Swapping the printed circuit board (PCB) on Hitachi hard drives requires matching 4 things "EXACTLY" for your best chance of success without having to swap any chips from your old PCB to the new PCB.

We recommend matching the full model number (HTS54503289SA00), Part number (P/N) (0J13903) both of which can be found on the drive label. The third thing that is required for the PCB swap is the MLC (Machine Level Code) (DA3612) which can also be found on the drive label.
