Magnus Merriman Canongate Classic:

Magnus Merriman Eric Linklater, 2009-05-01 This hilarious novel charts the rise and fall and perhaps the rise again of Magnus Merriman would be lover writer politician idealist and crofter moved by dreams of greatness and a talent for farcical defeat Convinced that small nations are safer to live in than big ones Magnus becomes a Nationalist candidate for the parliamentary seat of Kinlue With details based on Linklater's own experiences in an East Fife by election in 1933 the way is set for a satirical and irreverent portrait of Scottish life literature and politics in the 1930s Nothing is sacred and no one is spared *Beyond Scotland*, 2021-09-20 Scottish creative writing in the twentieth century was notable for its willingness to

explore and absorb the literatures of other times and other nations From the engagement with Russian literature of Hugh MacDiarmid and Edwin Morgan through to the interplay with continental literary theory Scottish writers have proved active participants in a diverse international literary practice Scottish criticism has arguably often been slow in appreciating the full extent of this exchange Preoccupied with marking out its territory with identifying an independent and distinctive tradition Scottish criticism has occasionally blinded itself to the diversity and range of its writers In stressing the importance of cultural independence it has tended to overlook the many virtues of interdependence The essays in this book aim to offer a corrective view They celebrate the achievement of Scottish writing in the twentieth century by offering a wider basis for appreciation than a narrow idea of Scottishness Each essay explores an aspect of Scottish writing in an individual foreign perspective together they provide an enriching account of a national literary practice that has deep and often surprisingly complex roots in international culture [Alienation and Resistance](#) Laura Findlay, Gordon Spark, 2020-05-22 This collection draws together recent work by new and emerging scholars which examines the representation of alienation and resistance in texts and images both modern and traditional The essays collected here incorporate both high and low culture covering a wide range of disciplines from traditional literary sources to the more modern mediums of film and comic Informing each of the contributions is one overriding question what are the roles forms and conditions of alienation and resistance in our culture and its diverse media The contributors to this collection find examples of both alienation and resistance everywhere from sixteenth century drama to contemporary fiction from American comics to Eastern European cinema from representations of the body to the site of the body itself In seeking out these representations of alienation and resistance the essays begin also to probe the limits and limitations of such terms As such the collection as a whole offers both a broad overview of the field of play as it stands today and makes tentative suggestions as to potential paths of future inquiry
