Makers of History Series: Alexander the Great Jacob Abbott,2015-11-30 Jacob Abbott was a well known 19th century historian who wrote biographies on various ancient leaders including this one about Alexander the Great Over the last 2 000 years ambitious men have dreamed of forging vast empires and attaining eternal glory in battle but of all the conquerors who

took steps toward such dreams none were ever as successful as antiquity's first great conqueror. Leaders of the 20th century hoped to rival Napoleon's accomplishments. Napoleon aimed to emulate the accomplishments of Julius Caesar, but Caesar found inspiration in Alexander the Great. 356-323 B.C. the Macedonian King who managed to stretch an empire from Greece to the Himalayas in Asia at just 30 years old. It took less than 15 years for Alexander to conquer much of the known world. As fate would have it, Alexander died of still unknown causes at the height of his conquests when he was still in his early 30s. Although his empire was quickly divided, his legacy only grew, and Alexander became the stuff of legends even in his own time. Alexander was responsible for establishing 20 cities in his name across the world, most notably Alexandria in Egypt, and he was directly responsible for spreading Ancient Greek culture as far east as modern-day India and other parts of Asia. For the ancient world, Alexander became the emblem of military greatness and accomplishment; it was reported that many of Rome's greatest leaders, including Pompey the Great, Augustus, and Caesar himself, all visited Alexander's tomb in Alexandria, a mecca of sorts for antiquity's other leaders.

The Macedonian Empire lasted only 36 years, beginning with Philip II's assumption of the throne in 359 B.C. and ending with the death of his son, Alexander the Great, in 323 B.C. In that span, the two leaders changed the map in the known world. Philip established new tactics that forever ended the highly stylized mode that had characterized Classic Greek warfare, and Alexander's superb leadership made the army an unstoppable force. This work first examines the 11 great armies and three great navies of the era along with their operations and logistics. The primary focus is then on each campaign and significant battle fought by Philip or Alexander, detailing how the battles were fought, the tactics of the opposing armies, and how the Macedonians were able to triumph.
