Khmer American Identity And Moral Education In A Diasporic Community:

Khmer American Nancy J. Smith-Hefner, 1999-01-25 In the early 1980s tens of thousands of Cambodian refugees fled their war torn country to take up residence in the United States where they quickly became one of the most troubled and least studied immigrant groups This book is the story of that passage and of the efforts of Khmer Americans to recreate the fabric of culture and identity in the aftermath of the Khmer holocaust Based on long term research among Cambodians residing in metropolitan Boston this rich ethnography provides a vivid portrait of the challenges facing Khmer American culture as seen from the perspective of elders attempting to preserve Khmer Buddhism in a deeply unfamiliar world The study highlights the tensions and ambivalences of Khmer socialization with particular emphasis on Khmer conceptions of personhood morality and sexuality Nancy J Smith Hefner considers how this cultural heritage influences the performance of Khmer children in American schools and ultimately determines Khmer engagement with American culture **Khmer**

Vichet Chhuon, 2025-06-27 This book examines how Cambodian American high school youth reconcile stereotypes identities and school opportunities and the ways these factors impact academic achievement and well being through ethnographic research The backdrop for Cambodian American life is intimately embedded within how Asians and Asian Americans are imagined within U S society This book argues that how Cambodian American students negotiate certain identities are in relation to perceived advantages associated with ethnic and panethnic labels across varying social contexts It highlights how

the embrace of the model minority stereotype can come at a psychological cost for Asian Americans including increased feelings of internalized racism The chapters draw on ethnographic research collected across two years in one Southern California community Through students own meaning making it shows readers how Cambodian American youth are simultaneously invisible and hyper visible in their school and community which shapes access to important identities and relationships This work invites interrogation of the Asian American category itself and seeks to move the fields of Asian American and educational studies forward by critically examining not only how the model minority stereotype is constructed and imposed but also how it can be adopted and affirmed by Asian American youth themselves Practitioners who work with marginalized and underrepresented students and students of courses such as Asian American studies anthropology cultural studies and education and psychology will find this to be a helpful and enlightening text The accessible and clear writing makes this book of interest to a general audience as well

Plight and Fate of Women During and Following Genocide Samuel Totten, 2017-07-05 The plight and fate of female victims during the course of genocide is radically and profoundly different from their male counterparts Like males female victims suffer demonization ostracism discrimination and deprivation of their basic human rights They are often rounded up deported and killed But unlike most men women are subjected to rape gang rape and mass rape Such assaults and degradation can and often do result in horrible injuries to their reproductive systems and unwanted pregnancies This volume takes one stride towards assessing these grievances and argues against policies calculated to continue such indifference to great human suffering The horror and pain suffered by females does not end with the act of rape There is always the fear and reality of being infected with HIV AIDS Concomitantly there is the possibility of becoming pregnant Then there is the birth of the babies For some the very sight of the babies and children reminds mothers of the horrific violations they suffered When mothers harbor deep seated hatred or disdain for such children it results in more misery The hatred may be so great that children born of rape leave home early in order to fend for themselves on the street This seventh volume in the Genocide series will provoke debate discussion reflection and ultimately action The issues presented include ongoing mass rape of girls and women during periods of war and genocide ostracism of female victims terrible psychological and physical wounds the plight of offspring resulting from rapes and the critical need for medical and psychological services
