Fathers, Come Forth! Victor Hudson, **The Self on the Shelf** Gary Greenberg,1994-08-04 **The Self on the Shelf** examines the cultural and philosophical determinants of popular recovery books Greenberg argues that this literature can be read as documents of the prevailing understanding of the self in American society The construction of the self promoted by recovery literature is seen as a nihilistic one insofar as it denies the significance of what continental philosophy calls the Other In this sense the self help books are correct in their assertion that we have lost sight of how to love but their proposed solution shows up as a recapitulation and strengthening of the conditions that gave rise to this situation in the first place Greenberg s critique provides a commentary on the difficulties that face our

culture in achieving any sense of meaningful community and on the way that this problem surfaces in a highly popular discourse **Prevention Pipeline** ,1987 An alcohol and drug awareness service *Heroine Abuse* Thomas Gaiton Marullo,2015-10-15 Fyodor Dostoevsky s first novel *Netochka Nezvanova* written in 1849 remains the least studied and understood of the writer s long fiction but it was a seedbed for many topics and themes that became hallmarks of his major works Specifically *Netochka Nezvanova* was the first in Dostoevsky s corpus to focus on the psychology of children and the first to feature a woman in a leading and narrative role It was also the first work in Russian literature to deal with problems of the family In *Heroine Abuse* Thomas Marullo contends that *Netochka Nezvanova* also provides a striking example of what psychologists today call codependency the ways often deviant and destructive in which individuals bond with people places and things as well as with images and ideas to cope with the vicissitudes of life Marullo shows how at age twenty eight Dostoevsky intuited and illustrated the workings of relationship addiction almost a century and a half before it became the scholarly focus of practitioners of mental health The moral monsters infernal women children adults and adult children who populate *Netochka Nezvanova* seek codependence in people places and things and in images ideas and ideals to satiate cravings for love dominance and control as well as to indulge in narcissism sexual perversion and other aberrant or alternative behaviors Indeed in no other work would Dostoevsky examine such phenomena as pedophilia and lesbianism with such abandon Racing from tie to tie bond to bond and caught in a debilitating loop that they claim to detest but sadomasochistically enjoy the characters in *Netochka Nezvanova* wreak havoc on themselves and the world They do so moreover with impunity their addictions moving them from momentary exultation as self styled extraordinary men and women through prolonged darkness and despair and once again to old and new addictions for physical and emotional release Readers of *Heroine Abuse* will see *Netochka Nezvanova* as a timeless model in depicting codependency in the world of the twenty first century as it did in St Petersburg in 1849 Marullo s original work will appeal to scholars and students of Russian and comparative fiction to doctors psychologists and therapists to laymen and women interested in relationship addiction and finally to codependents and relationship addicts of all types **Co-Dependency** Bruce Carruth,Warner Mendenhall,2014-06-03 Co dependency has finally become recognized in the late 1980s as a legitimate and a key issue in the chemical dependency field Most of the literature available on the topic is addressed to the consumer the co dependent individual In Co dependency leading therapists share some remarkable insights into the characteristics of the alcoholic home co dependents patterns of responding to the alcoholic and the particular problems that family members experience as a result of the environment including fear shame and guilt anger denial and confusion Clinical case material is used to illustrate the value of helping co dependents through education peer support outpatient treatment and psychotherapy Creative solutions for working with lesbian and gay men and children of alcoholics are also featured **Co-Dependence Healing the Human Condition** Charles Whitfield,2010-01-01 Of all the books on the often misunderstood concept of co

dependence this is probably the clearest most complete and informative Charles Whitfield is a frontline clinician who has been assisting co dependents in their healing for over twenty years He has researched the literature on co dependence which he summarizes in this widely read book He sees co dependence as a way to more accurately describe the painful and confusing part of the human condition In careful detail he describes just what co dependence is and what it is not how it comes about and how to heal its painful aftereffects The Complete Handbook for College Women Carol Weinberg,1994-07 Designed to give women a head start as they enter college and to be a resource guide throughout the college years *Adult Children Secrets of Dysfunctional Families* John Friel,Linda D. Friel,2010-01-01 It is estimated that as many as 34 million people grew up in alcoholic homes But what about the rest of us What about families that had no alcoholism but did have perfectionism workaholism compulsive overeating intimacy problems depression problems in expressing feelings plus all the other personality traits that can produce a family system much like an alcoholic one Countless millions of us struggle with these kinds of dysfunctions every day and until very recently we struggled alone Pulling together both theory and clinical practice John and Linda Friel provide a readable explanation of what happened to us and how we can rectify it **A Disease of One's Own** John Steadman Rice,2017-11-30 In the present decade co dependency has sprung up on the landscape of American popular culture Portrayed as an addiction like disease responsible for a wide range of personal and social problems co dependency spawned a veritable social movement nationwide A Disease of One's Own examines the phenomenon of co dependency from a sociological perspective viewing it not as something a person has but as something a person believes not as a psychological disease but as a belief system that offers its adherents a particular way of talking about the self and social relationships The central question addressed by the book is Why did co dependency one among a plethora of already existing discourses on self help meet with such widespread public appeal Grounded in theories of cultural and social change John Steadman Rice argues that this question can only be adequately addressed by examining the social cultural and historical context in which co dependency was created and found a receptive public the content of the ideas it espoused and the practical uses to which co dependency's adherents could apply those ideas in their everyday lives In terms of the larger American context his analysis links the emergence of co dependency with the permeation of psychological concepts and explanations throughout Western culture over the past thirty years focusing particularly on the cultural and social impact of the popular acceptance of what the author calls liberation psychotherapy Liberation psychotherapy portrays the relationship between self and society as one of intrinsic antagonism and argues that psychological health is inversely related to the self's accommodation to social expectations Rice argues that a principal source of co dependency's appeal is that it affirms core premises of liberation psychotherapy thereby espousing an increasingly conventional and familiar wisdom It simultaneously fuses those premises with addiction related discourse providing people with a means of making sense of the problems of relationship and identity that have accompanied what Rice terms the psychologization of American life This brilliant analysis

of the phenomenon of co dependency will be of interest to psychologists sociologists psychotherapists and those interested in American popular culture
