been blamed on the impact of neoliberal globalisation philosophy The volume focuses on unfinished project of decolonisation with an aim on African knowledge and the historical question of canonicity by keeping the emancipative dialogue alive The authors place great scrutiny on the quality of curriculum offered in universities arguing that a sound relevant curriculum original to the continent can save Africa s citizenry from challenges bedeviling socio economic development This book proposes a disruption and potential end to western hegemonic epistemologies that manifest the neoliberal geopolitical terrain in the form of cultural imperialism epistemicide and linguicide through a decolonial approach to the curriculum in African universities It interrogates and challenges the neo colonial entanglement in regional higher education policy processes coupled with the excessive dependence of regional stakeholders on western external actors for higher education policy and envisages a decolonial alternative future for the regionalisation of higher education in Africa To this end the book brings in a more philosophical and practical hermeneutic of knowledge production and dissemination that unyokes post independence African universities from the bondage of erstwhile colonisers

Standards-Based Technology and Engineering Education Scott R. Bartholomew, Marie Hoepfl, P. John Williams, 2023-11-01 This book brings together authors from around the world to discuss the Standards for Technological and Engineering Literacy The Role of Technology and Engineering in STEM Education STEL released in July 2020 by the International Technology and Engineering Educators Association ITEEA The various chapters examine and elaborate on how educators must understand the structure of the standards used and their alignment with educational programs at specific levels and contexts both in the context of the USA and internationally It also showcases case studies analyzing the use of standards in their various contexts from a number of countries which have either adapted STEL or which have national Standards in Technology Education The STEL represents a major update to the content standards that has guided the field of technology education and later technology and engineering education in the USA since 2000 In contrast to previous standards STEL presents a substantial reduction in the number of standards and associated benchmarks and the benchmarks have been operationalized to identify the key knowledge skills and dispositions associated with each standard It also emphasizes a focus on core standards that should allow for deeper levels of understanding and engagement on the part of students who in comprehensive educational programs will continue to revisit these core standards in increasingly sophisticated ways as they progress from Pre K through Grade 12

Critique in Design and Technology Education P John Williams, Kay Stables, 2017-02-21 This book addresses notions of critique in Design and Technology Education facilitating a conceptual and practical understanding of critique and enabling both a personal and pedagogical application to practice Critique can be a frame of mind and may be related to a technology product process or material In a holistic sense critique is an element of a person s technological literacy a fundamentally critical disposition brought to bear on all things technological This book provides a reasoned conceptual framework within which to develop critique and examples of applying the framework to Design and Technology

Education The book builds on *The Future of Technology Education* published by Springer as the first in the series *Contemporary Issues in Technology Education* In the 21st century an age of knowledge students are called upon to access analyse and evaluate constantly changing information to support personal and workplace decision making and on going innovation A critical Design and Technology Education has an important role to play providing students with opportunities to integrate economic environmental social and technological worlds as they develop and refine their technological literacy Through the design and development of technology they collaborate evaluate and critically apply information developing cognitive and manipulative skills appropriate to the 21st century Critique goes beyond review or analysis addressing positive and negative technological development This book discusses and applies this deeper perspective identifying a clear role for critique in the context of Design and Technology Education *Entangled Geographies* Gabrielle Hecht, 2011-04-04

Investigations into how technologies became peculiar forms of politics in an expanded geography of the Cold War The Cold War was not simply a duel of superpowers It took place not just in Washington and Moscow but also in the social and political arenas of geographically far flung countries emerging from colonial rule Moreover Cold War tensions were manifest not only in global political disputes but also in struggles over technology Technological systems and expertise offered a powerful way to shape countries politically economically socially and culturally *Entangled Geographies* explores how Cold War politics imperialism and postcolonial nation building became entangled in technologies and considers the legacies of those entanglements for today s globalized world The essays address such topics as the islands and atolls taken over for military and technological purposes by the supposedly non imperial United States apartheid era South Africa s efforts to achieve international legitimacy as a nuclear nation international technical assistance and Cold War politics the Saudi irrigation system that spurred a Shi i rebellion and the momentary technopolitics of emergency as practiced by *Medecins sans Frontieres* The contributors to *Entangled Geographies* offer insights from the anthropology and history of development from diplomatic history and from science and technology studies The book represents a unique synthesis of these three disciplines providing new perspectives on the global Cold War **Intellectual Decolonisation** George Hull, 2024-10-18 This book puts contemporary calls for decolonisation in context Featuring an interdisciplinary team of scholars from around the world the book explores and critically assesses the diverse theoretical visions which inform calls for decolonisation of the mind today Contemporary calls to decolonise focus less on politico economic relations between states more on culture and ideas Sometimes museums are the target sometimes universities or academic disciplines sometimes entire legal systems Commentators and activists speak out for others against intellectual decolonisation decolonisation of the mind But what is the colonisation which intellectual decolonisation undoes Under what circumstances can inculcation or acceptance of ideas constitute colonialism As this book demonstrates advocates of intellectual decolonisation give very different indeed incompatible answers to these questions Critically examining conceptualisations of decolonisation spanning a century and

four continents the book explores what is at stake in the choice between these theoretical alternatives Some see the aim of decolonisation as truth via the removal of distorting effects of power and bias Others troublingly subordinate truth and knowledge to ethnic or regional identity potentially paving the way for culturally authoritarian politics Intellectual Decolonisation Critical Perspectives is an indispensable resource for teachers students and scholars seeking to deepen their understanding of debates about decolonisation of the mind Individual chapters will interest researchers of the new right wing ethnonationalist political ideologies emerging in Europe Asia and Africa Originally published as a special issue of Social Dynamics this book is also a guide for anyone wondering what decolonisation is all about

Ethnography as Christian Theology and Ethics Aana Marie Vigen, Christian Scharen, 2024-10-31 How can qualitative research methods be a tool for social change Echoing the scandal of particularity at the heart of the Christian tradition theologians and ethicists involved in ethnographic research draw on the particular to seek out answers to core questions of their discipline This new edition features a dynamic selection of nuanced and provocative voices in this area of ethics and theology showing how in the past decade the kinds of qualitative methodologies employed have become more varied and sophisticated The leading and emerging scholars featured in this book have much to share how they approach this kind of work what they are learning in the process and what sorts of change is possible as a result This volume also pays tribute to the life and work of a pathbreaker in qualitative methods for the sake of theological imagination and social change the Rev Dr Melissa D Browning 1977 2021
