God And Nature God And Nature:

Nature, God and Humanity Richard L. Fern, 2002-04-04 Nature God and Humanity clarifies the task of forming an ethics of nature thereby empowering readers to develop their own critical faith based ethics Calling on original thought provoking analyses and arguments Richard L Fern frames a philosophical ethics of nature assesses it scientifically finds support for it in traditional biblical theism and situates it culturally Though defending the moral value of beliefs affirming the radical Otherness of God and human uniqueness this book aims not to compel the adoption of any particular ethic but rather illumine the contribution diverse forms of inquiry make to an ethics of nature How does philosophy clarify moral conviction What does science tell us about nature Why does religious faith matter Rejecting the illusion of a single rationally compelling ethics Fern answers these questions in a way that fosters both agreement and disagreement allowing those holding conflicting ethics of nature to work together for the common good

The True Nature of God Andrew Wommack, 1997 Often human perspective and the mechanics of Christianity eclipse the true nature of God the God Who wants nothing more than to share an intimate friendship with His children If you re wondering who God is or if He cares let Andrew Wommack show you The True Nature of God

Nature, God and Humanity Richard L. Fern, 2002-04-04 This study interweaves philosophical scientific religious and cultural factors to reveal why non human animals and nature are objects of moral concern and how our well being depends on harmony with nature as it was created This argument is unique in its comprehensiveness its overt reliance on traditional forms of religious faith and its account of how those with conflicting ethics can work together to end the current foolish abuse of nature

Nature, God and Pulpit Elizabeth Achtemeier, 1992-11-06 This is a print on demand book and is therefore non returnable A book whose time has come Nature God and Pulpit draws together and interprets for the church and especially for preachers the biblical materials on the relationship between God and his creation The book is particularly timely because as Elizabeth Achtemeier points out few subjects have been more neglected and less explicated by this country s pulpits than the relation between nature and God Clearly articulating what the Bible says about the material world and God s relation to it this book is all of the following A thoughtful biblical response to recent discussions of ecology A discerning corrective to many current theologies and ideologies An appreciative summary of the findings and notions of modern science A mother lode of materials and sample sermons on the relation of God to his creation A passionate call for preachers to more thoroughly examine and articulate scriptural content An eloquent and inspiring celebration of God in relation to his world While written primarily for preachers Nature God and Pulpit will provide provocative reading for many others as well seminarians homiletics students teachers and anybody who wishes to better understand the Christian view of

the cultural structure of consciousness the invisible shared context of thought which has changed dramatically over the past three millennia This book offers a new way to understand the trajectory of Western civilization by making the implicit foundation of Western consciousness soul visible and conscious Our modern Western consciousness is radically different from that of antiquity when the Bible emerged Jung s psychological philosophical insight that whenever we speak about the psyche it is the psyche speaking about itself leads to the realization that today consciousness has come home to itself Beginning with preliterate polytheism the emergence of the transcendent god Yahweh and Christ which led directly to the Enlightenment objective soul continues to unfold itself How did late modernity become a topsy turvy quantum virtual digital impersonal and abstract world that appears to be running away from us The answer is unexpectedly and shockingly in the Bible itself Nature X Nature of Everything Albert Michelutti,2014-02-13 As Albert Einstein lay on his death bed he asked for his glasses his writing implements and his latest equations He knew he was dying yet he continued to work In those final hours of his life while fading in and out of consciousness he was working on what he hoped would be the greatest work of all It was a project of monumental complexity It was a project that he hoped would unlock the mind of God God and Nature Curtis L. Birkett,2021-10-06 Embrace science and keep your faith For many God has been banished from scientific inquiry Only natural forces are at work in our world Science succeeds without the supernatural But can everything be explained by natural causes In What Does Nature Teach Us about God Kirsten Birkett rethinks the relation between nature science and faith God and science are not simply two rival answers to your questions The Creator makes sense of the creation Science is only truly possible with God You can engage with science without losing sight of your Creator The Questions for Restless Minds series applies God s word to today s issues Each short book faces tough questions honestly and clearly so you can think wisely act with conviction and become more like Christ
