Historical Archaeology Of Gendered Lives Contributions To Global Historical Archaeology:

Historical Archaeology of Gendered Lives Deborah Rotman, 2009-07-25 During the last half of the nineteenth century a number of social and economic factors converged that resulted in the rural village of Deerfield Massachusetts becoming almost entirely female This drastic shift in population presents a unique lens through which to study gender roles and social relations in the late nineteenth and early twentieth century The lessons gleaned from this case study will provide new insight to the study of gender relations throughout other historical periods as well Through an intensive examination of both historical and archaeological evidence the author presents a clear picture of the gendered social relations in Deerfield over the span of seventy years While gender relations in urban settings have been studied extensively this unique work provides the same level of examination to gender relations in a rural setting Likewise where previous studies have often focused only on relations between married men and women the unique case of Deerfield provides insight into the experiences of single women particularly widows and spinsters This work presents a unique contribution that will be essential for anyone studying the historical archaeology of gender or gender roles in the Victorian era and beyond Historical and Archaeological

Perspectives on Gender Transformations Suzanne M. Spencer-Wood, 2012-12-09 In many facets of Western culture including archaeology there remains a legacy of perceiving gender divisions as natural innate and biological in origin This belief follows that men are naturally pre disposed to public intellectual pursuits while women are innately designed to care for the home and take care of children In the interpretation of material culture accepted notions of gender roles are often applied to new findings the dichotomy between the domestic sphere of women and the public sphere of men can color interpretations of new materials In this innovative volume the contributors focus explicitly on analyzing the materiality of historic changes in the domestic sphere around the world Combining a global scope with great temporal depth chapters in the volume explore how gender ideologies identities relationships power dynamics and practices were materially changed in the past thus showing how they could be changed in the future

Flashy, Fun and Functional Sarah Hayes, 2019-02-01 Against the backdrop of embryonic Melbourne John Thomas Smith left behind his currency roots to become an influential member of society A widely recognised figure about town smoking a cutty pipe and wearing a white top hat in 1851 he became Lord Mayor of Melbourne he went on to be re elected seven times His scandalous marriage to the daughter of an Irish Catholic publican however and his awkwardly appropriated gentility made him unpopular with certain sections of society He could never shake the shadow of his background and was dogged by ignominious rumours From 1849 to 1860 Smith and his family occupied 300 Queen Street Melbourne one of the first true residential townhouses in the city Flashy Fun and Functional How Things Helped to Invent Melbourne s Gold Rush Mayor explores the things they left behind Excavations at the site in 1982 by Judy Birmingham and Associates uncovered a rich and important archaeological record of the Smiths lives in the form of a cesspit rubbish deposit The recovered artefacts can be used to examine the distinctive way the Smith family used material

culture to negotiate their position in colonial society Popular decoration styles and expensive materials suggest the family's efforts to secure their newly obtained social status The artefacts evoke the turmoil volatility and opportunity of life in the first decades of the colony of Port Phillip They provide an example of the possibility of social mobility in the colony but also of the challenges of navigating the customs of a newly forming society *Good taste, fashion, luxury: a genteel Melbourne family and their rubbish* Sarah Hayes, 2014-09-09 Melbourne grew during the 19th century from its fledgling roots into a global metropolitan centre and was home to many people from a range of social and cultural backgrounds The Martin family arrived in Melbourne in 1839 and soon established themselves at the genteel Viewbank estate near Heidelberg They were typical of the early middle class immigrants to Melbourne who brought their gentility and privilege with them to the colony The Martins spent many years at Viewbank and the physical remains they left behind provide a valuable case study for examining class negotiation in the colony through historical archaeology In this important study material culture is used to understand the unique way in which the Martin family used gentility to establish and maintain their class position *The Archaeology of Capitalism in Colonial Contexts* Sarah K. Croucher, Lindsay Weiss, 2011-08-10 *The Archaeology of Capitalism in Colonial Contexts* Postcolonial Historical Archaeologies explores the complex interplay of colonial and capital formations throughout the modern world The authors present a critical approach to this topic trying to shift discourses in the theoretical framework of historical archaeology of capitalism and colonialism through the use of postcolonial theory This work does not suggest a new theoretical framework as such but rather suggests the importance of revising key theoretical terms employed within historical archaeology arguing for new engagements with postcolonial theory of relevance to all historical archaeologists as the field de-centers from its traditional locations Examining case studies from North America South America the Caribbean Africa Australia the Middle East and Europe the chapters offer an unusually broad ranging geography of historical archaeology with each focused on the interplay between the particularisms of colonial structures and the development of capitalism and wider theoretical discussions Every author also draws attention to the ramifications of their case studies in the contemporary world With its cohesive theoretical framework this volume is a key resource for those interested in decolonizing historical archaeology in theory and praxis and for those interested in the development of modern global dynamics **Grandpa the Cowboy: A Young Man's Journey through the American West** Deb Rotman, 2022-09-09 In 1904 Eugene J TenBrink a second generation immigrant from the Dutch enclave of West Michigan traveled to the Great Plains to see the American West for himself He found work with a bonanza farm in Mayville North Dakota a cattle ranch in Miles City Montana and a sheepherding outfit outside of Sheridan Wyoming Although seemingly mundane and unremarkable Eugene lived the tremendous social economic and technological changes that were occurring throughout the United States in the decades surrounding the turn of the 20th century Farm laborer ranch hand sheep foreman and cowpuncher were roles Eugene filled during his time out West 1904 1910 and through which his life gives us insights into a country undergoing

profound transformation **Interpreting the Early Modern World** Mary C. Beaudry, James Symonds, 2010-10-20

Interpretive archaeology meaning the interpretation social science as opposed to hard science of archaeology and archaeological artifacts has predominantly been the realm of prehistoric archaeologists Many historical archaeologists are participating in this disciplinary shift from processualism to post processualism and interpretation but to date few have called their work interpretive archaeology This volume is based on a session at the Society for Historical Archaeology meeting in 2005 The organizers now editors brought together historical archaeologists from both the UK and the US working in the same areas industrial landscape monuments etc but because of their country based training their work arises out of differing intellectual traditions The chapters in each section do not stand in isolation rather the authors exchange ideas about what each other has written They construct dialogues about theories and practices that inform interpretive archaeology on either side of the Atlantic ends with commentary by two well known names in interpretive archaeology in the UK and in the States

An Archaeology of Australia Since 1788 Susan Lawrence, Peter Davies, 2010-10-21 This volume provides an important new synthesis of archaeological work carried out in Australia on the post contact period It draws on dozens of case studies from a wide geographical and temporal span to explore the daily life of Australians in settings such as convict stations goldfields whalers camps farms pastoral estates and urban neighbourhoods The different conditions experienced by various groups of people are described in detail including rich and poor convicts and their superiors Aboriginal people women children and migrant groups The social themes of gender class ethnicity status and identity inform every chapter demonstrating that these are vital parts of human experience and cannot be separated from archaeologies of industry urbanization and culture contact The book engages with a wide range of contemporary discussions and debates within Australian history and the international discipline of historical archaeology The colonization of Australia was part of the international expansion of European hegemony in the eighteenth and nineteenth century The material discussed here is thus fundamentally part of the global processes of colonization and the creation of settler societies the industrial revolution the development of mass consumer culture and the emergence of national identities Drawing out these themes and integrating them with the analysis of archaeological materials highlights the vital relevance of archaeology in modern society

The Plurality of Power Sarah Cowie, 2011-02-15 How do people experience power within capitalist societies Research presented here explicitly addresses the notion of pluralistic power which encompasses both productive and oppressive forms of power and acknowledges that nuanced and multifaceted power relations can exist in combination with binary dynamics such as domination and resistance This volume addresses growing interests in linking past and present power relationships engendered by capitalism and in conducting historical archaeology as anthropology The Plurality of Power Industrial Capitalism and the Nineteenth Century Company Town of Fayette Michigan explores the subtle distribution of power within American industrial capitalism through a case study of a company town Issues surrounding power and agency are explored in regard to three heuristic categories of

power In the first category the company imposed a system of structural class based power that is most visible in hierarchical differences in pay and housing as well as consumer behavior A second category addresses disciplinary activities surrounding health and the human body as observed in the built environment medical artifacts disposal patterns of industrial waste incidence of intestinal parasites and unequal access to healthcare The third ensemble of power relations is heterarcical and entwined with non economic capital social symbolic and cultural Individuals and groups drew upon different forms of capital to bolster social status and express identity both within and apart from the corporate hierarchy The goal in combining these diverse ideas is to explore the plurality of power relationships in past industrial contexts and to assert their relevance in the anthropology of capitalism

Memories from Darkness Pedro Funari, Andres Zarankin, Melissa Salerno, 2009-09-23 To Write What one Could Not Tell Anyone You who live in all tranquility So warm and comfortable in your houses You who come home at night to find The table laid and friendly faces around you Consider if this is a man He who toils in the mud Who knows no rest Who fights for a crust of bread Who dies for the slightest reason Consider if this is a woman She who has lost her name and her hair And even the strength to remember Her gaze blank and her bosom chilled Like a frog in winter Do not forget that this happened No do not forget it Engrave these words in your heart Think of them in your home in the street When you sleep when you rise Repeat them to your children Or else your house will crumble You will be overcome by illness And your children will turn away from you Levi 1987 9 the translations is mine At Auschwitz Filip M ller was assigned to the Sonderkommando Every day with his fellow prisoners he emptied the gas chambers of their piles of defiled corpses and loaded them into the crematorium furnaces of the extermination camp

The Archaeology of Market Capitalism Gaye Nayton, 2011-04-13 The area claimed by the British Empire as Western Australia was primarily colonized through two major thrusts the development of the Swan River Colony to the southwest in 1829 and the 1863 movement of Australian born settlers to colonize the northwest region The Western Australian story is overwhelmingly the story of the spread of market capitalism a narrative which is at the foundation of modern western world economy and culture Due to the timing of settlement in Western Australia there was a lack of older infrastructure patterns based on industrial capitalism to evoke geographical inertia to modify and deform the newer system in many ways making the systemic patterns which grew out of market capitalist forces clearer and easier to delineate than in older settlement areas However the struggle between the forces of market capitalism settlers and indigenous Australians over space labor physical and economic resources and power relationships are both unique to place and time and universal in allowing an understanding of how such complicated regional interregional and global forces shape a settler society Through an examination of historical records town layout and architecture landscape analysis excavation data and material culture analysis the author created a nuanced understanding of the social economic and cultural developments that took place during this dynamic period in Australian history In examining this complex settlement history the author employed several different research methodologies in parallel to create a

comprehensive understanding of the area Her research techniques will be invaluable to researchers struggling to understand similarly complex sociocultural evolutions throughout the globe

Orser, Jr., Andres Zarankin, Pedro Funari, Susan Lawrence, James Symonds, 2020-07-26 The Routledge Handbook of Global Historical Archaeology is a multi authored compendium of articles on specific topics of interest to today's historical archaeologists offering perspectives on the current state of research and collectively outlining future directions for the field The broad range of topics covered in this volume allows for specificity within individual chapters while building to a cumulative overview of the field of historical archaeology as it stands and where it could go next Archaeological research is discussed in the context of current sociological concerns different approaches and techniques are assessed and potential advances are posited This is a comprehensive treatment of the sub discipline engaging key contemporary debates and providing a series of specially commissioned geographical overviews to complement the more theoretical explorations This book is designed to offer a starting point for students who may wish to pursue particular topics in more depth as well as for non archaeologists who have an interest in historical archaeology Archaeologists historians preservationists and all scholars interested in the role historical archaeology plays in illuminating daily life during the past five centuries will find this volume engaging and enlightening

Gender and Change in Archaeology Nona Palinc  , Ana Cristina Martins, 2024-03-29 This volume presents the various ways in which the study of gender makes a difference in archaeological research the archaeological academic milieu and the wider public's thinking about gender and considers avenues of future development It addresses questions such as why gender matters for archaeology while examining gender from various angles including aspects such as subjectivity embodiment diet multifaceted perspectives and intersectionality and in various periods prehistory Ancient Egypt Roman antiquity the Middle Ages and the modern and contemporary periods It also discusses the relationship between archaeology and other academic fields involving the study of gender as well as representations and debates on gender in the media The theme gender and change in archeology emerged out of concerns voiced within the Archaeology and Gender in Europe AGE working community of the European Association of Archaeologists EAA with respect to the future of gender archaeology This book unites researchers of gender archaeology from two perspectives that of gender archaeologists from academic milieus where the study of gender has long been established and who in the meantime came to feel that this avenue of inquiry had become predictable and lost its provocative power and that of gender archaeologists from countries where this field was only recently introduced and who while more enthusiastic about the utility of gender archaeology are concerned with how to disseminate it among skeptical peers Both groups of archaeologists mainly argue that four decades on the study of gender in archaeology is still able to generate considerable change in our understanding of past and present day societies The volume is primarily of interest to archaeologists and researchers of gender studies
