Forgiveness and Power in the Age of Atrocity Shann Ray Ferch,2012 In a fresh rendering of the role of leaders as healers Forgiveness and Power in the Age of Atrocity considers love and power in the midst of personal political and social upheaval Unexpected atrocity coexists alongside the quiet subtleties of mercy and people and nations currently encounter a world in which not even the certainties of existence remain even as grace can sometimes arise under the most difficult circumstances Ultimately Forgiveness and Power in the Age of Atrocity is a book about the alienation and intimacy at war within us all Ferch speaks to categorical human transgressions in the hope that readers will be compelled to examine their own prejudices and engage the moral responsibility to evoke in their own personal life work life and larger national communities a more humane and life giving coexistence In addition to a primary focus on servant leadership the book addresses three interwoven aspects of social responsibility 1 the nature of personal responsibility 2 the nature of privilege and the conscious and unconscious violence against humanity often harbored in a blindly privileged stance and 3 the encounter with forgiveness and forgiveness asking grounded in a personal and collective obligation to the well being of humanity Modernist and postmodernist notions of the will to meaning are considered against the philosophical notion of the will to power The book examines the everyday existence of human values in a time when we inhabit a world filled as much with unwarranted cruelty as with the disarming nature of authentic and life affirming love The book asks the question Can ultimate forgiveness change the heart of violence In Forgiveness and Power people are challenged not only by the work of profound thought leaders such as Mandela Tutu but also Simone Weil Vaclav Havel Emerson Mary Oliver Martin Luther King Paulo Freire bell hooks and Robert Greenleaf The hope of the book is that people of all ages and creeds come to a deeper understanding and of personal and collective responsibility for leadership that helps heal the heart of the world

The Leadership Imperative Scott D. Liebhauser,2018-01-22 The topic of leadership is ubiquitous in today s era of experts scholars and gurus With a host of voices promoting a myriad of views on this topic it is hard for one to determine who or what is correct This book gets to the heart of the issue by providing an unashamed and historic basis for leading others using biblical truth as the standard The postmodern epoch is fraught with confusion relativity and chaos as basic terms are redefined historic truths are maligned

and cultural mores are upended Consequently leaders in this time are often just as confused as their followers who are leaving a trail of destruction in their wake Fortunately there are answers for those seeking to lead with confidence based on something much grander than personal opinion or subjective reasoning In this work Dr Liebhauser explains the pitfalls leaders face in these fluid times of resistance to anything authoritative while providing sound principles by which to effectively lead The reader will appreciate learning about the historical dynamic which fueled postmodern thinking and find hope in the time tested remedies this book provides The Fire of God's Love Bob Sorge,1996-11 This book explores how God is igniting His Bride in this hour with His firey love awakening us to blazing passion for our Beloved Lord Jesus Emerging from the crucible of the firey dealings of God is a Bride who has been purified of all other affections but one her desire for her Beloved the Lord Jesus Look into this furnace of God s love at your own risk It is a fire that consumes all but love Take the time to come to the passion that blazes on the cross let that love purge you of every defiling desire He intends to capture and possess every part of your being by revealing to you the fire of His love Holistic Health Healing and Astrosciences B. of the good life as human perfection and instead reconceive of the good as one's self realization through the interdependent mutual recognition and co belonging with others *New Technologies and Human Rights* Norberto Nuno Gomes de Andrade, Lúcio Tomé Féteira, 2016-05-13 Whilst advances in biotechnology and information technology have undoubtedly resulted in better quality of life for mankind they can also bring about global problems The legal response to the challenges caused by the rapid progress of technological change has been slow and the question of how international human rights should be protected and promoted with respect to science and technology remains unexplored The contributors to this book explore the political discourse and power relations of technological growth and human rights issues between the Global South and the Global North and uncover the different perspectives of both regions They investigate the conflict between technology and human rights and the perpetuation of inequality and subjection of the South to the North With emerging economies such as Brazil playing a major role in trade investment and financial law the book examines how human rights are affected in Southern countries and identifies significant challenges to reform in the areas of international law and policy
