Writings on American History, 1904 *History of the Louisiana Purchase Exposition* Mark Bennitt, 1976 Reader's Guide to American History Peter J. Parish, 2013-06-17 There are so many books on so many aspects of the history of the United States offering such a wide variety of interpretations that students teachers scholars and librarians often need help and advice on how to find what they want The Reader s Guide to American History is designed to meet that need by adopting a new and constructive approach to the appreciation of this rich historiography Each of the 600 entries on topics in political social and economic history describes and evaluates some 6 to 12 books on the topic providing guidance to the reader on everything from broad surveys and interpretive works to specialized monographs The entries are devoted to events and individuals as well as broader themes and are written by a team of well over 200 contributors all scholars of American history

Writings on American History, 1902 Ernest Cushing Richardson, Anson Ely Morse, 1904 **History of the Archdiocese of St. Louis** John Ernest Rothensteiner, 1928 **Empires of the Imagination** Peter J. Kastor, François Weil, 2009-10-16 Empires of the Imagination takes the Louisiana Purchase as a point of departure for a compelling new discussion of the interaction between France and the United States In addition to offering the first substantive synthesis of this transatlantic relationship the essays collected here offer new interpretations on themes vital to the subject ranging from political culture to intercultural contact to ethnic identity They capture the cultural breadth of the territories encompassed by the Louisiana Purchase exploring not only French and Anglo American experiences but also those of Native Americans and African Americans Despite differences in concerns and methods the pieces collected share crucial ground in how they suggest new ways for thinking about empire identity and memory The authors show how France and the United States set about their competing imperial projects even as residents of the North American West effectively resisted those imperial aims creating instead their own notions of community and connection At the same time these essays show how the contact among peoples created new social configurations and distinct cultural identities Moving beyond the particulars of the late eighteenth and early nineteenth centuries these essays reveal how the Louisiana Purchase subsequently entered into the public consciousness on both sides of the Atlantic in ways that continue to define imperial projects racial identities and ethnic communities Delineating a unique moment in transatlantic historical conversation Empires of the Imagination also provides important lessons in cross disciplinary approaches to North American and Atlantic history In addition to the multinational perspectives of the authors individual essays deploy social science history political culture and ideological history as well as social and cultural history to create a cohesive understanding of diverse experiences Contributors Emily Clark Tulane
