Keping Wu, Robert P. Weller

Kewa S Owner S Manual:

Fraser's Magazine for Town and Country ,1879 **Fraser's Magazine** ,1879 **Annual Report of the Commissioner of Banking of State and Mutual Savings Banks of Wisconsin** Wisconsin. State Banking Department,1912 **The Ancient History of the Maori** John White,1887 *The Ancient History of the Maori, His Mythology and Traditions* John White,2011-11-03 Published 1887 90 this six volume compilation of Maori oral literature with English translations contains traditions about deities origins and warfare *The Ancient History of the Maori: Horo-uta or Taki tumu migration* John White,1887 An official collection of M ori historical traditions BIM Pacific Futures Will Rollason,2014-07-01 The Pacific region presents a huge diversity of cultural forms which have fuelled some of the most challenging ethnographic work undertaken in the discipline But this challenge has come at a cost Culture often reconfigured as custom has often served to trap the people of the Pacific in the past of cultural reproduction where everything is what it has always been or worse outdated outmoded and destined for modernization Pacific Futures asks how our understanding of social life in the Pacific would be different if we approached it from the perspective of the futures which Pacific people dream of predict or struggle to achieve not the reproduction of cultural tradition From Christianity to gambling marriage to cargo cult military coups to reflections on childhood fishing trips the contributors to this volume show how Pacific people are actively shaping their lives with the future in mind **It Happens Among People** Keping Wu,Robert P. Weller,2019-11-04 Written by eleven leading anthropologists from around the world this volume extends the insights of Fredrik Barth one of the most important anthropologists of the twentieth century to push even further at the frontiers of anthropology and honor his memory As a collection the chapters thus expand Barth s pioneering work on values further develop his insights on human agency and its potential creativity as well as continuing to develop the relevance for his work as a way of thinking about and beyond the state The work is grounded on his insistence that theory should grow only from observed life Dictionary of the Hausa Language Charles Henry Robinson,1907 **The Papuan Languages of New Guinea** William A. Foley,1986-11-20 This introduction to the descriptive and historical linguistics of the Papuan languages of New Guinea provide an accessible account of one of the richest and most diverse linguistic situations in the world The Papuan languages number over 700 or 20 per cent of the world s total in more than sixty language families Less than a quarter of the individual languages have yet been adequately documented and in this sense William Foley s book might be considered premature However in the search for language universals and generalisations in linguistic typology it would be foolhardy to neglect the information that is available In this respect alone the present volume systematically organised on mainly typology principles is particularly timely and useful In addition the processes of linguistic diffusion are present in New Guinea to an extent probably paralleled elsewhere on the globe The Papuan Languages of New Guinea will be of interest not only to general and comparative linguists and to typologists but also to sociolinguists and anthropologists for the information it provides on the social

dynamics of language content **The Origin of Pagan Idolatry** George Stanley Faber,1816 *The Origin of Pagan Idolatry Ascertained from Historical Testimony and Circumstantial Evidence* George Stanley Faber,1816 **Endangered Metaphors** Anna Idström,Elisabeth Piirainen,2012 Consists of fifteen articles about metaphors in endangered languages from Peru to Alaska from India to Ghana This title is suitable for researchers and students in linguistics especially in metaphor and figurative language theory and for scholars in large fields of cultural studies ranging from anthropology to folkloristics and philosophy **The Origin of Pagan Idolatry Ascertained from Historical Testimony and Circumstantial Evidence...three Volumes...** George Stanley Faber,1816 **Annual Report [etc.] on State Banks, Mutual Savings Banks and Trust Companies** Wisconsin. Banking Department,1912 **Cultural Dynamics of Religious Change in Oceania** T. Otto,A. Borsboom,2022-07-04 Developed from papers presented at the first European Colloquium on Pacific Studies this volume addresses the dynamics of contemporary Oceanic religions In particular the contributors investigate how indigenous populations have come to terms with the enormous impact of colonization and missionization while maintaining a distinct cultural and religious identity **The Languages and Linguistics of the New Guinea Area** Bill Palmer,2017-12-04 The Languages and Linguistics of the New Guinea Area A Comprehensive Guide is part of the multi volume reference work on the languages and linguistics of all major regions of the world The island of New Guinea and its offshore islands is arguably the most diverse and least documented linguistic hotspot in the world home to over 1300 languages almost one fifth of all living languages in more than 40 separate families along with numerous isolates Traditionally one of the least understood linguistic regions ongoing research allows for the first time a comprehensive guide Given the vastness of the region and limited previous overviews this volume focuses on an account of the families and major languages of each area within the region including brief grammatical descriptions of many of the languages The volume also includes a typological overview of Papuan languages and a chapter on Austronesian Papuan contact It will make accessible current knowledge on this complex region and will be the standard reference on the region It is aimed at typologists endangered language specialists graduate and advanced undergraduate students and all those interested in linguistic diversity and understanding this least known linguistic region **The Making of Global and Local Modernities in Melanesia** Holly Wardlow,2016-12-05 Authored by well established and respected scholars this work examines the kinds of efforts that have been made to adopt Western modernity in Melanesia and explores the reasons for their varied outcomes The contributors take the work of Professor Marshall Sahlins as a starting point assessing his theories of cultural change and of the relationship between cultural intensification and globalizing forces They acknowledge the importance of Sahlins ideas while refining extending modifying and critiquing them in light of their own first hand knowledge of Pacific island societies Also presenting one of Sahlins less widely available original essays for reference this book is an exciting contribution to serious anthropological engagement with Papua New Guinea **Pathways to Heaven** Holger Jebens,2006-09-01 How does

global Christianity relate to processes of globalisation and modernization and what form does it take in different local settings These questions have lately proved to be of increasing interest to many scholars in the social sciences and humanities This study examines the tensions antagonisms and outright confrontations that can occur within local Christian communities upon the arrival of global versions of fundamentalism and it does so through a rich and in depth ethnographic study of a single case that of Pairundu a small and remote Papua New Guinean village whose population accepted Catholicism after first being contacted in the late 1950s and subsequently participated in a charismatic movement before more and more members of the younger generation started to separate themselves from their respective catholic families and to convert to one of the most radical and fastest growing religious groups not only in contemporary Papua New Guinea but world wide the Seventh Day Adventist Church This case study of local Christianity as a lived religion contributes to an understanding of the social and cultural dynamics that increasingly incite and shape religious conflicts on a global scale

After Writing Culture Andrew Dawson, Jenny Hockey, Allison James, 2003-12-16 With fourteen articles written by well known anthropologists this book addresses the theme of representation in anthropology and explores the directions in which anthropology is moving following the debates of the 1980s
