Making Disciples A Handbook Of Christian Moral Formation:

Making Disciples Timothy E. O'Connell, 1998 This book looks to theology psychology and sociology to answer the question how do people actually come to embody Christian values and what do these learnings mean for church and ministry **The Moral Disciple** Kent A. Van Til, 2012-08-13 The ability to judge good from bad right from wrong is a uniquely human characteristic However given the complexity of life it is often difficult to discern which choice to make where our responsibilities lie or what the consequences of an action or of a nonaction will be In *The Moral Disciple* Kent Van Til surveys the skills and dispositions that we need to address moral issues responsibly This basic introduction to Christian ethics the systematic evaluation of morality highlights the centrality of Christ and the Christian faith in moral formation and it offers an ethical framework to guide Christians as they engage a host of moral dilemmas including those surrounding wealth sexuality and the end of life Using easy to read prose and defining terms carefully Van Til provides an accessible introduction to this crucial and practical subject **The Oxford Handbook of Theological Ethics** Gilbert Meilaender, William Werpehowski, 2007-08-09 Annotation What are the practical and theoretical issues that concern and shape theological ethics This handbook offers a guide to the discipline Written by an international group of 30 scholars the book is aimed at all students and academics who want to explore more fully essential topics in Christian ethics Character and Virtue in Theological Education Marvin Oxenham, 2019-07-31 Dr Marvin Oxenham expertly uses the genre of the epistolary novel to help the reader understand the nature of character and virtue education and their relationship to theological education This book will help educators respond to the increasing demands for formational and transformational education and enact concrete virtue related practices Dr Oxenham draws on a vast array of disciplines from educational philosophy and political science to theology and andragogy in this winsome story that explores how global theological education can better contribute to the formation of virtuous students Written from the perspective of a seasoned educator from the Minority World who engages with correspondence from his friend and peer in the Majority World this is the honest story of two friends who struggle with their challenges and dreams Academics will find this book compelling reading that like good works of fiction they won't put down and like good reference works they will return to again and again This book offers a chance to rediscover an ancient tradition and explore a new frontier in theological education **Catholic Moral Theology in the United States** Charles E. Curran, 2008-04-11 In this magisterial volume Charles E Curran surveys the historical development of Catholic moral theology in the United States from its 19th century roots to the present day He begins by tracing the development of pre Vatican II moral theology that with the exception of social ethics had the limited purpose of training future confessors to know what actions are sinful and the degree of sinfulness Curran then explores and illuminates the post Vatican II era with chapters on the effect of the Council on the scope and substance of moral theology the impact of *Humanae vitae* Pope Paul VI's encyclical condemning artificial contraception fundamental moral theology sexuality and

marriage bioethics and social ethics Curran's perspective is unique For nearly 50 years he has been a major influence on the development of the field and has witnessed first hand the dramatic increase in the number and diversity of moral theologians in the academy and the Church No one is more qualified to write this first and only comprehensive history of Catholic moral theology in the United States *Special Pastoral Formation for Youths in Africa in the 21st Century* JoeBarth Abba,2009 Originally presented as the author's thesis doctoral Universiteat Meunchen 2005 International Handbook of the Religious, Moral and Spiritual Dimensions in Education Marian de Souza,Gloria Durka,Kathleen Engebretson,Robert Jackson,Andrew McGrady,2007-06-04 Traditionally spirituality has resided and been contained within religious frameworks but while the links between the two areas are still acknowledged by many in the contemporary world spirituality is perceived by some as an aspect of human life that is distinct from religion Consequently many are searching for meaning within and without religious traditions today and seeking answers to ethical and moral questions that have been generated by the knowledge and technological explosion One outcome is the renewed interest in the religious spiritual and moral dimensions of education throughout the life cycle This International Handbook presents the research and professional practice of scholars who are daily engaged in the consideration of these dimensions in education The result is a collection of essays which reflects the discipline in all of its internationality as it as today Embedded within the chapters is also an agenda for the future where the religious moral and spiritual dimensions in education are proposed as an exciting and challenging way forward for educators at all levels in society As well it offers a vision for the emergence of a peaceful and just world

Living Spiritual Praxis Eric J. Kyle,2013-10-24 Christian ministers working in congregations and with nonprofits seek to discern what it is that God has been doing and where it is that the Spirit might be leading them In *Living Spiritual Praxis* Eric Kyle looks to address the lack of resources on the work and dynamics of Christian spiritual formation that actually develop a specific process for spiritual formation programs Kyle strives to provide a guide for spiritual formation by using the praxis oriented fields of action research and practical theology He explores a process for understanding the nature and dynamics of a situation discerning specific formative interventions assessing various approaches and continually assessing and modifying these understandings and approaches *Living Spiritual Praxis* will be an invaluable resource for all Christians leaders and laity alike who are challenged by the spiritual formation of church members communities groups and individuals

Prisms of Faith Robert E. Alvis,Ryan LaMothe,2015-12-17 In *Prisms of Faith* a diverse and distinguished group of scholars approach the theme of religious education and Catholic identity from their respective disciplinary perspectives offering compelling insights of interest to scholars catechists and the general reader alike The first three chapters are more historical in nature offering targeted studies that focus on the Apostolic Fathers as a resource in the formation of faithful Catholics the preaching of St Augustine and religious education in modern Poland The last four chapters have a more contemporary focus approaching current initiatives and challenges in the formation of faithful Catholics Issues under

consideration include the rights and obligations enshrined in the 1983 Code of Canon Law the catechetical dimension of liturgy current obstacles and opportunities in the moral formation of Catholics and a comparative analysis of three dominant approaches to Catholic religious education Taken together these seven chapters form a coherent whole illustrating well the perennial importance of Catholic religious education the various resources and methods employed in this work and the stubborn challenges that effective formation entails

Formation for Life Glen Stassen, Rodney L. Petersen, Timothy A. Norton, 2013-08-16 From all corners of the world both inside cities and in the remote countryside the cry for just peace rings out loud and strong But as many will note in this book the cry for just peace isn't enough for just peace requires active faith working hands and willing hearts Gathered in this volume are essays written from a wide variety of perspectives religious traditions nationalities and ages from a sixteen year old high school student to an eighty four year old senior professor that seek to offer insight toward answering one question How are just peacemaking faith formation and discipleship connected within a twenty first century context

Being Human David G. Kirchhoffer, Robyn Horner, Patrick McArdle, 2013-08-09 What does it mean to be human The traditional answers from the past remain only theoretical possibilities unless they come to mean something to today's generation Moreover in light of new knowledge and circumstances a new generation may call these old answers into question and seek to reinterpret or indeed provide alternatives to them In the 1960s the Catholic Church's Second Vatican Council attempted such a reinterpretation an *aggiornamento* for the post war generation of the mid twentieth century by proposing in *Gaudium et Spes* a theological anthropology founded upon the ideas of human dignity and the common good Fifty years later is an appropriate time to revisit those answers and

The Church and Secularity Robert Gascoigne, 2009-09-09 Western liberal societies are characterized by two stories a positive story of freedom of conscience and the recognition of community and human rights and a negative story of unrestrained freedom that leads to self centeredness vacuity and the destructive compromise of human values Can the Catholic Church play a more meaningful role in assisting liberal societies in telling their better story Australian ethicist Robert Gascoigne thinks it can In *The Church and Secularity* he considers the meaning of secularity as a shared space for all citizens and asks how the Church can contribute to a sensitivity to and respect for human dignity and human rights Drawing on Augustine's *City of God* and Vatican II's *Gaudium et spes* Gascoigne interprets the meaning of freedom in liberal societies through the lens of Augustine's two loves the love of God and neighbor and the love of self and reveals how the two are connected to our contemporary experience *The Church and Secularity* argues that the Church can serve liberal societies in a positive way and that its own social identity rooted in Eucharistic communities must be bound up with the struggle for human rights and resistance to the commodification of the human in all its forms

Facing Ethical Issues Patrick T. McCormick, Russell B. Connors, 2002 Pat McCormick and Russ Connors build on the insights of fundamental Christian ethics and apply them in making concrete judgments about a number of very specific contemporary moral problems relating to the economy war and violence medicine

sexuality and the environment Facing Ethical Issues is must reading for anyone wishing to make sense of our increasingly complex world BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

The Myth of the Moral Brain Harris Wiseman, 2016-02-19 An argument that moral functioning is immeasurably complex mediated by biology but not determined by it Throughout history humanity has been seen as being in need of improvement most pressing in need of moral improvement Today in what has been called the beginnings of the golden age of neuroscience laboratory findings claim to offer insights into how the brain does morality even suggesting that it is possible to make people more moral by manipulating their biology Can moral bioenhancement using technological or pharmaceutical means to boost the morally desirable and remove the morally problematic bring about a morally improved humanity In *The Myth of the Moral Brain* Harris Wiseman argues that moral functioning is immeasurably complex mediated by biology but not determined by it Morality cannot be engineered there is no such thing as a moral brain Wiseman takes a distinctively interdisciplinary approach drawing on insights from philosophy biology theology and clinical psychology He considers philosophical rationales for moral enhancement and the practical realities they come up against recent empirical work including studies of the cognitive and behavioral effects of oxytocin serotonin and dopamine and traditional moral education in particular the influence of religious thought belief and practice Arguing that morality involves many interacting elements Wiseman proposes an integrated bio psycho social approach to the consideration of moral enhancement Such an approach would show that by virtue of their sheer numbers social and environmental factors are more important in shaping moral functioning than the neurobiological factors with which they are interwoven

New Wine, New Wineskins William C. Mattison III, 2005-06-03 *New Wine New Wineskins* A Next Generation Reflects on Key Issues in Catholic Moral Theology offers a snapshot of how the new generation of Catholic moral theologians understands not only topics in the field but the effects of their own identity and formation on their treatme

Mutual Enrichment between Psychology and Theology Russell Re Manning, 2020-11-29 The relationship between psychology and Christian theology has been one of the most important topics in the science and religion fields Discussions however are too frequently one sided This book takes an alternative approach following the lead of Fraser Watts the contributions develop various aspects of the mutual enrichment of each discipline by the other Moving beyond outdated models of conflict and independence this book highlights areas of fruitful enhancement at the interface of Christian belief and practice with psychology Set out in four sections the book's chapters first engage methodological and substantive issues in the interdisciplinarity raised by the dialogue between psychology and theology Second chapters explore a variety of areas in which psychology enriches theology looking at both historical and contemporary themes such as psychoanalysis embodiment and mindfulness Chapters in the third section explore some of the theological enrichments of psychology with topics including character strengths wisdom and forgiveness The final section engages aspects of mutual enrichment in religious life and pastoral care with an applied focus on mental health meditation prayer spiritual direction and spirituality A refreshing alternative study of the mutual enrichment of psychology and theology with theoretical and practical applications this book reinforces the need for both disciplines to pursue creative and constructive engagement with each other Of interest to scholars in psychology theology and religious studies this book will also be of interest more widely as a case study of successful interdisciplinary work

Attentiveness to Vulnerability Daniel J. Fleming, 2019-04-24 This book is an attempt to develop a dialogue between the philosophy of Emmanuel Levinas Jean Porter's Thomistic theory of the natural law and the virtue of solidarity as expressed in Catholic Social Teaching It seeks to explore the implications that such a dialogue would have for our understanding of moral reasoning Attentiveness to Vulnerability rests on the hypothesis that it is possible to

develop a set of robust links between these thinkers and bodies of thought markedly different as they are in terms of philosophical disposition and framework Such links specify the ethical implications of Levinas thought and develop Porter's theory in an original way This work requires further specification through a developed anthropology which allows for expansion within the tradition of Catholic theological ethics The inclusion of Levinas and a focus on the virtue of solidarity allows for an advancement of virtue theory and theological ethics to the extent that the virtue of solidarity becomes a key aspect of any ethical reasoning

Conscience Charles E. Curran, 2004 A collection of published articles from progressive to conservative on conscience edited by one of the foremost scholars in the field

Go and Do Likewise William Spohn, 2000-09-01 What does Jesus have to do with ethics There are two brief answers given by believers everything and not much While evangelical or fundamentalist Christians would find authoritative guidance in the words and commands of Jesus as recorded in the New Testament many mainstream Christian ethicists would say that Jesus is too concrete or narrowly particular to have any direct import for ethics In this book Williams Spohn takes a middle way showing how Jesus is the concrete universal of Christian ethics By forming a bridge from the lives of contemporary Christians to the words and deeds of Jesus Jesus story as a whole exemplifies moral perception motivation and Christian identity In addition Spohn shows how the practices of Christian spirituality specifically prayer service and community train the imagination and reorient emotions to produce a character and a way of life consonant with Christian New Testament moral teaching
