002 the Tilburg Professor of Practical Theology Tjeu van Knippenberg retired In order to honour him as a bright scholar in the field of fundamental practical theology and pastoral care 23 of his colleagues at Tilburg University and elsewhere Nijmegen and Leuven contributed to this festschrift Their attention is focused on the concept of boundaries in practical theology between context and Christian tradition church and society personal identity and Christian narrative individual and community Different research projects out of the Tilburg tradition of practical theology are presented from an empirical hermeneutical perspective **Ethics by Committee** Noortje Jacobs, 2022-08-26 How liberal democracies in the late twentieth century have sought to resolve public concerns over charged issues in medicine and science Ethics boards have become obligatory passage points in today's medical science and we forget how novel they really are The use of humans in experiments is an age old practice that records show goes back to at least the third century BC and it has been popular as a practice since the early modern period Yet in most countries around the world hardly any formal checks and balances existed to govern the communal oversight of experiments involving human subjects until at least the 1960s Ethics by Committee traces the rise of ethics boards for human experimentation in the second half of the twentieth century Using the Netherlands as a case study historian Noortje Jacobs shows how the authority of physicians to make decisions about clinical research in this period gave way in most developed nations to formal mechanisms of communal decision making that served to regiment the behavior of individual researchers This historically unprecedented change in scientific governance came out of the growing international wariness of medical research in the decades after World War II and was meant to solidify a new way of reasoning together in liberal democracies about medicine and science But what reasoning together meant and who was invited to participate changed drastically over time In detailing this history Jacobs shows that research ethics committees were originally intended not only to make human experimentation more ethical but also to raise its epistemic quality and intensify the use of new clinical research methods By examining complex negotiations over the appropriate governance of human subjects research Ethics by Committee is an important contribution to our understanding of the randomized controlled trial and the history of research ethics and bioethics more generally Military Ethics Th. A. Van Baarda, Ted van Baarda, D. E. M. Verweij, 2006 This collection is a unique joint venture of teachers in and practitioners of military ethics Representatives of each branch of the Armed Forces i.e. the Navy the Army the Air Force and the Military Police discuss their branch specific experiences with moral questions and dilemmas The moral questions and dilemmas which arise in their work are also discussed by certain professional groups within the Armed Forces such as the Military Medical Service and the Military Psychological Service Detailed attention is given to how junior commanders can enhance

morally responsible behaviour within their unit A substantial part of the book focuses on teaching military ethics It includes the Socratic dialogue decision making skills and a chapter containing fictitious moral dilemmas that can be used as exercises The book is aimed at those responsible for training at military training centres as well as at cadets midshipmen and young officers It will also be an important tool for commanders preparing for a mission And it will be of use for all those concerned with the subject of military ethics at policy and management level both in the armed forces and outside it Military Ethics The Dutch Approach A Practical Guide is an adapted translation of the main chapters of the Dutch language volume Praktijkboek Militaire Ethiek Practitioner s Guide Military Ethics **Hoe denkers denken** Allard den Dulk,Suzanne

Gedachten over de vooroordelen van de moraal Friedrich Nietzsche,2024-05-09 Gewoonlijk eenvoudig vertaald als De dageraad De dageraad van de dag of Dageraad Thoughts on the Prejudices of Morality is een minder bekend werk waarin Nietzsche zijn verkenning van de menselijke conditie voortzet en zich concentreert op de thema s dageraad en wedergeboorte Hij gebruikt de metafoer van het rode licht van de ochtend verwijzend naar de Griekse godin Aurora en de rooms katholieke Rode Mis die de Theotokos aanroept om het ontwaken van het bewustzijn en het potentieel voor vernieuwing en transformatie te symboliseren Dit werk weerspiegelt Nietzsches voortdurende interesse in de cyclische aard van het leven en de mogelijkheid om nihilisme en wanhoop te overwinnen Deze vertaling maakt gebruik van een nauwkeuriger vertaling van het originele Duitse Morgenr the en geeft het weer als De scharlaken dageraad Morgenr the is een uniek Duits woord dat verwijst naar het rood worden van de hemel in de schemering voor het aanbreken van de dag Dit is historisch vertaald als dageraad of gewoon dageraad maar dit mist de connotatie van het woord Gewoon dageraad is schemering in het Duits maar Morgenr the is een specifiek fenomeen van de oostelijke hemel voor zonsopgang In de Romeinse mythologie is er een godin die wordt geassocieerd met de dageraad Aurora In de Griekse mythologie noemde Homerus dit de roosvingerige Eos In het christendom heeft dit een vervolg gekregen in de vorm van de Rode Mis het begin van twee verschillende antifonen in de adventsliturgie van de Rooms Katholieke Kerk waarin Maria wordt gevierd gesymboliseerd door de dageraad die traditioneel wordt gevierd tijdens het ochtendrood Hoewel er geen direct equivalent

woord is voor het ochtendrood zou de dichtstbijzijnde letterlijke vertaling De rood wordende dageraad zijn maar om de dramatische toon te treffen heb ik dit weergegeven als De scharlakenrode dageraad Nietzsche spreekt hier over de hoop op zijn eigen dageraad uit het nihilisme waarin hij was geboren zijn eigen dageraad 1881 Brief aan zijn zus Nietzsche schrijft lees het boek The Scarlet Dawn als ik zo vrij mag zijn vanuit een gezichtspunt dat ik alle andere lezers afraad vanuit een zeer persoonlijk gezichtspunt zussen hebben ook privileges Zoek alles op wat je vertelt wat je broer in principe het meest nodig heeft waar hij het meest behoefte aan heeft wat hij wil en wat hij niet wil Lees vooral het vijfde boek waar veel tussen de regels door staat Waar alles wat mij nog steeds bezighoudt niet in n woord kan worden gezegd en als ik het woord had zou ik het niet zeggen Het hangt af van gunstige maar nogal onvoorspelbare omstandigheden Mijn goede vrienden en alle anderen weten eigenlijk niets over mij en hebben er waarschijnlijk nog niet over nagedacht zelf ben ik altijd heel stil geweest over al mijn belangrijkste dingen zonder dat ik dat leek te zijn Deze nieuwe vertaling uit van het originele Duitse Latijnse en Griekse manuscript bevat een nieuw nawoord van de vertaler een tijdlijn van Nietzsches leven en werken een index met beschrijvingen van zijn kernbegrippen en samenvattingen van zijn complete oeuvre Deze vertaling is ontworpen om de leunstoelfilosoof in staat te stellen zich te verdiepen in de werken van Nietzsche zonder dat hij een fulltime academicus hoeft te zijn De taal is modern en helder met vereenvoudigde zinsconstructies en dictie om Nietzsches complexe taal en argumenten zo toegankelijk mogelijk te maken Deze editie bevat Een nawoord van de vertaler over de geschiedenis impact en intellectuele nalatenschap van Nietzsche Vertaalkundige aantekeningen bij het originele Duitse Latijnse en Griekse manuscript Een index van filosofische concepten gebruikt door Nietzsche met een focus op existentialisme en fenomenologie Een chronologische lijst van Nietzsches gehele oeuvre Een gedetailleerde tijdlijn van Nietzsches leven en werken
