Khajuraho Monumental Legacy:

Khajuraho Devangana Desai, 2000 This Book Is Primarily An Introduction To The Magnificent World Of The Khajuraho Temples Their History Patronage Court Culture Religion Iconography And The Distinctive Features Of Sculptures And Architecture World Heritage Monuments and Related Edifices in India 'Alī Jāvīd, Tabassum Javeed, 2008 The Forbidden Body Douglas E. Cowan, 2022-05-17 Throughout history the religious imagination has attempted to control nothing so much as our bodies what they are and what they mean what we do with them with whom and under what circumstances how they may be displayed or more commonly how they must be hidden Religious belief and mandate affect how our bodies are used in ritual practice as well as how we use them to identify and marginalize threatening religious Others This book examines how horror culture treats religious bodies that have stepped or been pushed out of their proper place Unlike most books on religion and horror This book explores the dark spaces where sex sexual representation and the sexual body come together with religious belief and scary stories Because these intersections of sex horror and the religious imagination force us to question the nature of consensus reality supernatural horror especially as it concerns the body often shows us the religious imagination at work in real time It is important to note that the discussion in this book is not limited either to horror cinema or to popular fiction but considers a wide range of material including literary horror weird fiction graphic storytelling visual arts participative culture and aspects of real world religious fear It is less concerned with horror as a genre which is mainly a function of marketing and more with the horror mode a way of storytelling that finds expression across a number of genres a variety of media and even blurs the boundary between fiction and non fiction This expanded focus not only deepens the pool of potential examples but invites a much broader readership in for a swim *Banaras Reconstructed* Madhuri Desai, 2017-06-27 Between the late sixteenth and early twentieth centuries Banaras the iconic Hindu center in northern India that is often described as the oldest living city in the world was reconstructed materially as well as imaginatively and embellished with temples monasteries mansions and ghats riverfront fortress palaces Banaras s refurbished sacred landscape became the subject of pilgrimage maps and its spectacular riverfront was depicted in panoramas and described in travelogues In *Banaras Reconstructed* Madhuri Desai examines the confluences as well as the tensions that have shaped this complex and remarkable city In so doing she raises issues central to historical as well as contemporary Indian identity and delves into larger questions about religious urban environments in South Asia Gordon Matta-Clark? Conical Intersect Peter Muir, 2017-07-05 In this in depth analysis Peter Muir argues that Gordon Matta Clark s *Conical Intersect* 1975 is emblematic of Henri Lefebvre s understanding of art s function in relation to urban space By engaging with Lefebvre s theory in conjunction with the perspectives of other writers such as Michel de Certeau Jacques Derrida and George Bataille the book elicits a story that presents the artwork s significance origins and legacies *Conical Intersect* is a multi media artwork which involves the intersections of architecture sculpture film and photography as well as being a three dimensional model that

reflects aspects of urban art and architectural theory along with a number of cultural and historiographic discourses which are still present and active This book navigates these many complex narratives by using the central hole of Conical Intersect as its focal point this apparently vacuous circle around which the events documents and other historical or theoretical references surrounding Matta Clark's project are perpetually in circulation Thus Conical Intersect is imagined as an insatiable absence around which discourses continually form dissipate and resolve Muir argues that Conical Intersect is much more than an artistic hole Due to its location at Plateau Beaubourg in Paris it is simultaneously an object of art and an instrument of social critique

Women Who Fly Serinity Young, 2018-01-02 From the beautiful apsaras of Hindu myth to the swan maidens of European fairy tales stories of flying women some carried by wings others by clouds rainbows floating scarves and flying horses reveal the perennial fascination with and ambivalence about female power and sexuality In *Women Who Fly* Serinity Young examines the motif of the flying woman as it appears in a wide variety of cultures and historical periods in legends myths rituals sacred narratives and artistic productions She considers supernatural women like the Valkyries of Norse legend who transport men to immortality winged deities like the Greek goddesses Iris and Nike figures of terror like the Furies witches and succubi airborne Christian mystics and wayward dangerous women like Lilith and Morgan le Fay Looking beyond the supernatural Young examines the modern mythology surrounding twentieth century female aviators like Amelia Earhart and Hanna Reitsch Throughout Young demonstrates that female power has always been inextricably linked with female sexuality and that the desire to control it is a pervasive theme in these stories This is vividly depicted for example in the twelfth century *Nibelungenlied* in which the proud warrior queen Brunnhilde loses her great physical strength when she is tricked into surrendering her virginity Even in the twentieth century the same idea is reflected in the exploits of the comic book and film character Wonder Woman who Young suggests retains her physical strength only because her love for fellow aviator Steve Trevor goes unrequited The first book to systematically chronicle the figure of the flying woman in myth literature art and pop culture *Women Who Fly* offers a fresh look at the ways in which women have both influenced and been understood by society and religious traditions throughout the ages and around the world

Marta Kudelska,Dorota Kamińska-Jones ,Agnieszka Staszczyk,Agata Świerżowska ,2019-11-30 This book presents an analysis
of the foundations organised by the Birla family in India Several generations were involved in the renovation and
establishment of sanctuaries temples and other sacral buildings As a result between 1933 and 1998 nineteen Birla Mandirs

were established mainly in northern and central India. All the temples have the capacity to surprise with their various decorative motifs not seen in other places which apart from their aesthetic function above all bear important symbolic content. Therefore is it possible to treat the Birla Mandirs as a specific medium the carrier of a particular message that is not only religious but with a significance that permeates other layers of social and political discourse. This message as the authors of the book claim have a bearing on the socio political thought of India supported by the creation and propagation of ideas related to identity and a national art. It also conveys the idea of hierarchical Hindu inclusivism which although considering all religions as equal treats Hinduism in a unique way seeing within it the most perfect form of religion giving man the opportunity to learn the highest truth. The book also examines whether the temples founded by the Birla family and the religious activities undertaken therein apply the concept of inventing tradition and whether traditions created or modernised in contemporary times are a way of enhancing the appeal of the message conveyed from temple to society. The Vastness of Culture is a series of publications presenting cultural studies and emphasizing the role of comparative research and analyses that reveal similarities differences and intercultural influences. In our publications cultures and civilizations are in a state of constant flux engaging in dialogue creating new understandings competing for meaning under the influence of global content without any clear boundaries but with a vastness that forces questions to be raised.

Gods Beyond

Temples Harsha V. Dehejia, 2006. The sacred in the Indian tradition is more an experience than a concept and goes much beyond the narrow confines of an organised temple or even a shrine. The gods of this tradition as well as those who hold them sacred are simple and unpretentious yet dignified and self assured. Whether it is a tree that is held sacred or a naturally occurring stone that is revered a river that is the embodiment of divinity itself an ancestor that is the embodiment of divinity itself an ancestor that is worshipped a fabric that is simply draped a road side shrine on a busy street or a votive terracotta horse that is lovingly made and offered a narrative scroll that holds its audience spell bound here is religion at work that is as spontaneous as it is intense charged with faith fervor and commitment now private and now shared that forms an integral part of the lived lives of these common people be they rural or urban tribal or traditional. The rituals and practices for these deities are neither scripted nor canonized but what they may lack in grandeur erudition and ceremony they more than make up in the faith and feeling that they generate. In a civilisation which has encountered majestic truths and erected grand temples these sacred manifestations and expressions of the ordinary people tend to be sidelined or dismissed by scholars as well as the world at large as minor or lesser gods worthy of curiosity but not of serious study but it is important to remember that they have a beauty and presence of their own in the pluralistic Indian tradition.

The book also containing brief notes of each plan will be useful for scholars and students of Buddhist, Hindu and Islamic architecture with particular reference to South Asian and South East Asian regions.

Khajuraho, with Latest Discoveries Phanikanta Mishra, 2001. Khajuraho, the name itself is synonymous with architectural excellence and breathtaking craftsmanship. The World Heritage Temples of Khajuraho can be regarded as one of the wonders of the East, a symbol in stone representing the cosmic system of Hindu temples with a dash of erotica along with other worldly and divine scenes. Scholars will welcome Dr Mishra's archaeological material on different aspects of the excavations conducted in Khajuraho since 1980 with details on the geography of the mounds, the remains uncovered and an analysis of the discoveries made. It is noteworthy that the excavation of the Shatdhara mound in the north east of Khajuraho takes the history of the place to pre Chandella times. Readers may find useful the chapter on conservation and preservation efforts at Khajuraho. The excavation of the Bijamandala mound in the Millennium Year by Dr Mishra is an important discovery.

Encyclopedia of India Stanley A. Wolpert, 2006. A four volume survey of the history, cultures, geography and religions of India from ancient times to the present day. Includes more than 600 entries arranged alphabetically for students and general readers.
