Making Literature Matter John Schilb, John Clifford, 2011-08-25 Students respond powerfully to literature when it explores issues that matter to them such as how love can be compromised by the demands of tradition how authoritarian injustice can be resisted and how popular culture influences behavior And when students learn to analyze and argue for how literature engages such issues and exerts such power they develop and hone their critical thinking and writing skills In its fifth edition **Making Literature Matter** continues to deliver on the promise of its title Its thematic anthology gathers memorable stories poems plays and essays into unique literary clusters addressing issues that rouse passionate responses in students At the same time its comprehensive rhetoric shows students how to harness those responses into thoughtful arguments about the issues raised by the clusters and the literature Read the preface This anthology is now available with video Learn more about VideoCentral for Literature [Making Literature Matter 5th Ed + Re:writing Plus](#) John Schilb, John Clifford, 2011-08-29

research cannot Stories bring together readers writers librarians teachers students and families in the libraries of today and will continue to do so tomorrow Written for all those lovers of literacy this book links libraries and literacies through the power of stories The book is not filled with data in the form of pie charts graphs and tables Rather the truth of the research is grounded in authentic stories that reflect not only the interpretation of data but also the transformative nature of literacies and libraries The author s primary goal is that readers will come to value and use storytelling in their own professional and personal lives to explain and expand on complex concepts and to make information more accessible for all The book begins by presenting anecdotes and the author s personal story to lay the foundation for what literacies are and what literacy is not An activity Spiral of Literacy allows readers to reflect on their own literacies Chapters that follow each begin with a story that sets the theoretical foundation Each chapter concludes with an action section that demonstrates how to turn theory to practice whether you are in a library a classroom or at home A final chapter envisions what libraries might look like in 10 years through interviews with librarians teachers and others interested in literacy
