Cash plus programmes have a strong body of evidence supporting their impact on income. They provide regular cash transfers in combination with economic programmes to boost growth and production, particularly to increase the productivity and build infrastructure. The Productive Safety Net Programme (PSNP) of the Ethiopian Government is one of the most successful interventions to date. Finally, trade and competition policy, together with stronger regional integration, are essential to ensure that the benefits of growth are equitably distributed to those who need it most.
