The David Suzuki Reader David Suzuki, 2014-08-23 In this revised and expanded edition of his collected writings David Suzuki continues to explore the themes that have informed his work for more than four decades the interconnectedness of all things our misguided elevation of economics above all else the urgent need to deal with climate change but with an increased emphasis on solutions to the myriad problems we face his inspiring vision for the future and the legacy he hopes to leave behind There is also more emphasis on the personal as he recounts episodes from his childhood and early adulthood and speaks eloquently about old age death and the abiding role of nature and family in his life Written with clarity passion and wisdom this book is essential for anyone who is an admirer of David Suzuki who wants to understand what science can and can't do or who wants to make a difference Published in Partnership with the David Suzuki Institute

A Community Manifesto Chris Wright, 2020-09-10 Civilizations fail when they become trapped in a way of looking at the world that no longer works For many globalization is pushing us to the edge of disaster an onward march of blinkered vision encouraging passivity moral blindness and a culture of dependency *A Community Manifesto* is an elegantly written

polemic offering a new way of looking at our social cultural and economic realities Tackling the crucial dimensions of personal responsibility consensus and community it shows how we can find a new language through which we can reinvigorate our individual and social lives developing the resourcefulness we need but which proves so difficult to cultivate The vision it presents is persuasive and very timely only by building community can human society evolve and progress

Seascapes of a Soul: Wholeness and the Sense of Self Venetia Somerset, 2023-06-23 The search for self knowledge and identity is a common theme in autobiographies these days So also is the search for a spirituality other than that of the conventional religions Both are found in *Seascapes of a Soul Wholeness and the Sense of Self* This book is an account of a unique spirit on an often solitary journey With clear argumentation and transparent honesty this author presents a story that reaches towards individuation gained partly through discovering C G Jung s ideas about the psyche Several themes recur the onset of old age Jungian individuation solitude and aloneness mood swings a rejection of orthodox religion a love for the natural world an interest in gnosticism the inner sense of the Divine Her relationship with her twin sister is also prominent There is light and dark here the ups and downs of living with a twin In rejecting the Christianity she grew up with she followed an innate urge to a spirituality that ultimately arose from the strong sense of self she had had from an early age If this has a name it would be gnostic because it is a perception of inner divinity the God within This is a woman s story with a difference Although unlike so many she did not have to struggle through a life of disadvantage and deprivation she did have to wrestle with a powerful self that sometimes wandered up blind alleys into ego But she learned to accept mistakes and incorporate them into what Einstein called a calm and modest life Images of the sea symbols of the unconscious run through the book The seascapes at the head of each chapter function in the story as a leitmotif for the modes and moods of the spirit

A Sense of Wonder Towards Nature Haydn Washington, 2018-08-06 Environmental scientist and writer Haydn Washington argues that we will not solve the environmental crisis unless we change our worldview and ethics and to do so we must rejuvenate our sense of wonder at nature This book focuses on humanity s relation with nature and the sense of wonder and belonging common to indigenous cultures and children everywhere Drawing on events in the author s own four decades working to protect wild places and the current literature on wonder it examines what a sense of wonder is what it has been called in different cultures and our high points of wonder at nature It also looks at the Great Divide in worldview between anthropocentrism and ecocentrism and considers the problem of anthropocentric theory in academia arguing that the focus should instead be on harmony with nature The book concludes with an examination of why wonder has become buried in Western society and considers ways in which it can be revived including rituals and education It also considers how wonder helps humanity to become whole The final chapter presents the road back to wonder and how wonder towards nature can be restored in Western society This book will be of great interest to environmental scientists conservation biologists environmental philosophers and ecological ethicists as well as environmentalists educators eco psychologists and students
