History Of Franciscan Theology Theology Series:

The History of Franciscan Theology Kenan B. Osborne, 1994 Spheres of Philosophical Inquiry and the Historiography of Medieval Philosophy John Inglis, 1998 This volume provides a genealogy of the modern historiography of medieval philosophy up to the present rediscovers fifty years of German scholarship criticizes what has become the standard approach and proposes an historically sensitive alternative Medieval Mystical Women in the West John Arblaster, Rob Faesen, 2024-07-18 This book explores the rich and varied mystical writings by and about medieval and a few early modern women across Western Europe Women had a profound and lasting impact on the development of medieval and early modern spiritual and mystical literature both through their own writing and as a result of the hagiographical texts that they inspired Bringing together contributions by both established and emerging scholars the volume provides a valuable overview of medieval mystical women with a special focus on the Low Countries and Italy regions that produced a disproportionately high number of female mystics The figures discussed range from Hildegard of Bingen Hadewijch Mechthild of Magdeburg Marguerite Porete Angela of Foligno Julian of Norwich and Beatrice of Nazareth to lesser known women such as Agnes Blannbekin Christina of Hane and Maria Maddalena de Pazzi The chapters address topics such as the body pain desire ecstasy stigmata annihilation virtue visions the tension between exterior and interior experience and the nature of mystical union itself *Mission on the Road to Emmaus* Cathy Ross , Stephen B. Bevans , 2015-09-30 The contributors in this collection of essays consider mission through the lens of prophetic dialogue They attempt to bring a fresh approach introducing some newer themes and bringing a different perspective on some older themes by examining in a theological rather than issues based way Aimed at scholars and students of missiology in the UK the US and worldwide it is also a contribution to the study of world Christianity and contextual theology **Bonaventure** Christopher M. Cullen, 2006-02-23 The great Franciscan theologian St Bonaventure c 1217 74 engaged in philosophy as well as theology and the relation between the two in Bonaventure s work has long been debated Yet few studies have been devoted to Bonaventure s thought as a whole In this survey Christopher M Cullen reveals Bonaventure as a great synthesizer whose system of thought bridged the gap between theology and philosophy The book is organized according to the categories of Bonaventure s own classic text *De reductione artium ad theologiam* Cullen follows Bonaventure s own division of the branches of philosophy and theology analyzing them as separate but related entities He shows that Bonaventure was a scholastic whose mysticism was grounded in systematic theological and philosophical reasoning He presents a fresh and nuanced perspective on Bonaventure s debt to Augustine while clarifying Aristotle s influence Cullen also puts Bonaventure s ideas in context of his time and place contributing significantly to our understanding of the medieval world This accessible introduction provides a much needed overview of Bonaventure s thought Cullen offers a clear and rare reading of Bonaventurianism in and for itself without the complications of critique and comparison This book promises to become a standard text on Bonaventure useful for students

and scholars of philosophy theology medieval studies and the history of Christianity **If Adam Had Not Sinned** Justus H. Hunter, 2020-03-06 Since the twelfth century theologians have found a counterfactual question irresistible If Adam had not sinned would the Son have become incarnate In the latter half of the twentieth century Hans Urs von Balthasar Hans K ng Gerhard Ludwig M ller Karl Rahner Karl Barth Wolfhart Pannenburg J rgen Moltmann and Robert Jenson all considered this question on the reason or motive for the incarnation Nearly every case refers to the classic disagreement between those who follow Thomas Aquinas and those who follow John Duns Scotus Though it is common to claim Thomas or Scotus as one s authority the theological debates among which Thomas and Scotus developed their own positions remain largely neglected This study fills that gap If Adam Had Not Sinned is a study of the medieval debates over the motive for the incarnation from Anselm of Canterbury to John Duns Scotus While the volume is primarily focused on thirteenth century debates at the University of Paris it also supplies necessary historical background to those debates As a result the larger context within which Thomas Aquinas and John Duns Scotus developed their influential responses is detailed This larger context permits an analysis that leads to the surprising claim against widespread assumptions that the responses given by Thomas and Scotus are substantially reconcilable **A Companion to Bonaventure** Jay Hammond, Wayne Hellmann, Jared Goff, 2013-10-31 Although Bonaventurian scholarship has seen a great expansion in the past forty years there remains no English volume that provides a general yet detailed study of Bonaventure for scholars The Companion to Bonaventure provides an invaluable guide to understanding him Together the essays deliver a critical overview of the current research the major themes in Bonaventure s life and writings and how they are being reinterpreted at the start of the twenty first century As a great 13th century scholastic luminary Bonaventure exists as a vital contributor to the early Franciscan movement that swept across the theological and spiritual landscape of the High Middle Ages The paradoxical simplicity and complexity of Bonaventure s synthesis has made and will continue to provide a profound contributions to Franciscan and Christian reflection This Companion will help in understanding why this is the case Contributors include Joshua Benson Jacques Bougerol Ilia Delio Christopher Cullen Jared Goff Jay M Hammond Zachary Hayes J A Wayne Hellmann Kevin L Hughes Timothy J Johnson David Keck Gregory LaNave Pietro Maranesi Dominic V Monti and Marianne Schlosser *The Encyclopedia of Christianity* Erwin Fahlbusch, Geoffrey William Bromiley, 1999 The Encyclopedia of Christianity is the first of a five volume English translation of the third revised edition of Evangelisches Kirchenlexikon Its German articles have been tailored to suit an English readership and articles of special interest to English readers have been added The encyclopedia describes Christianity through its 2000 year history within a global context taking into account other religions and philosophies A special feature is the statistical information dispersed throughout the articles on the continents and over 170 countries Social and cultural coverage is given to such issues as racism genocide and armaments while historical content shows the development of biblical and apostolic traditions This comprehensive work while scholarly is intended for a wide audience and will set the standard for reference

DeSpain, 2022-05-16 Thinking Theologically traces Aquinas's subtle grammatical and thematic engagements with the doctrine of the divine ideas throughout the Summa Theologiae This study offers new insights into the contributions of Aquinas's doctrine to debates about eschatology christology providence natural law virtue and creation's participation in the trinitarian life of God It argues that Aquinas adapts the doctrine to support his pedagogical goal of guiding readers from the confession of faith to the wisdom of sacra doctrina In turn this demonstrates that Aquinas's reading of the divine ideas reinforces his understanding of the dynamic exchange between philosophical reasoning and theological inquiry **Franciscan Field Guide** Rosemary
