*Philosophers and Religious Leaders* Christian von Dehsen, 2013-09-13 *Philosophers and Religious Leaders* provides a synopsis of the lives and legacies of 200 men and women from the areas of religion and philosophy who have changed the world. These individuals have developed extended or exemplified ideas fundamental to the way human beings perceive the meaning and purpose of their own lives and of their societies. Some have challenged prevailing convictions and worked for immediate change during their lifetimes; others have proposed new modes of thinking that have flourished only after their passing.

Mariners, Merchants And The Military Too Phillip Jones, 2012-01-28. Reportedly the largest Empire that has ever existed throughout human history at its height the British Empire was reported to have ruled over some four hundred and fifty million subjects, a quarter of the world's population at the beginning of the 20th century and controlled an estimated thirteen million square miles of territory around 25% of the world's total land surface. This five hundred page project tries to take a balanced view of Britain's vast imperial possessions: how they were acquired, how they were lost, and their histories since they gained independence. The publication attempts to take a specific look at some of the more troubling aspects of the Empire's past, including those dealing with the Troubles in Ireland, the Transatlantic Slave Trade, the Indian Subcontinent, the European Scramble for Africa, as well as the numerous wars and battles that such imperial expansionism created.

The contributors tackle the task of interpretation using the full range of critical methodologies and practices; yet they do so as people of faith who hold the text in the highest regard. Pastors, teachers, and lay people alike will cherish the truth found in this commentary series.
