Frailties Ronald J. Burke, Suzy Fox, 2016-05-13 Every day we hear stories about the consequences of human frailties for individuals, their families and friends and their organizations. Some of these stories are about alcohol and drug addiction and other harmful lifestyle choices but human frailty also leads to all kinds of unethical and illegal behaviour. Individuals are convicted of bribery and corruption, price fixing, theft and fraud, sexual harassment and abuse of authority. Politicians fiddle their expenses, sportspeople cheat and fix matches and school and university students and teachers cheat to enhance exam results. Studies have shown that business students cheat more than others and efforts to teach ethical behaviour in business schools make little difference. The media who bring us stories of others' frailties themselves engage in unethical and illegal conduct in pursuit of an edge over their rivals. The contributions to this latest addition to Gower's Psychological and Behavioural Aspects of Risk Series place the spotlight on individuals, their behavioural choices and the consequences that follow for theirs and others' lives and careers. The conclusion is that people do have choices and options and that whilst there are no easy or quick fixes in addressing self-limiting behaviours, successful avoidance of the worst outcomes can be achieved. This book provides guidance on the practical steps that need to be taken in order to gain a sense of proportion of what is important and of how we are doing if we are to address our frailties and stop making unethical choices.

Corruption and Market in Contemporary China Yan Sun, 2018-08-06 Is corruption an inevitable part of the transition to a free market economy? Yan Sun here examines the ways in which market reforms in the People's Republic of China have shaped corruption since 1978 and how corruption has in turn shaped those reforms. She suggests that recent corruption is largely a byproduct of post-Mao reforms spurred by the economic incentives and structural opportunities in the emerging marketplace. Sun finds that the steady retreat of the state has both increased mechanisms for cadre misconduct and reduced disincentives against it. Chinese disciplinary offices, law enforcement agencies and legal professionals compile and publish annual casebooks of economic crimes. The cases processed in the Chinese penal system represent offenders from party-state agencies at central and local levels as well as state firms of varying sizes and types of ownership. Sun uses these casebooks to illuminate the extent and forms of corruption in the People's Republic of China. Unintended and informal mechanisms arising from corruption may she finds take on a life of their own and undermine the central state's ability to implement its developmental policies, discipline its staff, enforce its regulatory infrastructure and fundamentally transform the economy.

How Trump Happened Steven E. Schier, Todd E. Eberly, 2020-03-09 The stunning 2016 election and presidency of Donald Trump was decades in the making Three trends since the 1960s created the conditions for his triumph First a growing popular discontent with government long evident in public opinion created a widespread distrust of established leaders and institutions Second America underwent the rise of professional government Governing professionals are an elite built on merit through occupational accomplishment They now dominate interest groups the bureaucracy courts presidency and Congress Many government professionals perceive little need to mobilize the public in the way parties did in previous eras This has furthered the sense of disconnect among the public and created a self reinforcing chain Third political parties and governing institutions are now polarized into rival teams of ideological partisan elites The intense battles between these divergent teams often result in government gridlock These conditions produce ripe opportunities for outsider candidates to mount popular movements against politics as usual How did Donald Trump leverage his outsider status into a 2016 electoral victory Four factors propelled him into the White House First Trump's long career as a public celebrity gave him an identity and brand widely known to the public and which

generated massive free media coverage as a candidate Second Trump and his campaign ably used social media to further amplify his message Third decades of polarized political elites governmental professionalism and mounting popular discontent made an outsider message attractive to millions of voters in 2016 Fourth Trump was blessed with a political opponent Hillary Clinton who represented the polarized and professional governing class that Trump rightly saw as an inviting target for his outsider message and demeanor That is how Trump happened
