Plog,2013-03-09 The future is exciting frightening and demanding As social and economic change accelerates at an ever increasing rate we look with awe and wonder at the way in which unanticipated events impact on our lives and change the way we live We are also frightened about how well we will adapt to the demands of a world that may be structured quite differently from the familiar environment of today If we are to handle our own futures with some degree of skill and adaptiveness we need to begin planning today for the dawn of the next century Otherwise we may find that events have overrun our capacity to cope Those of us in the social and helping sectors of the economy have a responsibility for the future welfare of persons who are less able to look out for their own needs or to protect themselves from the vagaries of economic fluctuations or major dislocations in the social fabric of the land The President's Committee on Mental Retardation is proud of its decision to look at the year 2000 and its impact on the mentally retarded Our goals were straightforward to understand how unfolding events can affect the lives of the mentally retarded for good or ill a generation from now

Labour in the Suburbs Michael Tichelar, 2023-05-04 This book is the first comprehensive economic social and political study of the London suburb of Croydon from 1900 up to the present day One of the largest London boroughs Croydon has always been a mixed residential suburb mainly private but with some municipal housing which has strongly influenced the nature of its political representation It was never just an affluent middle class suburb or bourgeoisie utopia as suggested by traditional definitions of suburbia and in popular imagination In economic terms it was also an industrial suburb after 1918 It was then transformed into a vibrant post industrial service economy following rapid deindustrialisation and remarkable commercial and office redevelopment after 1960 In this respect Croydon is also an ex industrial suburb similar to many other outer London areas and other peripheral metropolitan areas Croydon's civic identity as a previously independent town on the outskirts of London remains unresolved to this day even as its political representatives seek to redefine the borough as a more independent Edge City Author Michael Tichelar examines this suburb by looking at the suburban development of London the changing politics of Croydon and policy issues during the twentieth century Labour in the Suburbs will be of interest to the general reader as well as students of modern British history with special interests in electoral sociology political representation and suburbanisation It provides a template against which to measure the process of suburbanisation in the UK and internationally
