Making A Difference Ngos And Development In A Changing World:

Making a Difference Save the Children Fund (Great Britain), 1992 First Published in 1992 Routledge is an imprint of Taylor Francis an informa company *Non-Governmental Organisations - Performance and Accountability* Michael Edwards, David Hulme, 2014-03-18 The last decade has seen some significant changes in international development and in the status of non governmental organisations operating in the field Not only has the number of NGOs virtually doubled many of them have seen a considerable growth in their budgets and have grown closer to governments and official aid agencies NGOs are acknowledged by many to be more effective agents of development than governments or commercial interests even as a magic bullet for development problems Despite these positive trends the real impact of the NGO sector is not well documented This is partly because NGO performance assessment and accountability methods are weak and partly because NGOs are caught up increasingly in the world of official aid which pushes them towards certain forms of evaluation at the expense of others This unique book takes a hard and critical look at these issues and describes how NGOs can and must improve the way they measure and account for their performance if they are to be truly effective **Can NGOs Make a Difference?** Anthony J. Bebbington, Samuel Hickey, Diana C. Mitlin, 2008-06-15 Can non governmental organisations contribute to more socially just alternative forms of development Or are they destined to work at the margins of dominant development models determined by others Addressing this question this book brings together leading international voices from academia NGOs and the social movements It provides a comprehensive update to the NGO literature and a range of critical new directions to thinking and acting around the challenge of development alternatives The book s originality comes from the wide range of new case study material it presents the conceptual approaches it offers for thinking about development alternatives and the practical suggestions for NGOs At the heart of this book is the argument that NGOs can and must re engage with the project of seeking alternative development futures for the world s poorest and more marginal This will require clearer analysis of the contemporary problems of uneven development and a clear understanding of the types of alliances NGOs need to construct with other actors in civil society if they are to mount a credible challenge to disempowering processes of economic social and political development **The Hunger Report 1995** E. Messer, P. Uvin, 2005-11-04 Constructed from papers presented at the five year follow up to the Bellaagio declaration Overcoming Hunger in the 1990s 1989 this book highlights progress made on the problems of food shortage and poverty related hunger **The Politics of NGOs in Southeast Asia** Gerard Clarke, 2006-05-17 The Politics of NGOs in Southeast Asia traces the history of the emergence of NGOs in the Philippines and southeast Asia and the political factors which encouraged this The main focus is on the period from the mid 1990s when NGOs first became a notable force in the region It documents the complex relations between NGOs and other political actors including the state organised religion foreign donors the business sector and underground insurgent groups and their impact on NGO strategy **A Critical Analysis of the Efficacy of Law**

as a Tool to Achieve Gender Equality Natalie Persadie, 2012-07-26 Law is often perceived as an instrument that can effect social change While this might be so it must be complemented by the necessary financial and human resources to make the law effective Natalie Persadie explains that among developing countries such as Trinidad and Tobago the achievement of legal advances for women at either the international or national levels is particularly difficult where practical measures are not subsequently implemented This is perhaps attributable to a lack of political will Important issues such as gender equality and domestic violence are not given priority and laws aimed at protecting women and promoting women s rights are ineffective scant or unenforced Gender justice can only be realized through a multilevel approach from above and more importantly from below as women have the potential to effect real national and international legal and institutional change to ensure gender equality at both levels

Peacebuilding and NGOs Ryerson Christie, 2013 Analysing the relationship between civil society and the state this book lays bare the assumptions informing peacebuilding practices and demonstrates through empirical research how such practices have led to new dynamics of conflict The drive to establish a sustainable liberal peace largely escapes critical examination When such attention is paid to peacebuilding practices scholars tend to concentrate either on the military components of the mission or on the liberal economic reforms This means that the roles of Non Governmental Organizations NGOs and the impact of attempting to nurture Northern forms of civil society is often overlooked Focusing on the case of Cambodia this book seeks to examine the assumptions underlying peacebuilding policies in order to highlight the reliance on a particular linear reading of European North American history The author argues that such policies in fostering a particular form of civil society have affected patterns of conflict dictating when and where politics can occur and who is empowered to participate in such practices Drawing on interviews with NGO representatives and government representatives this volume will assert that while the expansion of civil society may resolve some sources of conflict its introduction has also created new dynamics of contestation This book will be of much interest to students of peacebuilding conflict resolution development studies S E Asian politics and IR in general

Subcontracting Peace Henry F. Carey, 2017-11-28 Non governmental organizations NGOs have emerged as crucial actors in peacebuilding processes in post conflict zones contributing to the liberal state building project NGOs like any other organizations have certain strengths and weaknesses and face tradeoffs and contradictions in peacebuilding Given increasing NGO experience in peacemaking and peacebuilding this volume examines their relatively positive record as well as the constraints limitations and sometimes contradictory impact of their activities and interventions

Organizational Information Systems in the Context of Globalization Mikko Korpela, Ramiro Montealegre, Angeliki Poulymenakou, 2003-05-31 Organizational Information Systems in the Context of Globalization exemplifies the role of social theory in approaching ICT utilization challenges in a globalization context The debates raised on implementation policy organizations and organizing and social dynamics increase our awareness of the diversity of perspectives we need to delve into when framing the role of ICTs in the globalization

agenda The equal representation of managerial and non managerial decision making contexts alerts us to the fact that ICTs should not be considered only as a corporate wealth creation prerogative This book contains the selected proceedings of the Working Conference on Information Systems Perspectives and Challenges in the Context of Globalization sponsored by the International Federation for Information Processing IFIP and held in Athens Greece in June 2003

Neoliberalism, Civil Society and Security in Africa P. Carmody, 2007-10-17 Free market policies have been in operation across Africa for the past 25 years yet they have failed to reverse deepening poverty This book explores with case studies why such policies continue to be implemented and the ways in which they have been reinvented by socialization depoliticization regionalization and securitization

Nongovernmental Organization Culture and Ethics in Kenya Douglas Kimemia, 2024-01-08 The Non Governmental sector has played a noble role in providing needed support following market failure and government failure all over the world In developing countries and Africa in particular this sector has become an important arm of economic development and civic engagement However there is growing suspicion accompanied by increased evidence that these organizations have been tolerating corrupt practices such as lack of accountability and transparency nepotism and favoritism in their governing systems and finances Douglas Kimemia s Nongovernmental Organization Culture and Ethics in Kenya focuses on the relationship between the intersection of corruption and organizational culture among NGOs in Kenya Kimemia stresses that NGOs should model strong culture to increase confidence among the various organizational stakeholders to showcase high integrity transparency and sound governance that does not tolerate any corrupt practices This book offers solutions to strengthen the existing culture within NGOs and examines how organizational culture impacts engagement in corrupt practices

Managing for Change John Hailey, 2013-09-13 An increasing proportion of the world s poor is dependent on NGOs for the support the state cannot or will not provide but little has been written to analyze or guide best management practice which is so critical to their success Managing for Change addresses the key operational issues facing NGO managers drawing lessons from the reality of southern NGOs It explores areas such as the formation of strategy effective NGO leadership the handling of donor relations staff motivation and development and the management styles most appropriate to crises and change

NGO Field Workers in Bangladesh Mokbul Morshed Ahmad, 2017-11-22 This title was first published in 2002 NGOs are receiving increasing international attention and resources from policy makers donors academics and others The New Policy Agenda accepts NGOs as agents for social welfare alongside the state and as fostering democracy in the Developing World Astonishingly however there have been very few studies and no books on NGO field workers This study of field workers in Bangladesh provides excellent insights into this neglected field Bangladesh is an excellent example as since independence in 1971 it has been a donor dependent country both financially and functionally and since the 1980s has concentrated this funding towards NGOs rather than to the state The book shows how field workers are seen simply as implementers carrying out directions given by their superiors and never being consulted on how best to

achieve their goals The book examines four types of NGOs international national regional and small local in a number of sample locations It compares the benefits and facilities provided by each NGO to their field workers then explores the socio economic background of both field workers and their mid level managers and examines the interactions between these two groups and between field workers and their clients It also looks at the field workers personal and professional lives and problems and details their opinions on their NGO s activities and policies and on development The findings show that NGO managers and donors lack knowledge of the realities in the field and do not realise how certain policies such as their positive discrimination of women can have negative results It proposes that NGO field workers should be more active in policy making and puts forward several recommendations for changes in the management and structure of future NGOs

Foreign Aid for Indian NGOs Pushpa Sundar,2020-11-29 This book explores what difference development aid has made to the size complexity style of functioning values and future direction of the NGO sector in India It does this first by giving a comprehensive documentation of the experience of Indian NGOs with foreign aid since Independence Simultaneously it also analyses in a broad historical perspective some of the issues which are the subject of contemporary debate regarding the voluntary sector and aid such as who decides what is development and how it should be brought about whether foreign donors have hidden agendas and if their aid amounts to cultural imperialism and whether aid has made NGOs more self reliant The book also looks at the tripartite relationship between NGOs donors and governments examining for instance whether the government is justified in imposing restrictions on receipt of funds by NGOs on the grounds that terrorist activities and religiously motivated communal strife are often financed with funds from abroad with NGOs being used as fronts for both

Housing and Finance in Developing Countries Kavita Datta,Gareth Jones,2012-10-12 This book explores the linkages between formal and informal housing finance drawing upon the lessons of NGO and micro finance practices Both public and private formal finance institutions have experienced great difficulty in lending below a middle income client group and are often reluctant to lend for the purpose of housing at all This failure of formal finance to filter down to low income households and in particular to women has led various NGOs and community groups to create and adopt innovative finance programmes such as informal savings banks and credit rotating schemes The authors critically assess the impact of these schemes and evaluate links between gender housing and finance

Global Citizen Action Michael Edwards,John Gaventa,2014-04-08 Civil society or citizen s groups have taken centre stage in international policy debates and global problem solving They hold out the promise of a global community and global governance This volume by leading scholars and participants shows how to understand the changes that are occurring particularly in relation to the international institutions involved It includes case studies from all the major social movements of the 1990s

Partnerships for Girls' Education Ines A. Smyth,Nitya Rao,2005 An account of the formation and development of the Global Campaign for Education is followed by detailed case studies from Bangladesh Egypt the Philippines Peru and sub Saharan Africa illustrating a wide
