Lost Moon Jim Lovell,Jeffrey Kluger,1994 The untold story of the American moon shot that almost ended in a fatal catastrophe told by the flight s commander offers a chronicle of courage heroism and adventure **Lost Moon** Jim Lovell,Jeffrey Kluger,1997 **Apollo 13** Jim Lovell,Jeffrey Kluger,2000 The story of the American moon shot that almost ended in a fatal catastrophe told by the flight s commander offers a chronicle of courage heroism and adventure **Apollo 13** James Lovell,Jeffrey Kluger,2019-02-12 NATIONAL BESTSELLER Astronaut Jim Lovell and coauthor Jeffrey Kluger s harrowing account of the Apollo 13 disaster Serving as the basis for Ron Howard s blockbuster Apollo 13 the book reveals true details not shown in the movie Thrilling and evocative you feel as though you re alongside Lovell in the lunar module Written with all the color and drama of the best fiction Apollo 13 tells the full story of the moon shot that almost ended in catastrophe Minutes after a mid flight explosion the three astronauts are forced to abandon the main ship for the lunar module a tiny craft designed to keep two men alive for just two days As the hours tick away the narrative shifts from the crippled spacecraft to Mission Control from engineers searching desperately for a way to fix the ship to Lovell s wife and children praying for his safe return The entire nation watches as one crisis after another is met and overcome By the time the ship splashes down in the Pacific we understand why the heroic effort to rescue Lovell and his crew is considered by many to be NASA s finest hour Inspiring and astonishing the story of Apollo 13 is a timeless tribute to the enduring American spirit and sparkling individual heroism *The Apollo 13 Mission* Donald B. Lemke,2006 In graphic novel format tells the dramatic story of the rescue of the Apollo 13 astronauts **The Apollo 13 Mission** Judy L. Hasday,2001 A biography of the young star of the movie E T who survived her troubled early years and has gone on to become a successful actress and movie producer **Danger in Space** Henry M. Holden,2012-07-01 Soaring through space at 25 000 per hour Apollo 13 was on course for the Moon Suddenly the three astronauts aboard the spacecraft heard a loud bang A strong vibration rumbled through the crew cabin There had been an explosion in the oxygen tank More than 200 000 miles from Earth Apollo 13 was in grave danger The astronauts had planned to land on the Moon but now they had a new mission survival Author Henry M Holden delivers the gripping details of how three astronauts with the help of NASA scientists on Earth turned a story of disaster into one of triumph **Past Imperfect** Mark C. Carnes,1996-11-15 Essays that consider how classic movies have reflected history include the writings of such noted historians as Paul Fussell Antonia Fraser and Gore Vidal **Front Burner** Kirk Lippold,2012-04-10 On October 12 2000 eleven months before the 9 11 attacks the USS Cole docked in the port of Aden in Yemen for a routine fueling stop At 1118 on a hot sunny morning the 8 400 ton destroyer was rocked by an enormous explosion The ship s commander Kirk Lippold felt the ship violently thrust up and to the right as everything not bolted down seemed to float in midair Tiles tumbled from the ceiling and the ship was plunged into darkness beginning to sink In a matter of moments Lippold knew that the Cole had been attacked What he didn t know was how much the world

was changing around him The bombing of the Cole was al Qaeda s first direct assault against the United States and expanded their brazen and deadly string of terrorist attacks throughout the Middle East In this gripping first person narrative Lippold reveals the details of this harrowing experience leading his crew of valiant sailors through the attack and its aftermath Seventeen sailors died in the explosion and thirty seven were wounded but thanks to the valor of the crew in the perilous days that followed the ship was saved Yet even with al Qaeda s intentions made clear in an unmistakable act of war the United States government delayed retaliating Bureaucrats and politicians sought to shift and pin blame as they ignored the danger signaled by the attack shirking responsibility until the event was ultimately overshadowed by 9 11 Front Burner captures a critical moment in America s battle against al Qaeda telling a vital story that has until now been lost in the fog of the war on terror *Astronauts* Giles Sparrow,2006 Discusses the race for space and the astronauts who were involved

The Emergence and Scope of the Voice of Government Mordecai Lee,2023-03-21 Nowadays we all tend to be annoyed by bureaucracy and by propaganda if only because both touch our daily lives This book examines the intersection of those two subjects external communications emanating from government agencies When bureaucracies communicate with us directly or via the news media are we being bombarded with self serving propaganda or with helpful information to improve our lives Perhaps it is a mash up of both purposes This book examines the scope uses and history of government communications Topics of discussion include digital government disaster communication relations between the media and government agency spokespersons democratic reporting to the citizenry wartime public relations PR and how US presidents and the US Congress treated bureaucratic PR Several chapters are historical case studies such as about an astronaut who became US Assistant Secretary of State for Public Affairs In addition two chapters examine President Nixon s record while in a more light hearted vein another presents the pop culture image of government spokespersons in movies The book concludes with the origins of the academic study of external communications in public administration **The Screenwriters Taxonomy** Eric R. Williams,2017-09-05 In *The Screenwriters Taxonomy* award winning screenwriter and educator Eric R Williams offers a new collaborative approach for creative storytellers to recognize discuss and reinvent storytelling paradigms Williams presents seven different aspects of storytelling that can be applied to any fictional narrative film from super genre macrogenre and microgenre to voice and point of view allowing writers to analyze existing films and innovate on these structures in their own stories Moving beyond film theory Williams describes how this roadmap for creative decision making can relate to classics like *Sunset Boulevard* *The Wizard of Oz* and *Butch Cassidy and the Sundance Kid* as well as such diverse modern favorites like *12 Years a Slave* *Anomalisa* and *Shrek* **Calculated Risk** George Leopold,2016-06-15 Unlike other American astronauts Virgil I Gus Grissom never had the chance to publish his memoirs Killed along with his crew in a launch pad fire on January 27 1967 Grissom also lost his chance to walk on the moon and return to describe his journey Others went in his place The stories of the moon walkers are familiar Less appreciated are Grissom s contributions The

international prestige of winning the Moon Race cannot be understated and Grissom played a pivotal and enduring role in securing that legacy for the United States Indeed Grissom was first and foremost a Cold Warrior a member of the first group of Mercury astronauts whose goal it was to beat the Soviet Union into space and eventually to the moon Drawing on extensive interviews with fellow astronauts NASA engineers family members and friends of Gus Grissom George Leopold delivers a comprehensive and corrective account of Grissom s life that places his career in the context of the Cold War and the history of human spaceflight Calculated Risk The Supersonic Life and Times of Gus Grissom adds significantly to our understanding of that tumultuous and ultimately triumphant period in American history **Selecting the Mercury Seven**

What the Small Gray Visitor Said Stephanie C. Fox, 2020-08-26 It isn't often that a visitor from outer space gets stranded on Earth but it happens every so often When it does it's an accident No one intends to get stranded anywhere after all This visitor is female a botanist and a telepath The alien carries a Small Gray environmental suit with her She is looking for plants that can be grown on her own

planet's severely depleted ecosystem. The alien has just uprooted one when she finds herself stuck on Earth during a planet-wide pandemic. It is a spring day when Arielle, an author and editor for hire, spends her morning as she usually does: writing, editing, blogging, drinking coffee, and sitting with her cat while looking out the back windows into her yard. She gets up to stretch and takes a walk around her beautiful garden to enjoy some sunshine, smell a few iris blossoms, and survey her berries and herbs. Suddenly, she sees something under her honeysuckle bush. At first, she thinks it is discarded plastic litter that has blown around the area, and she picks it up in disgust only to see that it is gray as light as a feather and definitely not plastic. It has a face or rather a face covering. Arielle glances up to find herself face to face with a stranded visitor, the owner of the suit she is holding. She takes her in after her husband, a scientist, tests them both for the virus. The tests come back negative, of course. The aliens, anticipating microbes that are not endemic to their own world, have immunized themselves against Earth's pathogens before venturing out of their ship. Find out what happens next and what the Small Gray Visitor said while she was here.
