Making Change Work Making Change Work:

Making Change Work Brien Palmer, 2003-07-03 As organizations strive to remain ahead of the competition there will inevitably and often come the need for change All successful organizations regularly use change to improve processes and increase performance While these times of change can be a great opportunity for an organization it also can be a time of stress and angst for all involved Not all organizations are in a position to make these changes effectively and efficiently and for many their efforts often fall short of the intended goals Making Change Work Practical Tools for Overcoming Human Resistance to Change was written to help organizations prepare for and successfully implement change The price of a failed change effort can be steep both monetarily and in a loss of credibility Making Change Work will first provide tools to measure your organization's readiness to change helping make sure that the efforts will not be doomed to fail from the beginning The book then provides many tools to apply sequentially and logically in order to gain acceptance of the change throughout the organization In helping your organization make change successfully Making Change Work addresses buy in acceptance motivation anticipation fear uncertainty and all the other messy human considerations that cause change to fail in the real world

Making Change Work Edgar Wille, Philip Hodgson, 2001 Change is becoming a way of life for most managers and success in business may depend on an individual's ability to adapt to change quickly and effectively This is a guide to change management It shows readers how to assess their capabilities as managers of change plan a strategy for implementing change cope with problems that change may bring develop the personal skills required to successfully manage change and overcome resistance to change in others The authors both have wide experience of working in changing environments and have undertaken extensive research in a range of changing organizations Much of the material in this book has been developed and tested on the Making Change Work programme launched by the authors at Ashridge Management College

Making changes in operational PFI projects Great Britain: National Audit Office, 2008-01-17 This NAO report forms part of a number of NAO reports looking at PFI Private Finance Initiative projects undertaken across the public sector PFIs are contractual arrangements with private sector companies to design build finance and operate institutions such as schools and hospitals At present there are over 500 operational projects throughout the UK with a combined capital of 44 billion It is also estimated that including future payments with many projects running up until 2031 32 capital will rise to 91 billion Given the length of many of the contracts it is inevitable that operational changes to services will be required so it is important that PFI contracts have flexibility with built in value for money The report is divided into three parts with appendices The NAO has set out a number of findings including that PFI deals are offering sufficient flexibility to the public sector that some projects achieve better value than others but that i higher value changes were not always competitively tendered ii for minor works there was little consistency in the methods used by the public sector iii that the cost of replacing items throughout the life of the contract was also inconsistently applied iv that contractors had often charged additional fees

which were not specified in the original contract The NAO recommendations include where there is a relevant contract clause competitive tendering should be undertaken for existing contract deals authorities employing contractors need to put in place consistent and robust means to validate the costs of small changes public authorities should explore with their private sector partners the feasibility of clarifying current contracts so they follow current best practice contract management should be properly resourced in order to manage the change process Public sector authorities could improve value for money of operational changes by adopting a strategic approach to changes keeping a good permanent record of changes and payments made fostering open lines of communication with front line users and other stakeholders as well as the PFI contractor
