Gies, 2004 Publisher Description **Canines in Cervantes and Velázquez** John Beusterien, 2016-04-08 The study of the creation of canine breeds in early modern Europe especially Spain illustrates the different constructs against which notions of human identity were forged This book is the first comprehensive history of early modern Spanish dogs and it evaluates how two of Spain s most celebrated and canonical cultural figures of this period the artist Diego Velázquez and the author Miguel de Cervantes radically question humankind s sixteenth century anthropocentric self fashioning In general this study illuminates how Animal Studies can offer new perspectives to understanding Hispanism giving readers a fresh approach to the historical literary and artistic complexity of early modern Spain **Los Angeles Magazine**, 2004-07 Los Angeles magazine is a regional magazine of national stature Our combination of award winning feature writing investigative reporting service journalism and design covers the people lifestyle culture entertainment fashion art and architecture and news that define Southern California Started in the spring of 1961 Los Angeles magazine has been addressing the needs and interests of our region for 48 years The magazine continues to be the definitive resource for an affluent population that is intensely interested in a lifestyle that is uniquely Southern Californian **A Companion to Don Quixote** Anthony J. Close, 2008 The purpose of this book is to help the English speaking reader with an interest in Spanish literature but without specialised knowledge of Cervantes to understand his long and complex masterpiece its major themes its structure and the inter connections between its component parts Beginning from a review of Don Quixote s relation to Cervantes s life literary career and its social and cultural context Anthony Close goes on to examine the structure and distinctive nature of Part I 1605 and Part II 1615 the conception of the characters of Don Quixote and Sancho Cervantes s word play and narrative manner and the historical evolution of posterity s interpretation of the novel with particular attention to its influence on the theory of the genre One of the principal questions tackled is the paradoxical incongruity between Cervantes s conception of his novel as a light work of entertainment without any explicitly acknowledged profundity and posterity s view of it as a universally symbolic masterpiece revolutionary in the context of its own time and capable of meaning something new and

different to each succeeding age ANTHONY CLOSE now retired was Reader in Spanish at the University of Cambridge

Tierney,2018-01-23 In the late 1990s and early 2000s Latin American films like Amores perros Y tu mamá también and Cidade de Deus enjoyed an unprecedented level of critical and commercial success in the world market Benefitting from external financial and/or creative input these films were considered examples of transnational cinema Through a textual analysis of six filmmakers Alejandro González Iñárritu Alfonso Cuarón Guillermo del Toro Fernando Meirelles Walter Salles and Juan José Campanella this book examines these transnational films and the subsequent wave of commercially successful deterritorialised films by the same directors It argues that although films produced within the structures of the United States film industry may have been commercially successful they are not necessarily apolitical or totally divorced from key notions of national or continental identity Bringing a new perspective to the films of Latin America's transnational auteurs this is a major contribution towards understanding how different genres function across different cultures **Bowker's Complete**
