Gods Myths Aliens Ancient Civilizations:

Gods, Myths and Aliens Hilary Brown, Go Entertain, 2015-11-25 Did aliens really visit Earth thousands of years ago aliens so technologically sophisticated that they altered the course of our history That s the theory posited by the Swiss author Erich von Daniken in his highly controversial 1960s bestseller Chariots of the Gods which sparked fierce debate regarding the possibility that intelligent life forms from outer space visited our planet and had a major impact on our ancient civilisations This richly illustrated publication explores multiple aspects of this fascinating and challenging subject It looks at what is arguably the most sensational UFO case in history the Roswell incident and at Britain s very own Roswell the Rendlesham Forest incident which some insist was a genuine alien visitation during which extraterrestrial beings and their craft were seen at close quarters in a Suffolk forest It then explores the field of archaeoastronomy the study of the astronomical practices and celestial lore of ancient cultures and how various civilisations may have looked to the heavens to create some of the greatest astronomically aligned structures on Earth including the Great Pyramid at Giza the Carnac Stones in Brittany Chaco Canyon in New Mexico and the great chambered cairns at Maeshowe on Orkney and Newgrange in Ireland It looks at one of the most ancient and mystical counties in England Wiltshire which is home to one of the greatest concentrations of prehistoric remains in the country including Stonehenge and the stunning Avebury Complex and it probes the question of why the Wiltshire town of Warminster has been dubbed by some Britain s UFO capital **GODS MYTHS AND ALIENS** also explores the angel phenomenon in various religious belief systems and the claims of some who are said to have had direct contact with angelic beings It then probes some of the greatest and most enduring enigmas of the landscape from the Peruvian Nazca Lines and the Easter Island Heads to three of the most famous hill figures in Britain the Cerne Giant the Long Man of Wilmington and the iconic Uffington White Horse The Bermuda Triangle and the Mary Celeste form the focus of a chapter that looks at some of the greatest maritime mysteries of all time including whether the story of the lost kingdom of Atlantis has any basis in fact and how it came to influence Nazi ideology This leads on to the booklet s final chapter which explores the Third Reich s involvement with aspects of the occult and how it came to shape their horrific regime The Aliens and God Theory Jagdish Krishanlal Arora, 2023-07-17 The Aliens and God theory explores the potential connection between extraterrestrial life and religious or spiritual beliefs It suggests that encounters with advanced civilizations could have influenced human religions throughout history This theory is often speculative and debated within both scientific and philosophical communities Proponents argue that ancient religious texts and myths may contain descriptions of encounters with advanced beings which could be interpreted as interactions with extraterrestrial visitors mistaken for gods Critics of the theory point out that attributing religious beliefs solely to extraterrestrial influence overlooks the complex cultural historical and psychological factors that contribute to the formation of religious ideas They argue that such a theory can oversimplify the rich tapestry of human spirituality and reduce it to a mere byproduct of potential contact with intelligent beings from

other planets In essence the Aliens and God theory is a speculative concept that draws connections between extraterrestrial presence and religious beliefs but it s important to approach this idea critically and consider the multifaceted origins of human spirituality

The Myth and Mystery of UFOs Thomas E. Bullard, 2016-10-17 When United Airlines workers reported a UFO at O Hare Airport in November 2006 it was met with the typical denials and hush up that usually accompany such sightings But when a related story broke the record for hits at the Chicago Tribune s website it was clear that such unexplained objects continued to occupy the minds of fascinated readers Why wonders Thomas Bullard don t such persistent sightings command more urgent attention from scientists scholars and mainstream journalists The answer in part lies in Bullard s wide ranging magisterial survey of the mysterious frustrating and ever evolving phenomenon that refuses to go away and our collective efforts to understand it In his trailblazing book Bullard views those efforts through the lens of mythmaking discovering what UFO accounts tell us about ourselves our beliefs and the possibility of visitors from beyond Bullard shows how ongoing grassroots interest in UFOs stems both from actual personal experiences and from a cultural mythology that defines such encounters as somehow alien and how it views relentless official denial as a part of conspiracy to hide the truth He also describes how UFOs have

catalyzed the evolution of a new but highly fractured belief system that borrows heavily from the human past and mythic themes and which UFO witnesses and researchers use to make sense of such phenomena and our place in the cosmos Bullard's book takes in the whole spectrum of speculations on alien visitations and abductions magically advanced technologies governmental conspiracies varieties of religious salvation apocalyptic fears and other paranormal experiences Along the way Bullard investigates how UFOs have inspired books movies and television series blurred the boundaries between science science fiction and religion and crowded the Internet with websites and discussion groups From the patches of this crazy quilt he posits evidence that a genuine phenomenon seems to exist outside the myth Enormously erudite and endlessly engaging Bullard's study is a sky watcher's guide to the studies stories and debates that this elusive subject has inspired It shows that despite all the competing interests and errors clouding the subject there is substance beneath the clutter a genuinely mysterious phenomenon that deserves attention as more than a myth

What The Aliens Told Us About God, Jesus, Human Soul And The Afterlife Maximillien De Lafayette, 2016-07-30 What The Aliens Told Us About God Jesus Human Soul And The Afterlife From the secret aliens US meetings in 1947 and 1948 and the account of Maria Orsic Published by Times Square Press New York If you are among those who believe that our government's representatives met with aliens extraterrestrials then and logically you should entertain or consider the possibility that some of the subjects discussed during those meetings would be of a religious or at least moral or ethical nature especially since at least three powerful religious leaders in our country attended one or two meetings with aliens on an American soil In fact this is exactly what happened And we will be discussing the concerns and the questions of those religious dignitaries the answers of the aliens and how a synopsis of the discussions between our religious leaders and aliens ended up on the desk of religious authorities thanks to their religious affiliation and or loyalty to their faith's hierarchy

No Sacred Cows David G. McAfee,Yvette d'Entremont,2017-08-22 While belief in religious supernatural claims is waning throughout the West evidence suggests belief in nonreligious supernatural claims is on the rise What explains this contradiction How can a society with a falling belief in God have a rising belief in ghosts psychic powers ancient astronauts and other supernatural or pseudo scientific phenomena Taking the same anthropological approach he employed in his notable studies of religion atheist author and activist David G McAfee turns his attention to nonreligious faith based claims Whether going undercover as a medium getting tested at Scientology headquarters in Los Angeles or interviewing celebrity paranormalists and famous skeptics he leaves no stone unturned in his investigation As in the case of religion he finds an unwillingness among believers to critically

examine their most closely held convictions Only once individuals honestly assess their own sacred cows will they be able to ensure that their beliefs conform to the known facts and that our decisions as a society are based on the best available evidence 4th Dimension Magazine.
