Jewish Pasts, German Fictions Jonathan Skolnik,2014-03-19 Jewish Pasts German Fictions is the first comprehensive study of how German Jewish writers used images from the Spanish Jewish past to define their place in German culture and society Jonathan Skolnik argues that Jewish historical fiction was a form of cultural memory that functioned as a parallel to the modern demythologizing project of secular Jewish history writing What did it imply for a minority to imagine its history in the majority language Skolnik makes the case that the answer lies in the creation of a German Jewish minority culture in which historical fiction played a central role After Hitler s rise to power in 1933 Jewish writers and artists both in Nazi Germany and in exile employed images from the Sephardic past to grapple with the nature of fascism the predicament of exile and the destruction of European Jewry in the Holocaust The book goes on to show that this past not only helped Jews to make sense of the nonsense but served also as a window into the hopes for integration and fears about assimilation that preoccupied German Jewish writers throughout most of the nineteenth century Ultimately Skolnik positions the Jewish embrace of German culture not as an act of assimilation but rather a reinvention of Jewish identity and historical memory

Halevi-Wise, 2003-09-30 Arguing that genre must play a role in our study of narrative fiction this tour of the novel examines interactive storytelling scenes in which characters argue about how to tell a tale that meets their respective social and aesthetic expectations Through intense readings of interactive storytelling scenes in works spanning the 17th through 20th centuries Halevi Wise demonstrates how dramatized arguments about storytelling open a window on social and generic dilemmas affecting the narrative of each novel at the time of its composition Examined in detail are Cervantes Don Quixote Sterne s Tristram Shandy Austen s Northanger Abbey Dickens s Little Dorrit Conrad s Lord Jim Yehoshua s Mr Mani and Esquivel s I Like Water for Chocolate Redressing an imbalance between sociological approaches that displace aesthetic considerations and aesthetic analyses that bracket cultural phenomena the author shows why both genre and culture must be taken into account when we analyze the formation and reception of a narrative Each interactive storytelling event illustrates how social and aesthetic interests compete and reinvent themselves within their framing texts and those texts respective national and historical contexts Just as social interactions cannot be indefinitely displaced in the study of narrative fiction genre cannot be ignored in the study of identity politics What emerges from this unique examination is a postmodern poetics of the novel that takes genre and history into account *Facing Poetry* Frauke Berndt, 2020-10-12 Alexander Gottlieb

Baumgarten 1714 1762 is known in intellectual history for having established the discourse of philosophical aesthetics with his *Meditationes philosophicae de nonnullis ad poema pertinentibus* Reflections on Poetry and Aesthetica Aesthetics which consists of two books and is considered Baumgarten s most important work But this book amends that history It shows that Baumgarten s aesthetics is a science of literature that demonstrates the value of literature to philosophy Baumgarten did not intend to pursue such a task but in working on his philosophical texts and lectures he ends up analyzing synthesizing and contextualizing literature He thereby treats it not as belles lettres or as a moral institution but rather as an epistemic object His aesthetics is thus the first modern literary theory and his articulation of this theory would never again be matched in its

complexity and systematicity Baumgarten's theory of literature has never been discovered. It waits latently to take its place in intellectual history.

Tourism Fictions, Simulacra and Virtualities Maria Gravari-Barbas, Nelson Graburn, Jean-Francois Staszak, 2019-08-28 Tourism Fictions Simulacra and Virtualities offers a new understanding of tourism's interaction with space questioning the ways in which fictions simulacra and virtualities express tourism in the built environment and vice versa. Since its beginnings tourism has inspired themed built environments that have a constitutive and sometimes problematic relationship with the real world and its architectural references. This volume questions and rethinks the different environments constructed or adapted both for and by tourism exploring the relationship between the real and the unreal within the tourist bubble and the ways in which the real world inspires simulacra for tourism use. Adopting an interdisciplinary approach this book touches on a wide range of geographical areas eras and subjects such as post socialist tourism in Poland the Hawaiian imaginary in Las Vegas Rio de Janeiro's Little Africa as well as multiple instances of virtual reality in tourism. This timely and innovative volume will be of great interest to upper level students researchers and academics in tourism architecture cultural studies geography and heritage studies.
