**Silent Sorrows: Let's Talk About Abortion, Reproductive Technologies, and Adoption**

Katherine Breckenridge,2024-05-15 Today's self indulgent society is one in which satisfying one's desires at the expense of others prevails This mindset is particularly common in areas of procreation such as abortion and various assisted reproductive technologies Through a lens that combines Christianity natural law and scientific reason this book discusses how the breakdown of man woman marriage biological connection the destruction and disregard for human life and the objectification and commodification of women and children manufactures trauma in not only adults but in children This trauma is evidenced by the stories of adult children who are victims of society's current cultural trends as well as evidenced by the research of various psychologists sociologists and other professionals For too long adults have been asking children to conform to their ways of living assuming children will just get over it and children are now starting to speak out about the harms of their upbringings It's essential to illuminate their voices as these familial breakdowns have become so normal that we currently can't talk about any of their negative aspects with any degree of common sense      *Adoptions Today* Ann E.

Weiss,2001-01-01 Offers young adults an in depth look at the history of adoption while examining the changing policies that have been implemented over time complete with a look at international interracial and interfaith adoptions      **Adopted Women and Biological Fathers** Elizabeth Hughes,2017-03-01 *Adopted Women and Biological Fathers* offers a critical and deconstructive challenge to the dominant notions of adoptive identity The author explores adoptive women's experiences of meeting their biological fathers and reflects on personal narratives to give an authoritative overview of both the field of adoption and the specific history of adoption reunion This book takes as its focus the narratives of 14 adopted women as well as the partly fictionalised story of the author and examines their experiences of birth father reunion in an attempt to dissect the ways in which we understand adoptive female subjectivity through a psychosocial lens Opening a space for thinking about the role of the discursively neglected biological father this book exposes the enigmatic dimensions of this figure and how telling the relational story of reconciliation might be used to complicate wider categories of subjective completeness belonging and truth This book attempts to subvert the culturally normative unifying system of the mother child bond and prompts the reader to think about what the biological father might represent and how his role in relation to adoptive female subjects may be understood This book will be essential reading for those in critical psychology gender studies narrative work sociology and psychosocial studies as well as appealing to anyone interested in adoption issues and female subjectivity
