For the purpose of this study, the following question was asked: how many children in the sample showed a trend in performance in mathematics that could be interpreted as a change in performance? A trend was defined as the first performance point being at least two standard deviations below the median, the second point being at least one standard deviation above the median, and the third point being at least one standard deviation below the median.

Abstract

There is no separate figure for the group of countries in central Europe. In fact, the Central European countries are included in groups in subsequent countries in each of the two regions.
