Gunsteren, 2013-05-29 The quality your customers really need inevitably differs from the quality as prescribed in specifications rules and regulations The author's message is in short to be aware of this fact in all quality related issues Quality as required by fitness for purpose can be in conflict with quality according to prevailing specifications rules and regulations It is then in the interest of the buyer to agree with the supplier on desirable exemptions But often we can see that the supplier chooses the easy way out of just complying with the contract specifications without caring too much about the particular interests of the customer In the Damen Shipyards Group we try to induce a corporate culture of always paying attention to the interests of our customers and making serious efforts to serve those interests also when there is no contractual obligation to do so This book constitutes a welcome means to spread this word throughout the entire organisation I wholeheartedly recommend it to whoever wishes to be a genuine quality supplier From publisher's provided

Hasluck,1887 *Telling About Society* Howard S. Becker,2007-08-05 I Remember one of French writer Georges Perec s most famous pieces consists of 480 numbered paragraphs each just a few short lines recalling a memory from his childhood The work has neither a beginning nor an end Nor does it contain any analysis But it nonetheless reveals profound truths about French society during the 1940s and 50s Taking Perec s book as its cue *Telling About Society* explores the unconventional ways we communicate what we know about society to others The third in distinguished teacher Howard Becker s best selling series of writing guides for social scientists the book explores the many ways knowledge about society can be shared and interpreted through different forms of telling fiction films photographs maps even mathematical models many of which remain outside the boundaries of conventional social science Eight case studies including the photographs of Walker Evans the plays of George Bernard Shaw the novels of Jane Austen and Italo Calvino and the sociology of Erving Goffman provide convincing support for Becker s argument that every way of telling about society is perfect for some purpose The trick is as Becker notes to discover what purpose is served by doing it this way rather than that With Becker s

trademark humor and eminently practical advice *Telling About Society* is an ideal guide for social scientists in all fields for artists interested in saying something about society and for anyone interested in communicating knowledge in unconventional ways *Iron Age and Hardware, Iron and Industrial Reporter* ,1920 **Engineering News-record** ,1922
