Kernproblemen Van Onze Geschiedenis Opstellen En Voordrachten 1925 1936:

The Rhyme and Reason of Politics in Early Modern Europe C.E. Harline, 2012-12-06 Herbert Rowen has always insisted that historians don't need biographers Outside a small circle of family friends and students what matters most is not the individual but his or her work Thus the main purpose of the present volume is to highlight Professor Rowen's contributions to the political history of early modern Europe Part I includes assessment of his work by others while Parts II V contain examples of his best articles papers and reviews some published here for the first time most previously hard to get These essays not only add substantively to our understanding of early modern politics but treat both implicitly and explicitly the historian's task per se Hence this is not biography much less innocuous laudation or hagiography which Herb would not forgive Yet it is only fitting that someone who lays so much stress on the human side of History should by way of introduction have something said about his person as well as his work

Challenging the Spirit of Modernity Harry Van Dyke, 2019-10-02 God's word illumines the darkness of society Dutch politician and historian Groen van Prinsterer's Unbelief and Revolution is a foundational work addressing the inherent tension between the church and secular society Writing at the onset of modernity in Western culture Groen saw with amazing clarity the dire implications of abandoning God's created order for human life in society Groen's work served as an inspiration for many contemporary theologians and he had a profound impact on Abraham Kuyper's famous public theology In Challenging the Spirit of Modernity Harry Van Dyke places this seminal work into historical context revealing how this vital contribution still speaks into the fractured relationship between religion and society A deeper understanding of the roots of modern secularism and Groen's strong faithful response to it gives us a better grasp of the same conflict today

The 1713 Peace of Utrecht and its Enduring Effects Alfred H.A. Soons, 2019-12-09 The 1713 Peace of Utrecht and its Enduring Effects edited by Alfred H A Soons presents an interdisciplinary collection of contributions marking the occasion of the tercentenary of the Peace of Utrecht The chapters examine the enduring effects of the Peace Treaties concluded at Utrecht in 1713 from the perspectives of international law history and international relations with cross cutting themes the European Balance of Power the Relationship to Colonial Regimes and Trade Monopolies and Ideas and Ideals the Development of the International Legal Order With contributions by Peter Beeuwkes Stella Ghervas Martti Koskenniemi Randall Lesaffer Paul Meerts Isaac Nakhimovsky Sundhya Pahuja Koen Stapelbroek Benno Teschke Jaap de Wilde

Dutch Primacy in World Trade, 1585-1740 Jonathan I. Israel, 1989-06-08 Despite its small size and population the Dutch Republic functioned as the hub of world trade shipping and finance for nearly two centuries This is the first detailed account of that hegemony from its sixteenth century origins to the final collapse of the Dutch trading system in the eighteenth century The economic structure of the early modern world was such that the Dutch Republic particularly Amsterdam was able to dominate the world economy to a far greater degree than any commercial power before or since Using archival and secondary sources this book explains how such a small nation was able to achieve

and sustain this ascendancy for so long In particular Professor Israel emphasizes the interaction between Dutch commercial activity in Asia Africa the Americas and the Middle East and its penetration of nearby European markets Introduction The origins of Dutch world trade hegemony The breakthrough to world primacy 1590 1609 The Twelve Years Truce 1609 1621 The Dutch and the crisis of the world economy 1621 1647 The zenith 1647 1672 Beyond the zenith 1672 1700 The Dutch world entrep ocirc t and the conflict of the Spanish succession 1700 1713 Decline relative and absolute 1713 1740 Afterglow and final collapse Conclusion

A Fearful Gentleman Roger Downing, Gijs Rommelse, 2011 Sir George Downing first served under the Protectorate of Oliver Cromwell as diplomat in the Dutch Republic Following the Restoration of Charles II in 1660 he transferred his allegiance to the new regime and was re appointed to the post in The Hague This period was characterized by fierce trade rivalry which formed the background to the mid century Anglo Dutch wars His defence of English commercial interests against the Dutch was crucial to his development as one of England s leading mercantilists A fearful gentleman shows that both extremes of Downing s reputation stem from his experience and activities in the Republic the odium resulting from his rounding up and delivery to their deaths of the new King s former enemies and acknowledgement of Downing s role as administrator and reformer of English public finance based on his observation of the more sophisticated Dutch system
