Histoire M Moires Coloniaux Polyn Sie Fran Aise:

Mysteries and Dreams: the French in Oceania Sylvie Largeaud-Ortega, Lorenz Gonschor, 2025-10-14 Oceania has been the source of mysteries and dreams from the first contact with Europe onwards both for Indigenous Oceanians and outsiders. *Mysteries and Dreams: The French in Oceania* is a collection of cross disciplinary essays that explore the mysteries, allures and questionings raised by Indigenous Oceanians and French people about their mutually different worldviews as well as their dreams, aspirations or disillusion as they navigate their relationships. With a strong focus on reciprocity, this original project analyzes diverse forms of French association with Oceania and the responses engendered by Indigenous communities, authors and artists as they reshape French narratives. Organized along three lines: history, literature and arts, this innovative lens offers unprecedented examinations of hitherto unexplored Oceanian and French figures involved in Oceania, bringing to the fore Marist missionary Xavier Montrouzier, influential politicians Charles de Varigny and Auguste Marques, playwrights and artists Pierre Gope and Greg Semu, and filmmakers Sima Urale and douard Deluc. It also offers fresh postcolonial approaches to better known figures such as Paris Commune convicts Louis Michel and Henri Rochefort, prominent authors like Titaua, Peu Selina, Tusitala Marsh, Teresia Teaiwa, Vilsoni Hereniko, and douard Glissant, and widely discussed artists like Yuki Kihara. It also critically engages individuals representing the colonial gaze such as Pierre Loti, Allan Hughson and Paul Gauguin. Spanning across Oceania from the Solomon Islands to Rapa Nui, Hawai i to Aotearoa, New Zealand, Tahiti and Kanaky, New Caledonia, it shows the wide impacts of the French on this vast region. Bridging together Anglophone and Francophone Oceania, this volume is an authoritative and enlightening reference to scholars and students in postcolonial Pacific Island studies, to Indigenous and non Indigenous Oceanians wishing to discover interactive processes of change in their region's past and present, and more generally to all outsiders who might some day have felt inclined to fall under the spell of an imaginary Oceania.

The Cambridge History of the Pacific Ocean: Volume 2, The Pacific Ocean since 1800 Anne Perez Hattori, Jane Samson, 2023-01-05 Volume II of *The Cambridge History of the Pacific Ocean* focuses on the latest era of Pacific history, examining the period from 1800 to the present day. This volume discusses advances and emerging trends in the historiography of the colonial era, before outlining the main themes of the twentieth century when the idea of a Pacific centred century emerged. It concludes by exploring how history and the past inform preparations for the emerging challenges of the future. These essays emphasise the importance of understanding how the postcolonial period shaped the modern Pacific and its historians.

Vanilla Eric T. Jennings, 2025-08-26 The fascinating and wide ranging history of vanilla from the sixteenth century to today. Vanilla is one of the most expensive of flavorings, so valuable that it was smuggled or stolen by pirates in the early days, and yet it is everywhere. It is a key ingredient in dishes ranging from crème brûlée to Japanese purin. It is the quintessential ice cream flavor in the United States. Eric T. Jennings explains how the world's only edible orchid, originally endemic to Central America, became embedded in the international culinary and cultural landscape. In

tracing vanilla's rise Jennings describes how in the 1840s an enslaved boy named Edmond Albius discovered a way to pollinate vanilla orchids with a toothpick or needle an ingenious process that is still in use This method transformed the vanilla sector by enabling the plant to be grown outside of its natural range Jennings also looks at how the vanilla craze led to the search for now pervasive substitutes and how a vanilla lobby has fought back He further unravels how vanilla the world's most expensive crop and once considered its most refined fragrance came to mean bland This tale of botany production techniques consumption habits and colonial rivalry connects the Atlantic Indian and Pacific Oceans revealing how vanilla has become a potent symbol of the modern global village *Haunting Ruins* Chiara Calzana,Valentina Gamberi,2025-03-01

Ruins rubble and decaying material can foster a more layered theory of time change and memory The seven ethnographic case studies in *Haunting Ruins* trace human engagements with the temporal forces of ruins which can trace the past and transform the present Conjuring environmental humanities the anthropology of history memory and archaeology this book delves into the complex influence of the past on the present and the future and urges scholars to consider ruins as things to think with *The Ocean on Fire* Anaïs Maurer,2024-03-01 Anaïs Maurer foregrounds Pacific literature as a key archive for surviving and thriving in an environment in which Indigenous inhabitants have been bombarded with the equivalent of one

Hiroshima bomb a day for half a century *Geographies of New Caledonia-Kanaky* Matthias Kowasch,Simon P. J. Batterbury,2024-04-12 This open access book provides a unique overview of geographical historical political and environmental issues facing the French overseas territory New Caledonia also called Kanaky by the indigenous Kanak people who outnumber citizens of European and other origin New Caledonia has seen a long and complex struggle for decolonization but is still on the United Nations list of Non Self Governing territories and there is little sign of change following three referendums on independence and extensive negotiations with France The archipelago possesses around a quarter of the world's nickel deposits giving it additional strategic importance when demand for the mineral is strong The islands have unique biodiversity and Caledonian coastal lagoons have been listed as UNESCO world heritage sites since 2008 The book offers detailed insights into the environmental and human geographies of the archipelago with a focus on the links between environmental protection and extensive mining operations between political independence struggles and continued wellbeing and economic development and the differing visions for the future of the islands This multidisciplinary volume one of the few to appear in English appeals to researchers students and policy makers across the environmental social and political sciences **The Bounty from the Beach** Sylvie Largeaud-Ortega,2018-10-31 The Bounty from the

Beach is a collection of cross disciplinary essays capitalising on a widely shared fascination for the Bounty story in order to draw scholarly attention to Oceania It aims to reorient the Bounty focus away from the West where most Bountynarratives and studies have emerged to the Pacific where most of the original events unfolded It investigates the Bounty heritage from the standpoint of the beach Greg Denning's metaphor for culture contact and conflict in the Pacific Islands this liminal place

that transforms Islanders and voyagers islands and ships each time it is crossed It analyses the way newcomers create new islands and how these changes may occasionally impact the world This volume examines the little people to use another of Denning's expressions who stand on both sides of the beach they are Polynesian or European or as beaches are crossed and remade no longer one without the other but bound together in processes of change Among these people are Bounty sailors beachcombers Pitcairners and indigenous Pacific Islanders of the past and the present This collection also explores the works of some renowned Western writers and actors who turning mutineers after their own fashion and in their own times themselves crossed the beach and attempted to illuminate the little people involved in the Bounty narratives These prominent writers and actors put the spotlight on characters who were silenced on account of race class or geographical distance from the dominant centres of power Inspired by Denning's empowering voice our purpose is to fill that silence Just as it criss crosses the ocean progressing with the ship through time and space TheBounty from the Beach ranges far and wide across disciplines methodologies and scholarly styles Its multidisciplinary course contributes to illuminate the multiple ways in which the Bounty heritage embraces diverse horizons It throws light on the colonial discourse that undertook to stifle Pacific Islander agency and the neocolonial policies that have been applied to Oceania and still are hegemonic moves that have led to global environmental nuclear and ecological hazards As a whole the collection contends that what unfolds in this vast ocean matters the stakes are high for the whole human community
