Lost Intimacies Rethinking Homosexuality Under National Socialism Gender Sexuality And Culture:

Lost Intimacies William J. Spurlin, 2009 *Lost Intimacies Rethinking Homosexuality under National Socialism* uses queer theory as a hermeneutic tool with which to read against the grain of heterotextual narratives of the Holocaust and as a way of locating alternative pathways of meaning in dominant Holocaust research Specifically addressing the racialization of sexuality the book asks how the politics of sexuality can be more explicitly and systematically theorized along with state sanctioned homophobia under Nazism with a clear recognition that homophobia seldom operated alone but worked in conjunction with other axes of power including race gender eugenics and population politics In theorizing gender and sexuality as entangled axes of analysis the book allows the specificity of lesbian difference to emerge and challenges the received wisdom that lesbians were not as systematically persecuted under National Socialism William J Spurlin questions the wisdom of received scholarship that reduces Nazi fascism to latent homosexuality and examines the possible implications of Nazi homophobia and its imbrication with other deployments of power for the study of contemporary culture where the homophobic impulse continues to reverberate thereby challenging understandings of history steeped in notions of progressive modernity

Queer Budapest, 1873-1961 Anita Kurimay, 2020-10-10 By the dawn of the twentieth century Budapest was a burgeoning cosmopolitan metropolis Known at the time as the Pearl of the Danube it boasted some of Europe's most innovative architectural and cultural achievements and its growing middle class was committed to advancing the city's liberal politics and making it an intellectual and commercial crossroads between East and West In addition as historian Anita Kurimay reveals fin de siècle Budapest was also famous for its boisterous public sexual culture including a robust gay subculture Queer Budapest is the riveting story of nonnormative sexualities in Hungary as they were understood experienced and policed between the birth of the capital as a unified metropolis in 1873 and the decriminalization of male homosexual acts in 1961 Kurimay explores how and why a series of illiberal Hungarian regimes came to regulate but also tolerate and protect queer life She also explains how the precarious coexistence between the illiberal state and queer community ended abruptly at the close of World War II A stunning reappraisal of sexuality's political implications Queer Budapest recuperates queer communities as an integral part of Hungary's and Europe's modern incarnation

Contested Borders William J. Spurlin, 2022-06-06 Contested Borders broadens understandings of dissident sexualities in Africa through examining new

representations of same sex desire emerging in recent francophone autofictional writing from the Maghreb where long established traditions pertaining to gender and sexuality are brought into contact with new forms of gender and sexual dissidence resulting from the inflection of globally circulating discourses and embodiments of queerness in North Africa and from the experience of emigration and settlement by the writers concerned in France The book analyses specifically how Franco Maghrebi writers Rachid O Abdellah Ta a Eyet Ch kib Djaziri and Nina Bouraoui foreground translation and narrative reflexivity around incommensurable spaces of queerness in order to index their crossings and negotiations of multiple languages histories and cultures By writing in French Spurlin demonstrates that the writers are not merely mimicking the language of their former coloniser but inflecting a European language with discursive turns of phrase indigenous to North Africa thus creating new possibilities of meaning and expression to name their lived experiences of gender and sexual alterity a form of queer translational praxis that destabilises received gender sexual categories both within the Maghreb and in Europe

Sexuality in Premodern Europe Franz X. Eder, 2023-10-19 How did sexual relationships work before in and outside of marriage in the pre modern era What problems did contraception and sexually transmitted diseases pose How did people deal with prostitution and pornography back then What were the possibilities for same sex and queer desire and practice Using numerous examples and sources from across the continent Sexuality in Premodern Europe shows that even in earlier centuries sexual life had an elementary significance for the coexistence of couples and communities It was just as decisive for how individuals saw themselves and others as it was for maintaining the social economic and political order Franz X Eder interestingly emphasises the socio historical view of sexuality offering an apt foil for the cultural perspective which is so prevalent in the field In this book sexual behaviour is understood and thought about as social practice From this vantage point Eder deals with the function of the sexual in upbringing and socialization its significance for the image of men and women its role in marriage initiation and the importance of sexual life for marital relationships and concubinage Deviant and discriminated sexual forms such as prostitution pornography and same sex acts are also addressed throughout The book explores the ways in which many people gained sexual experiences before besides or beyond marriage even if these experiences were forbidden in former societies While research into the history of sexuality has so far dealt with such forms of the sexual primarily from the point of view of regulation and sanctioning here they are understood as positive practices that allowed people to understand and take ownership of their sexual desire

The Fury Archives Juno Jill Richards, 2020-08-11 In the late nineteenth and early twentieth centuries radical women s movements and the avant gardes were often in contact with one another brought together through the socialist internationals Juno Jill Richards argues that these movements were not just socially linked but also deeply interconnected Each offered the other an experimental language that could move beyond the nation state s rights of man and citizen suggesting an alternative conceptual vocabulary for women s rights Rather than focus on the demand for the vote The Fury Archives turns to the daily practices and social worlds of feminist

action It offers an alternative history of women's rights practiced by female arsonists suffragette rioters industrial saboteurs self-named terrorists lesbian criminals and queer resistance cells Richards also examines the criminal proceedings that emerged in the wake of women's actions tracing the way that citizen and human emerged as linked categories for women on the fringes of an international campaign for suffrage Recovering a transatlantic print archive Richards brings together a wide range of activists and artists including Lumina Sophie Ina C saire Rosa Luxemburg Rebecca West Angelina Weld Grimk Elizabeth Gurley Flynn Hannah Hoch Claude Cahun Paulette Nardal and Leonora Carrington An expansive and methodologically innovative book The Fury Archives argues that the relationship of women's rights movements and the avant-gardes offers a radical alternative to liberal discourses of human rights in formation at the same historical moment **The**

British National Bibliography Arthur James Wells, 2009 Forget Burial Marty Fink, 2020-11-13 Queers and trans people in the 1980s and early 90s were dying of AIDS and the government failed to care Lovers strangers artists and community activists came together take care of each other in the face of state violence These early HIV care giving narratives continue to shape how we understand our genders and our disabilities forming ongoing chosen families for body self-determination

The Queer Art of History Jennifer V. Evans, 2023-03-17 In *The Queer Art of History* Jennifer V. Evans examines postwar and contemporary German history to broadly argue for a practice of queer history that moves beyond bounded concepts and narratives of identity Drawing on Black feminism queer of color critique and trans studies Evans points out that although many rights for LGBTQI people have been gained in Germany those rights have not been enjoyed equally There remain fundamental struggles around whose bodies behaviors and communities belong Evans uses kinship as an analytic category to identify the fraught and productive ways that Germans have confronted race gender nonconformity and sexuality in social movements art and everyday life Evans shows how kinship illuminates the work of solidarity and intersectional organizing across difference and offers an openness to forms of contemporary and historical queerness that may escape the archive's confines Through forms of kinship queer and trans people test out new possibilities for citizenship love and public and family life in postwar Germany in ways that question claims about liberal democracy the social contract and the place of identity in rights-based discourses
