18th-Century Bieber Family of Craftsmen & Other Folk Artists Richard L. T. Orth,2019-10-14 Here and abroad no other Pennsylvania Dutch motifs have come to be prized more than those created by John Bieber 1763 1825 of Oley Township Berks County Without a doubt the hallmark of a Bieber dower chest hope chest is its huge bulbous flat hearts diligently laid out with compass The heart motif was the most reoccurring symbol among 18th century immigrant artisans This book celebrates the craftsmanship and history of these Americana pieces of furniture Color pictures capture the beauty of these various works of art and are a step to cataloging them before they are lost to time 164pp color illus Masthof Press 2019

Making Early American and Country Furniture Franklin H. Gottshall,1995 Step by step instructions easy to read construction drawings for reproducing 29 authentic provincial furniture designs including high back settle table cherry dry sink slant top curly maple desk Queen Anne hunt table upholstered Chippendale chair plus cupboards cabinets sideboard more Moderate skill level 280 black and white illustrations Furniture Making Ira Samuel Griffith,2016-10-13 Excerpt from Furniture Making Advanced Projects in Woodwork Advanced projects IN woodwork is a collection of projects designed to meet the needs of classes in high school woodworking These projects presuppose familiarity with woodworking processes tools and the two simple joints required in the making of projects contained in the author s Pro facts in Beginning Woodwork and Mechanical Drawing The drawings are complete only as to their general dimensions The working out of details such as the sizes of mortises and tenons and their locations is left for the pupil in his work in drawing and design It is expected that the projects will afford suitable basic material for classes in woodworking design It remains for the instructor to point out the manner in which this material may be used For illustration many beginning students are slow in appreciation of possible modifications in structure or decoration Circular tops may be used instead of square or octagonal and vice versa Modification of the manner of filling side spaces with slats offers variety in initiative Vertical posts may be made tapering and vice versa

Rails and stretchers may be variously employed There is almost always a choice in the matter of joints keyed or thru or blind tenon Fig I is suggestive as to possible modifications of a type In addition to the possible structural modifications the plates suggest variation in the matter of decorative ornament such as pierced and carved forms and simple inlay Such ornament will of course be kept subordinate to the structural design The upholstering of stool tops and seats for chairs provides another problem in variation Little if any use is made of dowels as substitutes for the mortise and tenon While it is true that modern commercial practice makes much use of dowels in this way the author feels that such practice is too often contrary to the principles of good construction Its genesis lies in economy of material rather than in any superiority as a fastening device About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **With All the Precision Possible** Roubo (M., André Jacob),2017 **HOME FURNITURE MAKING** G.
