Historia Comuneros Influencia Movimiento Castilla:

Historia de los comuneros de León y de su influencia en el movimiento general de Castilla Eloy Díaz-Jiménez y Molleda, 1916 Historia de España y su influencia en la historia universal Antonio Ballesteros y Beretta, 1927 *Historia de España y su influencia en la historia universal* Antonio Ballesteros Beretta, 1927 **La revuelta de las Comunidades de Castilla en el reino de Dios** Claudio César Rizzuto, 2021-02-01 La revuelta de las Comunidades de Castilla 1520 1521 es uno de los grandes problemas de la España Moderna. Numerosos historiadores se han ocupado de su dimensión política institucional y social. A su vez ha sido un elemento destacado en la memoria histórica de los últimos siglos generando diversas conmemoraciones, obras artísticas e identificaciones políticas. El presente libro se centra en los aspectos religiosos y culturales de la revuelta contra Carlos V, perspectiva generalmente ausente en las aproximaciones. Para ello se realiza un recorrido por la demonización de los bandos en pugna, las pretensiones de reforma de la Iglesia y de la Inquisición, el primer impacto de la Reforma Protestante en Castilla, la heterogeneidad religiosa entre los rebeldes, las formas de legitimación religiosa por parte de la monarquía y los comuneros y las inspiraciones proféticas y mesiánicas. Se ubica así el conflicto comunero entre los problemas religiosos de la Edad Media y la Edad Moderna enfatizando la necesidad de una visión localizada y a la vez amplia de la dimensión religiosa de la revuelta. De esta manera, en coincidencia con las diversas conmemoraciones por los quinientos años de la revuelta, la obra pretende comenzar a completar un vacío historiográfico que puede acercar a los valores y creencias de sus participantes tanto entre los comuneros como entre los realistas en un momento clave de la historia de España y su inserción en la política europea. **Las Comunidades de Castilla** José Antonio Maravall, 2021-04-22 La guerra civil que se inició en la segunda mitad de 1519 y finalizó en 1521 con la derrota de los comuneros en Villalar constituye la primera rebelión de carácter moderno en España y probablemente en Europa, mucho más cercana a los movimientos de esa nueva era que a las revueltas gremiales de la Baja Edad Media. Las Comunidades de Castilla no trata de ofrecer una secuencia de hechos sino analizar los factores que movieron internamente los acontecimientos, las causas que los provocaron y los fines que sucesivamente fueron inspiradores. Una línea de pensamiento político fluye por debajo del movimiento y le da sentido sin perjuicio del progresivo desplazamiento de la ideología de la revolución comunera a medida que esta avanza hacia posiciones más radicales. Aunque no quepa atribuir a los comuneros una doctrina sistemática sobre la organización de la sociedad humana, sus planteamientos políticos poseen coherencia y novedad. José Antonio Maravall además de incluir un estudio sobre la imagen de las Comunidades de Castilla dentro de una tipología social de los movimientos revolucionarios, aborda también las resonancias del movimiento comunero que siguieron vivas unas décadas después de su derrota en la opinión de movimientos populares y rurales. Esta obra de José Antonio Maravall que Alianza Editorial vuelve a publicar con motivo del Quinto Centenario de la derrota de los comuneros en Villalar el 23 de abril de 1521, altera de manera sustancial las interpretaciones tradicionales sobre la rebelión de las Comunidades de Castilla y abre el camino
