Historia social de la literatura española (en lengua castellana) Carlos Blanco Aguinaga, Julio Rodríguez Puértolas, Iris M. Zavala, 2000 Este libro ofrece una visión de conjunto de la creación literaria en España desde la Edad Media hasta principios de los años ochenta En él se aborda el estudio de los principales autores y obras a partir de sus respectivos contextos sociohistóricos con lo que la Literatura se configura como un producto ligado indisolublemente a la Historia sin la cual es imposible obtener una adecuada representación de la misma *Sociedad, política y protesta popular en la España musulmana* Roberto Marín Guzmán, 2006 A work on Muslim Spain by one of Latin America's foremost authorities The study covers the 9th through 15th centuries and includes Muslims in Spain institutions ethnicity class divisions Muslim protest in Andalusia fragmentation and reconquest *The History of Capitalism in Mexico* Enrique Semo, 2014-07-03 What lies at the center of the Mexican colonial experience Should Mexican colonial society be construed as a theoretical monolith capitalist from its inception or was it essentially feudal as traditional historiography viewed it In this pathfinding study Enrique Semo offers a fresh vision that the conflicting social formations of capitalism feudalism and tributary despotism provided the basic dynamic of Mexico's social and economic development Responding to questions raised by contemporary Mexican society Semo sees the origin of both backwardness and development not in climate race or a heterogeneous set of unrelated traits but rather in the historical interaction of each social formation In his analysis Mexico's history is conceived as a succession of socioeconomic formations each growing within the womb of its predecessor Semo sees the task of economic history to analyze each of these formations and to construct models that will help us understand the laws of its evolution His premise is that economic history contributes to our understanding of the present not by formulating universal laws but by studying the laws of development and progression of concrete economic systems The History of Capitalism in Mexico opens with the Conquest and concludes with the onset of the profound socioeconomic transformation of the last fifty years of the colony a

period clearly representing the precapitalist phase of Mexican development In the course of his discussion Semo addresses the role of dependency an important theoretical innovation and introduces the concept of tributary despotism relating it to the problems of Indian society and economy He also provides a novel examination of the changing role of the church throughout Mexican colonial history The result is a comprehensive picture which offers a provocative alternative to the increasingly detailed and monographic approach that currently dominates the writing of history Originally published as *Historia del capitalismo en M xico* in 1973 this classic work is now available for the first time in English It will be of interest to specialists in Mexican colonial history as well as to general readers 2007 Massimo Mastrogregori, 2011-12-23 Die International Bibliography of Historical Sciences verzeichnet j hrlich die bedeutendsten Neuerscheinungen geschichtswissenschaftlicher Monographien und Zeitschriftenartikel weltweit die inhaltlich von der Vor und Fr hgeschichte bis zur j ngsten Vergangenheit reichen Sie ist damit die derzeit einzige laufende Bibliographie dieser Art die thematisch zeitlich und geographisch ein derart breites Spektrum abdeckt Innerhalb der systematischen Gliederung nach Zeitalter Region oder historischer Disziplin sind die Werke nach Autorennamen oder charakteristischem Titelhauptwort aufgelistet
