en paz La base de todo est en el valor que se le da a la vida La vida de las personas est por encima de todos los valores morales y pol ticos No hay nada que pueda justificar la p rdida de una vida Todo gira en torno a la seguridad de las personas A veces puede parecer rid cula la materializaci n de sus ideas pero siempre ir n encaminadas a proteger la vida **Life of a Rancher** Jose del Carmen Lugo,1877 Recuerdos Mariano Guadalupe Vallejo,2023-03-02 A generation after the U S conquest of California Mariano Guadalupe Vallejo set out to write the story of the land he knew so well a history to dispel the romantic vision quickly overtaking the state s recent past The five volume history he produced published here for the first time in English translation is the most complete account of California before the gold rush by someone who resided in California at the time Mariano Guadalupe Vallejo 1807-90 grew up in Spanish California became a leading military and political figure in Mexican California and participated in some of the founding events of U S California such as the Monterey Constitutional Convention and the first legislature With his project undertaken for historian and publisher Hubert Howe Bancroft Vallejo sought to correct misrepresentations of California s past which dismissed as insignificant the pre gold rush Spanish and Mexican periods conflated into one Mission era Instead Vallejo s history emphasized the role of the military in the Spanish colonization of California and argued that the missionaries after Jun pero Serra with their medieval ideas had actually retarded the development of California until secularization in the early 1830s Culture he contended was of intense interest to the Californio people as was the education of children His accounts of Indigenous peoples while often sympathetic were also characteristic of his time he and other California military leaders Vallejo maintained had successfully subdued hostile Indians and established mutually beneficial relationships with others Out of keeping with Bancroft s American triumphalism Vallejo s monumental project was consigned to the archives With their deft translation and commentary Rose Marie Beebe and Robert M Senkewicz authors of a companion volume on Vallejo s work have brought to light a remarkable perspective often firsthand on important events in early California history Their efforts restore a critical chapter to the story of California and the American West Archaeology and Tourism Dallen J. Timothy,Lina G. Tahan,2020-06-10 This book provides a global and thematic examination of the relationships between archaeology and tourism and a critical analysis of thinking in the area of archaeology based tourism It focuses on the differences and similarities between archaeology based tourism and heritage tourism and highlights the interdependence and dissonance between tourism and archaeology and archaeological traditions The volume offers a systematic investigation of current issues and implications in the relationship between tourism and archaeology from both tourism and archaeological perspectives It is a key academic resource for students researchers and practitioners in tourism archaeology cultural heritage management and anthropology The Past in the Present Ioannis Poullos,2014-08-07 The Past in the Present deals with the complexities in the operation and management of living heritage sites It presents a new interpretation of such sites based on the concept of continuity and its evolution to the present It is demonstrated that the current theoretical framework and practice of conservation as best

epitomised in a values based approach and the World Heritage concept is based on discontinuity created between the monuments considered to belong to the past and the people of the present thus seemingly unable to embrace living heritage sites From this position the study suggests an innovative approach that views communities and sites as an inseparable entity a Living Heritage Approach This approach brings a new insight into key concepts such as authenticity and sustainable development Through the use of the monastic site of Meteora Greece as a case study the discussion generated aims to shift the focus of conservation from preservation towards a continual process of creation in an ongoing present attempting to change the way heritage is perceived protected and more importantly further created The Past in the Present is an important and much needed contribution to the debate about living heritage and it is particularly significant in the context of the heritage of the past in the modern world Anyone concerned with how the past is or should be integrated within modern lives and identities will need to read this book Leslie Brubaker Director Centre for Byzantine Ottoman and Modern Greek Studies University of Birmingham UK This interesting and thoroughly researched book by Ioannis Poullos is a useful tool in promoting the Living Heritage Approach and provides a sound theoretical basis for future work Living Heritage Approach is a paradigm shift that suggests a new way of addressing conservation for our heritage ICCROM is proud to have introduced this approach also with the contribution of Ioannis Gamini Wijesuriya Project Manager ICCROM
