A History of Architectural Modelmaking in Britain David Lund, 2022-12-16 Architectural modelmakers have long carried out their work hidden behind the scenes of architectural design and in presenting a history of architectural modelmaking in Britain for the first time this book casts a new light on their remarkable skills and achievements By telling the story of the modelmakers who make architectural models rather than architects who commission and use them this book seeks to celebrate their often overlooked contribution to the success and endurance of the architectural model in Britain over the past one hundred and forty years Drawing from extensive archival research and interviews with practicing and retired modelmakers this book traces the complete history of architectural modelmaking in Britain from its initial emergence as a specialist occupation at the end of the nineteenth century through to the present day It reveals the legacy of John Thorp the first professional architectural modelmaker in Britain who opened his business in London in 1883 and charts the lives and

careers of the innovative and creative modelmakers who followed him It examines the continually evolving materials tools and processes of architectural modelmaking and outlines the profound ideological economic and technological influences that have shaped the profession s development Illustrated with over one hundred photographs of architectural models from previously undocumented archives this book will be of great interest to architectural modelmakers academics and historians as well as anyone with an interest in architectural history and modelmaking **A History of Cleveland, Ohio:**

Michelet,1880 A History of the Norwegians of Illinois Algot E. Strand,1905 A concise record of the struggles and achievements of the early settlers together with a narrative of what is now being done by the Norwegian Americans of Illinois in the development of their adopted country **U.S. Women's History** Leslie Brown,Jacqueline Castledine,Anne Valk,2017-01-25 In the 1970s feminist slogans proclaimed Sisterhood is powerful and women s historians searched through the historical archives to recover stories of solidarity and sisterhood However as feminist scholars have started taking a more

intersectional approach acknowledging that no woman is simply defined by her gender and that affiliations like race class and sexual identity are often equally powerful women s historians have begun to offer more varied and nuanced narratives The ten original essays in U S Women s History represent a cross section of current research in the field Including work from both emerging and established scholars this collection employs innovative approaches to study both the causes that have united American women and the conflicts that have divided them Some essays uncover little known aspects of women s history while others offer a fresh take on familiar events and figures from Rosa Parks to Take Back the Night marches Spanning the antebellum era to the present day these essays vividly convey the long histories and ongoing relevance of topics ranging from women s immigration to incarceration from acts of cross dressing to the activism of feminist mothers This volume thus not only untangles the threads of the sisterhood mythos it weaves them into a multi textured and multi hued tapestry that reflects the breadth and diversity of U S women s history

Religious Imaginaries Karen Dieleman, 2012-10-02 Explores liturgical practice as formative for how three Victorian women poets imagined the world and their place in it and consequently for how they developed their creative and critical religious poetics This new study rethinks several assumptions in the field that Victorian women s faith commitments tended to limit creativity that the contours of church experiences matter little for understanding religious poetry and that gender is more significant than liturgy in shaping women s religious poetry Exploring the import of bodily experience for spiritual emotional and cognitive forms of knowing Karen Dieleman explains and clarifies the deep orientations of different strands of nineteenth century Christianity such as Congregationalism s high regard for verbal proclamation Anglicanism s and Anglo Catholicism s valuation of manifestation and revivalist Roman Catholicism s recuperation of an affective aesthetic Looking

specifically at Elizabeth Barrett Browning Christina Rossetti and Adelaide Procter as astute participants in their chosen strands of Christianity Dieleman reveals the subtle textures of these women s religious poetry the different voices genres and aesthetics they create in response to their worship experiences Part recuperation part reinterpretation Dieleman s readings highlight each poet s innovative religious poetics Dieleman devotes two chapters to each of the three poets the first chapter in each pair delineates the poet s denominational practices and commitments the second reads the corresponding poetry Religious Imaginaries has appeal for scholars of Victorian literary criticism and scholars of Victorian religion supporting its theoretical paradigm by digging deeply into primary sources associated with the actual churches in which the poets worshipped detailing not only the liturgical practices but also the architectural environments that influenced the worshipper s formation By going far beyond descriptions of various doctrinal positions this research significantly deepens our critical understanding of Victorian Christianity and the culture it influenced **Feminism Without Illusions** Elizabeth
