MA in Special Education M.Ed. in Educational Leadership,2021-01-21 Every three minutes a child is born with a disability
Every three minutes a parent is tossed upon an emotional roller coaster of raising a child with a disability The steep climbs
and sharp curves of emotions in raising a child with a disability are not something a parent is prepared for These parents will
flounder around in a maelstrom of negative emotions for months or years until they can finally work their way out Hang On
Navigating the Emotional Roller Coaster of Raising a Child with a Disability addresses these issues to allow parents to
recognize when they are in the grasp of a negative emotion and how to overcome its impact In doing so the parent can then
move on to the positive emotions that can be experienced in raising their child with a disability Hang On first addresses the
negative emotions parents of a child with a disability face by Providing a brief description of twelve negative emotions
Examining the dangers of experiencing each negative emotion Allowing the parent to recognize if they are experiencing that
emotion Providing ways to leave that negative emotion behind Hang On then continues to the fourteen positive emotions a
parent can experience in raising a child with a disability by Providing a brief description of fourteen positive emotions
Examining the benefits derived from each emotion Providing ways to enhance the experiences of each of these positive
