The Wonders of the Little World; Or, A General History of Man: Nathaniel Wanley,1806 *Educational Research* R. C. Mishra,2009 *Teaching Girls* Peter Kuriloff,Shannon Andrus,Charlotte Jacobs,2017-12-01

Women continue to be underrepresented in the high paying fields of science math and engineering They receive only about 80% of the salary of men holding similar jobs in any field and still face glass ceilings that limit their attainment How do we educate and empower girls to surmount these barriers and succeed throughout their lives This unique book reveals the kinds of teaching that engages girls intellectually fosters their creativity and bolsters their confidence Drawing on descriptions of great lessons written by nearly 2 000 students and teachers it offers a practical accessible guide to anyone who wants to find better ways to help young women succeed The authors review the special qualities of lessons that resonate with girls and show how they meet their developmental needs throughout adolescence They also show how vital it is that such teaching happen within schools that help students learn about the numerous ways that gender affects girls development The authors conclude by detailing how school leaders can create cultures that support this kind of great learning and teaching *The Chenango Kid* Roger K. Miller,2012-02

Two narratives intertwine in *The Chenango Kid* One is the personal story of the author Roger Miller who grew up on Chenango Street a main artery of the medium sized industrial city of Binghamton New York in the 1950s The second is the larger story of the 1950s Each narrative enlarges upon the other Many elements make up the personal a devastating house fire a single mother who liked to work and to frequent taverns a father mystified by life less devoted to work than to benignly stalking his son a half sister long unknown a drunken and or crazy uncle or two a boyhood paradise in the hills of Pennsylvania and a passion for reading and art All in all an unconventionally conventional working class youth *The Chenango Kid* also connects Chenango Street to the wider world of the Fifties a vibrant explosive decade in art literature music movies and television making it *The Decade That Never Ends* The popular culture of no other ten year span in the century continues to exert its influence as strongly or to be revived as often as that of the 1950s **Doing History** Linda S. Levstik,Keith C. Barton,2015-01-30

Now in its fifth edition *Doing History* offers a unique perspective on teaching and learning history in the elementary and middle grades Through case studies of teachers and students in diverse classrooms and from diverse backgrounds it shows children engaging in authentic historical investigations often in the context of an integrated social studies curriculum The premise is that children can engage in valid forms of historical inquiry collecting and analyzing data examining the perspectives of people in the past considering multiple interpretations and creating evidence based historical accounts Grounded in contemporary sociocultural theory and research the text features vignettes in each chapter showing communities of teachers and students doing history in environments rich in literature art writing discussion and debate The authors explain how the teaching demonstrated in the vignettes reflects basic principles of contemporary learning theory

Doing History emphasizes diversity of perspectives in two ways readers encounter students from a variety of backgrounds and students themselves look at history from multiple perspectives It provides clear guidance in using multiple forms of assessment to evaluate the specifically historical aspects of children s learning *Authority and History* Juliana Bastos Marques,Federico Santangelo,2022-12-15 This book examines authority in discourse from ancient to modern historians while also presenting instances of current subversions of the classical rhetorical ethos Ancient rhetoric set out the rules of authority in discourse and directly affected the claims of Greek and Roman historians to truth These working principles were consolidated in modern tradition but not without modifications The contemporary world in its turn subverts in many new ways the weight of the author s claim to legitimacy and truth through the active role of the audiences How have the ancient claims to authority worked and changed from their own times to our post modern digital world Online uses and outreach displays of the classical past especially through social media have altered the balance of the authority traditionally bestowed upon the ancients demonstrating what the linguistic turn has shown the role of the reader is as important as that of the writer *A History of Greek and Roman Philosophy* John Hackney,2022-09-06 An accessible overview of how the principles of thought which dominate our civilization came to be from philosophy s Ionian beginnings to Neo Platonism The history of philosophy reveals what was said at the beginning From the start man wanted to know why On the shores of Asia Minor men like Heraclitus or Parmenides found a wealth of mental material which language at the time could not convey This thought developed into the mighty teachings of Plato and Aristotle and furthered its advance under the Stoics Then the noble character of Plotinus dominated the scene and this developed into Neo Platonism where Greek philosophy struggled to unify itself Thales Heraclitus Socrates Plato and Aristotle To see each thinker in his true perspective it is necessary to study the philosophical background against which he worked The progress of philosophy is nonlinear and difficult to trace A History of Greek and Roman Philosophy seeks to reveal the interdependence of one school of thought upon another and in their own particular historical settings Then to be able to recognize a philosopher s point of departure from the material upon which he had been educated The purpose of this book is to widen and inform the scope of the general reader to offer a greater understanding of the effort humanity made to grasp the Truth In an educational environment that introduces students to great soldiers sailors statesmen and politicians space must be made for learning about history s greatest thinkers
