Local Theology For The Global Church:

Local Theology for the Global Church Matthew Cook, Rob Haskell, Ruth Julian, 2010-06-01 As the church in the global south continues to grow at a rapid pace the question of how to develop local theologies becomes more and more urgent This book charts a path forward through exegetical theological and cultural analysis by scholars who are wrestling with the issues in their own situations around the globe The contents were developed under the auspices of the World Evangelical Alliance Theological Commission at the Oxford contextualization consultation This book was published in partnership with the World Evangelical Alliance **An Introduction to Theology in Global Perspective** Stephen B. Bevans, 2009 **New**

Catholicity Robert J. Schreiter, 2015-03-24 Encompassing recent developments in anthropology sociology philosophy and communication theory The New Catholicity explores the many aspects of globalization that challenge Christianity as it enters into its third millennium Hermeneutical Community C. S. Barefoot, 2024-12-23 Many Western initiatives exist for

theological development in the majority world but how often do practitioners from the West pause to examine the role they should play in that endeavor Missions history and church history have revealed inadequacies of imposing foreign theology on local churches yet the alternative of withdrawing from local theological development appears equally problematic If therefore the outsider's role is neither to impose theology nor withdraw from the task then what is his or her role Hermeneutical Community addresses this fundamental question and seeks to lay a sound missiological foundation for local theological development **Why Evangelical Theology Needs the Global Church** Stephen T. Pardue, 2023-08-22 Christianity Today 2024 Award of Merit Missions Global Church Christian theologians and students are aware that evangelicals in the Majority World now outnumber those in North America and Europe and many want to know more about emerging voices in the global church At the same time these voices are largely absent from Western evangelical theology Stephen Pardue seeks to bridge this divide by arguing biblically and theologically that it is imperative for Western evangelical theology to engage with the global church and he provides examples of how this can be done Case studies throughout the book illustrate opportunities for fruitful engagement with non Western theology in various areas of Christian doctrine Readers will be given an introduction to the riches available within the worldwide body of Christ and learn how to engage productively with the global church

Global Arts and Christian Witness (Mission in Global Community) Roberta R. King, 2019-07-16 Veteran missionary scholar Roberta King draws on a lifetime of study and firsthand mission experience to show how witness through contextualized global arts can dynamically reveal Christ to all peoples King offers the global church biblical foundations historical pathways theoretical frameworks and effective practices for communicating Christ through the arts in diverse contexts Supplemented with stories from the field illustrations and discussion questions this textbook offers innovative and dynamic approaches essential for doing mission in transformative ways through the arts It also features a full color insert of artwork discussed in the book *Global Dictionary of Theology* William A. Dyrness, Veli-Matti Kärkkäinen, 2009-10-25

Theological dictionaries are foundational to any theological library But until now there has been no Global Dictionary of Theology a theological dictionary that presumes the contribution of the Western tradition but moves beyond it to embrace and explore a full range of global expressions of theology The Global Dictionary of Theology is inspired by the shift of the center of Christianity from the West to the Global South But it also reflects the increase in two way traffic between these two sectors as well as the global awareness that has permeated popular culture to an unprecedented degree The editorial perspective of the Global Dictionary of Theology is an ecumenical evangelicalism that is receptive to discovering new facets of truth through listening and conversation on a global scale Thus a distinctive feature of the Global Dictionary of Theology is its conversational approach Contributors have been called on to write in the spirit of engaging in a larger theological conversation in which alternative views are expected and invited William A Dyrness Veli Matti K rkk inen Juan F Martinez and Simon Chan edit approximately 250 articles written by over 100 contributors representing the global spectrum of theological perspectives Pastors theological teachers theological students and lay Christian leaders will all find the Global Dictionary of Theology to be a resource that unfolds new dimensions and reveals new panoramas of theological perspective and inquiry Here is a new launching point for doing theology in today s global context Center Church Timothy Keller,2012-09-04 Practical and Gospel centered thoughts on how to have a fruitful ministry by one of America s leading and most beloved pastor Many church leaders are struggling to adapt to a culture that values individuality above loyalty to a group or institution There have been so many church growth and effective ministry books in the past few decades that it s hard to know where to start or which ones will provide useful and honest insight Based on over twenty years of ministry in New York City Timothy Keller takes a unique approach that measures a ministry s success neither by numbers nor purely by the faithfulness of its leaders but on the biblical grounds of fruitfulness Center Church outlines a balanced theological vision for ministry organized around three core commitments Gospel centered The gospel of grace in Jesus Christ changes everything from our hearts to our community to the world It completely reshapes the content tone and strategy of all that we do City centered With a positive approach toward our culture we learn to affirm that cities are wonderful strategic and underserved places for gospel ministry Movement centered Instead of building our own tribe we seek the prosperity and peace of our community as we are led by the Holy Spirit Between a pastor s doctrinal beliefs and ministry practices should be a well conceived vision for how to bring the gospel to bear on the particular cultural setting and historical moment This is something more practical than just doctrine but much more theological than how to steps for carrying out a ministry Once this vision is in place it leads church leaders to make good decisions on how to worship disciple evangelize serve and engage culture in their field of ministry whether in a city suburb or small town Tim Keller Core Church *Majority World Theologies* Allen Yeh,Tite Tienou,2018-10-01 Theology to the Ends of the Earth and Back Again As Christianity s center of gravity has shifted to the Majority World many younger churches in Africa Asia and Latin America are now coming of age

With this maturing comes the ability to theologize for themselves not simply to mimic what they have been taught from the West As theology is an attempt to articulate through human language culture and contexts the timeless truths of the eternal and transcendent God Majority World churches have much to offer the West and the world as they contribute to a greater understanding of God discipleship and mission Within this volume is an eclectic and fascinating sampling of theologizing from around the world diverse not just in context but in content dealing with everything from Christian education to engaging Buddhists with the gospel to engagement with Santería to contextualizing native dance As Christ's message has gone to the ends of the earth it has been received but also incorporated synthesized and rebirthed in new and exciting ways that will benefit us all wherever we live and serve *Contextualization of the Gospel* Andrew James Prince, 2017-06-07

There has been heightened interest and prolific publication by missiologists about contextualization since the term was first coined in 1972 There has been ongoing debate particularly amongst evangelicals themselves regarding which of these meanings methods and models of contextualization are acceptable to use Much of the debate has been carried out by academics and practitioners whose observations and conclusions have been largely shaped by the social sciences and practical theology In contrast the disciplines of biblical studies and Christian thought have not featured significantly in the debate The purpose of this research is to establish that biblical studies and Christian thought in general and Scripture and the church fathers in particular have an essential contribution to make in the contextualization debate and should form part of an evangelical approach to contextualization of the gospel alongside the social sciences and practical theology Following a review of the literature on contextualization over the past forty years the research examines the book of Acts as representative of Scripture and the work of John Chrysostom as a representative church father Contextual principles that are consistent with an evangelical approach to contextualization of the gospel are drawn from each work establishing the value of biblical studies and Christian thought in contextualization *The Oxford Handbook of Mission Studies* Kirsteen Kim, Knud Jørgensen, Alison Fitchett-Climenhaga, 2022-04-18

The Oxford Handbook of Mission Studies represents more than a century of scholarship related to the theology history and methodology of the propagation of Christian faith and the engagement of Christians with cultures religions and societies worldwide It contains more than 40 articles by experts from different disciplinary and ecclesial perspectives who are from all continents It not only offers a broad overview of key approaches and issues in mission studies but it also highlights current trends and suggests future developments The Handbook builds on renewed interest in mission studies this century generated by recent key statements on mission from ecumenical evangelical Catholic and Orthodox sources and by a spate of academic works on the topic Western church leaders now apply insights from foreign missions such as inculturation liberation interfaith work and power encounter to today's multicultural societies Meanwhile there are new initiatives in mission from the Majority World where most Christians live so that sending is not only from the west to the rest but from everywhere to everywhere Therefore this volume aims to reflect the voices of the receivers

of mission as well as its protagonists and to raise awareness of new movements In a time of growing recognition of religions more generally this work examines and theorizes the missional dimensions of the world's largest religion its agendas growth outreach role in public life effect on cultures relevance for development and its approaches to other communities

Saving God's Face Jackson Wu, 2013-04 Years ago the author had a startling realization Theologians and pastors have long taught on the glory of God and its central importance in the Bible However because he was living in East Asia it also dawned on the author that this sort of talk about God's glory praising Him and magnifying His name was simply another way of talking about honor and shame When the author looked at most theology and ministry related books he found that honor and shame seemed to be treated differently Anthropologists talked about honor shame but theologians largely focused more on legal metaphors The author could see both themes in Scripture but couldn't find help as to how to bring them together This study was developed in order to address this gap and bring those themes together Sign up for the WCIU Press newsletter to be notified about new books from this author and more <http://eepurl.com/rB15L>

One Gospel for All Nations Brad Vaughn, 2015-12-14 The Bible tells us what to believe the gospel Did you know it also shows how to contextualize the gospel In *One Gospel for All Nations* Jackson Wu does more than talk about principles He gets practical When the biblical writers explain the gospel they consistently use a pattern that is both firm and flexible Wu builds on this insight to demonstrate a model of contextualization that starts with interpretation and can be applied in any culture In the process he explains practically why we must not choose between the Bible and culture Wu highlights various implications for both missionaries and theologians Contextualization should be practical not pragmatic theological not theoretical

The Trinity among the Nations Gene L. Green, Stephen T. Pardue, K. K. Yeo, 2015-11-14 The second volume of an exciting new series exploring global theology Though the global center of Christianity has been shifting south and east over the past few decades very few theological resources have dealt with the seismic changes afoot The Majority World Theology series seeks to remedy that lack by gathering well regarded Christian thinkers from around the world to discuss the significance of Christian teaching in their respective contexts The Trinity among the Nations focuses on Christian understandings of the character and work of God in various contexts The contributors highlight global trends in trinitarian theology in relation to historic Christian confessions especially the Nicene Creed and draw out the rich implications of the doctrine of God for the church and Christian living today

Locating US Theological Education In a Global Context Hendrik R. Pieterse, 2019-06-21 CONTRIBUTORS E Byron Anderson K K Yeo Margaret Eletta Guider OSF Lester Edwin J Ruiz Brent Waters Namsoon Kang Luis R Rivera and David Esterline Theological education in the United States finds itself in untested circumstances today Rapid social change is creating an increasing multicultural multiracial and multireligious context for leadership formation At the same time international enrollment cross border educational initiatives student and faculty exchanges and more are connecting US theological schools with a global community of Christian teaching and learning How do US theological institutions locate themselves within this global ecology of theological formation so as to be both responsible participants and creative shapers within it That is how do they discern their proper place and role It is questions like these that the contributors to this volume explore Building on the decades long discussion about the globalization of US theological education this book argues that in engaging such questions US theological institutions have much to gain from a sustained conversation with the burgeoning literature on the internationalization of American higher education This research offers theological institutions a trove of insights and cautionary tales as they seek to discern their rightful place and role in educating leaders in and for a global Christian church CONTRIBUTORS E Byron Anderson K K Yeo Margaret Eletta Guider OSF Lester Edwin J Ruiz Brent Waters Namsoon Kang Luis R Rivera and David Esterline The Reconciliation of Humanity in Christ Peter Y. Hong, 2024-12-10 The Reconciliation of Humanity in Christ is essential reading for Christians who wish to lead and serve the globalized world This book is about theological engagement with globalization Although people are now living in a world in which a universal and inclusive society has emerged the church has remained powerless in uniting peoples nations and civilizations as one in Christ In order for the church to regain its credibility and confidence it must address three theological issues social justice religious pluralism and ethics and the missional method The rationale for this book is that the power of true religion becomes evident in the world when all Christians are engaging with globalization to reconcile humanity with God and with each other in preparation for the consummation of God s kingdom In response to the problems of globalization Christians can become

agents of renewal for globalization by administering God's grace and peace for humanity. This book will educate and equip the readers to engage with the issues of globalization in the public arena. Readers will gain a biblical understanding of the church's role in fulfilling God's plan and purpose for humanity through globalization. Sydney's One Special Evangelist Baden P. Stace, 2022-08-04. This landmark work is the first academic study of a figure who played a defining role in the Australian evangelical movement of the late twentieth century: the inimitable preacher, evangelist, and churchman John C. Chapman. The study situates Chapman's career within the secularizing Western cultures of the post-1960s, a period bringing momentous changes to the social and religious fabric of Western society. At the same time, global Evangelicalism was reviving, bringing vitality to large swathes in the Global South and a re-balancing in Western societies as conservative religious movements experienced growth and even renewal amidst wider secularizing trends. Against this backdrop, the study explores the way in which, across a wide array of domestic and international fora, Chapman contended for the soteriological priority of the gospel in Christian life, mission, and thought. Accomplished via an absorbing blend of personal wit, impassioned oratory, innovative missiological strategy, and striking theological perception, the result was a stimulating history of public advocacy that sought a revival of confidence in Evangelicalism's message and a constantly reforming vision of Evangelicalism's method. Such a legacy marks Chapman as a central figure within the generation of postwar leaders whose work has given Australian Evangelicalism its contemporary shape and dynamism.

Historical Dictionary of the Reformed Churches Robert Benedetto, Donald K. McKim, 2023-10-15. As its name implies, the Reformed tradition grew out of the 16th-century Protestant Reformation. The Reformed churches consider themselves to be the Catholic Church reformed. The movement originated in the reform efforts of Huldrych Zwingli (1484-1531) of Zurich and John Calvin (1509-1564) of Geneva. Although the Reformed movement was dependent upon many Protestant leaders, it was Calvin's tireless work as a writer, preacher, teacher, and social and ecclesiastical reformer that provided a substantial body of literature and an ethos from which the Reformed tradition grew. Today, the Reformed churches are a multicultural, multiethnic, and multinational phenomenon. *Historical Dictionary of the Reformed Churches*, Third Edition, contains a chronology, an introduction, and an extensive bibliography. The dictionary section has more than 1,000 cross-referenced entries on leaders, personalities, events, facts, movements, and beliefs of the Reformed churches. This book is an excellent resource for students, researchers, and anyone wanting to know more about reformed churches.
